

### Minimum System Requirements

This document lists the required system infrastructure to run your Blackbaud system. Blackbaud recommends the purchase of top-of-the-line equipment when possible and that organizations budget for continual upgrades to their system. Please note that minimum system requirements are subject to change, so make sure you have the latest information before making any purchases.

In addition to the following minimum requirements, Blackbaud strongly recommends the purchase and scheduled use of a tape or archival backup solution.

### Fundware 7.70 Terminal Server - Professional

#### Windows Server minimum requirements

Supported Operating Systems	<ul style="list-style-type: none"> <li>◆ Windows Server 2008 Standard; SP2 is supported.</li> <li>◆ Windows Server 2008 R2 Standard; SP1 is supported.</li> <li>◆ Blackbaud does support FundWare on a Virtual Server</li> </ul> <p><b>Note: Blackbaud does NOT support Client / Server Environments</b>  <b>Note: Blackbaud does NOT support the non-Windows Operating Systems</b>  <b>Note: Blackbaud does NOT support FundWare installed on Domain Controllers</b></p>
Processor (CPU)	<ul style="list-style-type: none"> <li>• Minimum: 1GHz (x86 processor) or 1.4GHz (x64 processor)</li> <li>• Recommended: 2GHz or faster</li> <li>• Recommended: 2 or more cores/processors</li> </ul>
Memory (RAM)	<p>Minimum: 1GB RAM          Recommended: 2GB RAM or greater</p>
