Canberra ACT 2600

FIAT JUSTITIA, RUAT COELUM

Let Right Be Done, Though The Heavens Should Fall

Notice to principle is Notice to agent. Notice to agent is Notice to principle.

I, commonly addressed by the name Malcolm-Ieuan: Roberts., in my correct capacity as beneficiary to the original jurisdiction, being majority in age, competent to testify, a self realised and free sentient man upon the land, my yes be yes, my no be no, do state that the truths and facts herein are of first hand personal knowledge, true, correct, complete, certain and not misleading, so help me God.

Preamble: From what I, Malcolm-Ieuan: Roberts., have seen and in my experience, on the topic of human causation of global warming, also known as global 'climate change', people across Australia express a range of feelings including confusion, fear, guilt, frustration, resentment, anger, apathy and doubt. As a result of this and of political inconsistencies since 2006, people across Australia say their needs for truth, understanding, reassurance, security, confidence, hope and clarity are not being met. I share these unmet needs and after four years reading and researching claims of human causation of global warming, and after communicating directly with many politicians of all major Australian political parties I feel deeply concerned. It appears that politicians and associated advocates, particularly those receiving funding from government, appear to be failing their duty of care to the people of Australia. My concern is that our nation is divided and especially that unfounded political action is leading to serious, needless and avoidable damage to Australia's sovereignty, governance, morals, science, natural environment and economy and to serious harm to the people of Australia individually and as a nation and to their communities, freedoms, property rights, livelihood, wealth, welfare, ease, efficiency, comfort, safety and security.

I come to you in good faith and want remedy for my situation. In doing so I am presenting and making a contract that is fair, equitable and responsible.

Affidavit of Notice of Standing and Further and Better Particulars and Proof of Claim.

For these reasons I do not consent and cannot accept the “Carbon Tax” nor the terms and conditions as the bills imply as it is an issuance of a “false document” of “defective service”

1. For the reason of, is this not an unjustifiable imposition of costs on me?
2. For the reason of, is this not restricting my freedoms through arbitrary legislation?
3. For the reason of, has the government not reversed its responsibility of serving the people and instead determined the people must serve the government.
4. For the reason of, is this not injuring the people of the common wealth?
5. For the reason of, the government not having consent of the people, are the proposed bills not an illegal and unlawful attempt to impose the tax?
