PART 1: EXPLANATORY NOTES

1.1 Introduction

Australian Gambling Statistics is the official collection of Australian data on legalised regulated gambling for which accurate figures are available. The *Australian Gambling Statistics* publication is produced by the Queensland Government Statistician's Office (QGSO) in cooperation with all state and territory governments. QGSO is a part of Queensland Treasury and is the principal demographic and social statistics research agency for the Queensland Government.

1.2 Scope of the publication

The 32nd edition of *Australian Gambling Statistics* updates data for the financial years 1989–90 to 2014–15. The publication comprises statistics on turnover, expenditure and government revenue from gambling activities conducted in Australian states and territories. It is important to note that the statistics for each individual state or territory include turnover and expenditure generated by overseas and interstate visitors as well as those generated by residents of that state or territory.

All dollar figures are given in nominal terms except where a table is denoted as being in real terms. See Glossary item 'CPI deflator' for an explanation of how real dollar figures are calculated for the purpose of this publication.

1.3 Background

The development of a database of statistics on gambling on a national basis was formally proposed at the June 1983 Conference of Government Racing Officials held in Darwin. The conference agreed to draw attention to the relative absence of reliable economic and social data on gambling, and resolved that this information be collected, collated and shared on a national basis.

Led by the existing statistical collections of the (then) Tasmanian Racing and Gaming Commission, it was recommended that the racing and gaming administrations of other state and territory governments develop their own statistical base to assist in the development of a national gambling statistical record.

At the September 1983 Racing and Gaming Ministers' Conference held in Melbourne, it was resolved:

That the Conference approve the establishment of a National Statistical Data Bank and each state and territory agree to submit all available racing and gaming statistics in a consistent format to the Tasmanian Racing and Gaming Commission for collation and analysis. A report is to be presented detailing the data to each Minister. A review of the effectiveness of this service will be undertaken at the next Racing and Gaming Ministers' Conference.

In line with the conference resolution the Commission, with the assistance of a firm of economic consultants, extracted from published records a significant quantity of data relating to gambling turnover in each state and territory since 1972. This information was circulated to each state and territory for the purposes of correction and the addition of data that were not readily obtainable from available sources.

The first consolidation and assessment of these data was produced for the Racing and Gaming Ministers' Conference in late 1984. At the Commission's request, it was subsequently approved that the report be made publicly available. The Tasmanian Gaming Commission continued to produce annual statistics until 2004, when the Queensland Government Statistician's Office (formerly the Office of Economic and Statistical Research), within Queensland Treasury, was endorsed by jurisdictional CEOs to produce the publication on an ongoing basis.

1.4 Glossary

Bookmakers off-course: These figures relate to the amount wagered via off-course bookmakers. In Tasmania it represents the figure for sports betting or amounts wagered on events other than horse racing or greyhound racing.

Bookmakers on-course: These figures relate to the amount wagered via bookmakers at the race track on both horse and greyhound racing. A player can wager any amount above a set minimum and will receive the bookmaker's odds at the time of making the wager. Those odds stand, irrespective of whether the bookmaker alters the odds at a later time. Bookmakers are licensed in each jurisdiction.

Casino gaming: The various figures reported under this heading represent wagers at casinos and include wagers on table games, gaming machines and keno systems.

Casino turnover: The casino turnover figure is actually a combination of handle and turnover. Turnover is the amount wagered on a gambling activity whereas handle is a term used to describe the amount of money exchanged for gaming chips at a gaming table. It is difficult, if not impossible, to record the amount of each wager made on a table game. Therefore it is difficult to report casino turnover accurately. Hence, the only amount that can be reported for table games is handle. Readers are therefore urged to use casino turnover figures with care.

Consumer Price Index (CPI): The price index used as the deflator for conversion of current year (nominal) values to real values is the Consumer Price Index (CPI) All Groups weighted average of eight capital cities. The CPI is a measure of change over time in the retail price of a constant basket of goods and services which is representative of consumption patterns of employee households in metropolitan areas. This index for each year is set out in Table 1. CPI data for the period 1989–90 to 2014–15 were derived from data from the Australian Bureau of Statistics (ABS).

Expenditure (gross profit): These figures relate to the net amount lost or, in other words, the amount wagered less the amount won, by people who gamble. Conversely, by definition, it is the gross profit (or gross winnings) due to the operators of each particular form of gambling.

Football Pools (Pools): The Pools is a numbers game of chance where the winning numbers are based on the results of the United Kingdom or Australian soccer matches.

Each week, 38 soccer matches are selected to form a 'match list'. Each match is assigned a number from 1 to 38. The results of the matches are then collected and ranked, with scored draws ranked highest and home score wins ranked lowest. The six highest-ranked match numbers are then used as the official results numbers for the Pools draw. There is also a supplementary number selected, which is the seventh-highest ranked match result. To play the Pools, players select six numbers from the 38. If the selected numbers are the same as the official results numbers, the player wins one of the five prize divisions.

The Pools is administered by SA Lotteries on behalf of the Australian Soccer Pools Bloc. The Bloc was formed in June 1989 by lottery jurisdictions in Australia. Its purpose is to promote the game of Soccer Pools and produce accurate and uniform prize pools and dividends for subscribers to the game.

Gambling: The placement of a wager or bet on the outcome of a future uncertain event. In this document, gambling includes lawful gaming, racing and sports betting activities. The statistics presented in this publication are for legalised regulated gambling for which accurate figures are available, and hence do not represent turnover or expenditure on all forms of gambling.

Gaming: All legal forms of gambling other than racing and sports betting, such as lotteries, poker and gaming machines, casino gaming, football pools, interactive gaming and minor gaming (which is the collective name given to raffles, bingo, lucky envelopes and the like).

Gaming machines: All jurisdictions, except Western Australia, have a state-wide gaming machine (poker machine) network operating in clubs and/or hotels. The data reported under this heading do not include gaming machine data from casinos.

Gaming machines accurately record the amount of wagers played on the machines. So turnover is an actual figure for each jurisdiction. In most jurisdictions operators must return at least 85 per cent of wagers to players as winnings, either by cash or a mixture of cash and product. Gaming machines may be linked together in order to offer major jackpots.

Government revenue: The revenue received by state governments from gambling activities that are subject to state taxes and levies.

Household disposable income (HDI): This is defined as gross household income less income tax payable, other current taxes on income, wealth etc., consumer debt interest, interest payable by unincorporated enterprises and dwellings owned by persons, net non-life insurance premiums and other current transfers payable by households.

Information on HDI by state and territory has been derived from data taken from the ABS. Data on HDI were taken from the revised ABS series on 'Household gross disposable income', reported by state and territory in the *Australian National Accounts: State Accounts* for the 1989–90 to 2014–15 period only, with only the total Australian HDI published for the years prior to 1989–90.

When interpreting gambling figures as a proportion of HDI by state and territory, users of the data should note that such data represent expenditure within the jurisdiction concerned, and do not adjust for interstate or international gamblers. No relevant data are collected on interstate gamblers.

Instant lottery: Commonly known as ‘scratchies’, where a player scratches a coating off the ticket to identify whether the ticket is a winner. Prizes in the instant lottery are paid on a set return to player and are based on the number of tickets in a set, the cost to purchase the tickets, and a set percentage retained by the operator for costs. The operation of instant lotteries is the same as for lotteries.

Interactive gaming: Defined as gambling on activities conducted via the internet. It specifically excludes wagering in the form of racing and sports betting, and lotteries via the internet. Interactive gambling services provided to Australian residents by an internet casino are banned under the Commonwealth *Interactive Gambling Act 2001* (IGA) which came into effect in August 2001.

Keno (clubs and hotels): A computerised keno system operates in clubs and hotels in New South Wales, Queensland, South Australia, Victoria, Tasmania and the Australian Capital Territory. In 1998–99, Keno was introduced into Star City Casino (Sydney). Keno is a game where a player wagers that their chosen numbers match any of the 20 numbers randomly selected from a group of 80 numbers via a computer system or a ball-draw device. In most states, Keno is linked to all venues within a particular jurisdiction, enabling the operator to offer large jackpot prizes. Keno has a fixed pay scale such that the payout for each wager is established by rules and is independent of the total wagers made on the game.

Lotteries: Lotteries are conducted Australia-wide by both government and commercial operators. There are three components to a lottery: the purchase of a ticket, a draw and a prize. A person whose ticket is selected in a lottery wins a prize based on the total amounts wagered after deduction of a set percentage by the operator to cover costs. Lottery tickets are sold at various outlets around Australia, such as newsagents. The same operators may also conduct Lotto, Pools and instant lottery.

Lotto: The figures reported in this section cover a variety of lottery games, commonly known as Tattsлото, Gold Lotto, Lotto, X-Lotto or Powerball depending on the jurisdiction. Lotto is a game where a player selects any six numbers from 1 to 45 in anticipation that those numbers will be among eight numbered balls, randomly drawn from a ball-draw device containing 45 balls numbered from 1 to 45. The first six of the eight balls drawn are known as the 'winning numbers' and the last two balls are called 'supplementary numbers'.

There are five prize divisions, with Division 1 being the major prize. The prize payout for each division is dependent on the amount of wagers made, less the operator's costs. A player wins if their selected numbers match those randomly drawn in a set combination.

Minor gaming: The collective name given to raffles, bingo, lucky envelopes and the like.

On-course totalisator: These figures relate to the amount wagered on a racetrack, during race meetings, or at authorised auditoria.

Population: Population data from the ABS have been used to calculate the figures presented in the per capita tables. These population data exclude all persons under the age of 18 years. The per capita calculations are undertaken by dividing the relevant financial data for a given financial year by the mean resident population aged 18 years and over in the region during the relevant financial year. Mean estimates for the populations of the states and territories for the period 1989–90 to 2014–15 are presented in Table 3. Note that the same caveat relating to the influence of visitors to a state on the estimates reported in the HDI tables is also relevant to the interpretation of the estimates reported in the per capita tables.

Racing betting: Within the context of this report, racing betting comprises legal betting with bookmakers and totalisators, both on racecourses and off-course (TAB). It is related to betting on the outcome of horse and greyhound races.

'Real' variables: Refers to data that have had the effects of inflation removed. This is achieved by specifying a base year (in this instance 2014–15) and 'deflating' each previous year by the CPI (see Table 1). This means that all data in a table showing real values may be compared directly, the effects of inflation having been removed.

Revised figures: Figures with a 'revised' (R) notation detail data that have been revised from the previous edition of the Australian Gambling Statistics publication.

Sports betting: The wagering on approved types of local, national or international sporting activities (other than the established forms of horse and greyhound racing), whether on or off-course, in person, by telephone, or via the internet.

Totalisator Agency Board (TAB): This form of wagering is Australia-wide and is the amount wagered at TAB outlets (other than those on a race track). Totalisator wagering is where a player makes a 'unit' wager (a unit being any multiple of 50 cents or one dollar depending on the jurisdiction). Totalisator betting is sometimes called pari-mutuel betting. The operator deducts a percentage of the total units wagered (for costs including tax), and the remainder is returned as dividends (winnings) to players in multiples of the unit wagered.

In several jurisdictions, the TAB has been privatised. There are three TAB pools: the Victorian pool (known as the SuperTAB, to which Tasmania, Australian Capital Territory and Western Australia are parties), the New South Wales pool, and the Queensland pool (to which South Australia and the Northern Territory are parties). Each jurisdiction retains the deductions from wagers made in that particular jurisdiction.

Turnover: An expression used to describe the amount wagered. This does not include any additional charges that may also be paid at the point of purchase, such as selling agents' commission in the case of lotteries (except where noted in tables).

Wagering: All legal forms of gambling on racing and sporting events.

1.5 Overview of gambling data

Sources of data

State and territory government racing and gaming authorities were approached to provide actual data on turnover, expenditure and government revenue, for each form of gambling within their jurisdiction. Where actual data were not available, the relevant authorities were encouraged to make estimates of the unavailable statistics and provide both these estimates and explanations of the estimation methods. The methods that have been used to estimate missing values are elaborated upon in section 1.6.

Legislative restrictions preclude several jurisdictions from releasing data until the close of the calendar year relating to the statistics. Users should note that the statistics are not available until after this period.

Goods and services tax

On 1 July 2000, the goods and services tax (GST) replaced wholesale sales tax, which was applied at varying rates to a range of products. The GST is a broad-based tax of ten per cent on most supplies of goods and services consumed in Australia. This includes gaming products. Therefore, the gaming tax revenue figures shown in this publication from 2000–01 onwards are not comparable with those of preceding years.

Relevant legislation

Gambling policy and legislation in Australia has traditionally been the role of the states and territories rather than the Commonwealth. Relevant state-based legislation is detailed in state and territory summaries in section 1.6.

Forms of gambling

The following table provides an overview of the types of gambling that are legally permitted and currently being undertaken by Australian residents and overseas visitors in each state and territory.

- *Totalizator Act 1997*
- *Unlawful Gambling Act 1998.*

New developments

- In February 2015, NSW approved a bloc agreement to allow the introduction of multi-jurisdictional draw lotteries. Amendments to draw lottery games included an increased amount of tickets in each draw for the \$2 and \$5 game, selling the existing NSW Lotteries games into multiple jurisdictions (NSW, ACT, Victoria, Queensland, Tasmania and NT) as part of a bloc arrangement, increasing the number of divisions and increasing the jackpot contribution amount for each game.
- In 2015, NSW approved a new multi-jurisdictional game, 'Set for Life'. It is a daily lottery which pays out a top prize of \$20,000 per month for 20 years (amounting to a total payout of \$4.8 million).
- Amendments were made to the Gaming Machines Regulation 2010 to increase the gaming machine prize cheque threshold to \$5,000 and increase the default limit for card-based gaming machine player accounts to be consistent with the cheque prize limit and the 'Ticket In, Ticket Out (TITO)' limit.

1.6.2 Victoria

Legislation

Legislation governing the regulation, supervision and control of gambling activities in Victoria includes:

- *Casino Control Act 1991*
- *Casino (Management Agreement) Act 1993*
- *Gambling Regulation Act 2003*
- *Racing Act 1958*.

A copy of current Victorian legislation can be accessed from the Victorian Legislation and Parliamentary Documents website at www.legislation.vic.gov.au under Victorian Law Today.

New developments

Variation to the Casino Management Agreement

On 22 August 2014, the Victorian Government reached an agreement with Crown Melbourne Limited on a broad number of changes to be implemented which included amendments to the *Casino Control Act 1991* and casino licence conditions.

The key changes of the agreement included:

- removal of super tax on commission-based players' gaming revenue
- an increase of the maximum number of gaming tables from 400 to 440 (excluding 100 poker tables), including an increase of automated terminal stations connected to fully automated table games from 200 to 250
- an increase of the maximum number of gaming machines from 2,500 to 2,628
- an extension of the duration of the casino licence by 17 years to 2050
- payment of two lump sums to the state for extension of the duration of the casino licence (the first lump sum of \$250 million was paid on 7 November 2014, the second lump sum of \$250 million is due on 1 July 2033)
- contingent payments payable on 1 September 2022 if the compound annual growth rate of normalised gaming revenue at the casino exceeds predetermined percentages over the period from FY14 to FY22
- an annual tax guarantee that a minimum of \$35 million per annum is paid to the state on the revenue generated from the new gaming tables and gaming machines over the six financial years commencing on and from 1 July 2015.

The changes were subject to the ratification of a *Tenth Deed of Variation to the Casino Management Agreement (Deed)* by legislative amendment and amendments to the casino licence.

The Deed was ratified by Parliament on 21 October 2014 in accordance with the ratifying provisions of the *Casino and Gambling Legislation Amendment Act 2014*.

To give effect to the above arrangements, Crown made an application on 9 September 2014 to the Victorian Commission for Gambling and Liquor Regulation (VCGLR) to amend the conditions

contained in the casino licence to allow for the additional gaming products and to extend the term of the licence. On 20 October 2014, the VCGLR determined to approve the application effective from 3 November 2014.

Surrender and variation of public lottery licences

The Victorian Government accepted the surrender by Intralot Australia Pty Ltd of its Category 2 public lottery licence and, effective from 31 January 2015, it ceased selling and conducting the instant lotteries that were authorised by its licence, and exited the Victorian lottery market.

The Victorian Government subsequently amended the Tattersall's Sweeps Pty Ltd public lottery licence to enable it to sell its range of instant lottery products in Victoria effective from 1 February 2015.

Review of gaming machine arrangements

In July 2015, the Victorian Government commenced a review of gaming machine arrangements, to look at whether the current entitlement model has met its objectives and to consider how venues own and operate gaming machines, the distribution of machines between hotels and clubs, and the length of entitlements.

The Department of Justice and Regulation will consult with industry and the community, and report to the Government by July 2016 (click [here](#) for more information and terms of reference).

General industry information

Fingerprinting requirements removed for gaming industry employee and casino special employee licence applicants

Previously, all applicants for a gaming industry employee and casino special employee licence were required to obtain a National Police Check with fingerprints. From December 2014, applicants for these licence types are only required to submit a National Police Check (name). This means that applicants are no longer required to have finger and palm prints recorded.

The VCGLR still maintains the discretion to request an applicant undergo a fingerprint check if necessary.

The change is consistent with the VCGLR's risk-based regulatory approach. It will affect around 2,700 gaming industry and casino special employee applicants each year, reducing regulatory burden and administrative costs, while also streamlining the application process.

1.6.3 Queensland

Legislation

Primary legislation governing the regulation, supervision and control of gambling activities in Queensland includes:

- *Brisbane Casino Agreement Act 1992*
- *Breakwater Island Casino Agreement Act 1984*
- *Cairns Casino Agreement Act 1993*
- *Casino Control Act 1982*
- *Charitable and Non-Profit Gaming Act 1999*
- *Gaming Machine Act 1991*
- *Interactive Gambling (Player Protection) Act 1998*
- *Jupiters Casino Agreement Act 1983*
- *Keno Act 1996*
- *Lotteries Act 1997*
- *Wagering Act 1998*.

New developments

- The *Construction and Tourism (Red Tape Reduction) and Other Legislation Amendment Act 2014* commenced on 28 May 2014, except for several provisions relating to the community benefit funds which commenced 24 August 2014. The provisions amended the *Casino Control Act 1982* to amalgamate the Jupiters Casino Community Benefit Fund, the Breakwater Island Casino Community Benefit Fund and the Reef Hotel Casino Community Benefit Fund into the Gambling Community Benefit Fund.
- The *Gaming Legislation Amendment Regulation (No. 1) 2014* commenced 27 June 2014, except for several gaming and community benefit fund amendments which commenced 1 July 2014 and 24 August 2014. Amendments commencing 24 August 2014 made minor consequential amendments in relation to the amalgamation of the various casino community benefit funds into the Gambling Community Benefit Fund. Amendments commencing 1 July 2014 made a number of consequential amendments to gaming legislation including:
 - amending the *Charitable and Non-Profit Gaming Regulation 1999* to prescribe the amount of gross proceeds that define categories of 'other games', including changes to the upper limit for category 2 games and lower limit for category 3 games, together with consequential changes to the fee schedule
 - amending the *Gaming Machine Regulation 2002* to remove club entitlement regional boundaries and to prescribe different maximum numbers of gaming machines allowable under a Category 2 (club) licence based on the number of additional premises, being:
 - 300 approved gaming machines if the licensee has no additional premises
 - 450 approved gaming machines if the licensee has one additional premises (but not more than 300 gaming machines at either venue)or
 - 500 approved gaming machines if the licensee has two or more additional premises (but not more than 300 gaming machines at any one venue)

and

- amending the *Interactive Gambling (Player Protection) Regulation 1998* to provide for the recoupment of costs for investigations into the suitability of associates or intended associates of gaming participants.
- The *Justice Legislation (Fees) Amendment and Repeal Regulation (No. 1) 2014* provided for indexation of fees and charges administered by the Department of Justice and Attorney-General commencing 1 July 2014. The Amendment Regulation also amended the *Gaming Machine Regulation 2001* to clarify the application fee to relocate a gaming machine area applies as a set fee for the area, and not as a fee per machine. This is consistent with other application fees which relate to the operation of the licensed premises, rather than the number of gaming machines on the premises.
- The *Liquor and Gaming Amendment Regulation (No. 1) 2014* commenced 18 July 2014 to amend:
 - the *Casino Control Regulation 1999; Charitable and Non-Profit Gaming Regulation 1999; Gaming Machine Regulation 2002; Interactive Gambling (Player Protection) Regulation 1998; Keno Regulation 2007; Lotteries Regulation 2007* (Lotteries Regulation); *Racing Regulation 2013 and the Wagering Regulation 1999* (Wagering Regulation), to expand the current cost recoupment scheme relating to the suitability of participants in Queensland's casino and other gaming industries to include applicants for casino and other gaming licences and their associates
 - the *Liquor Regulation 2002*, to introduce a new fee for online searches of the register of licences, permits and applications (gaming licence information included)
 - the Lotteries Regulation, to provide for the introduction of the new 'lucky lotteries' game in Queensland and repeal the provision of Golden Casket games
 - the Lotteries Regulation and Wagering Regulation, to provide for the reinstatement of a registration within 12 months if the person's identity is subsequently verified after 90 days, and increases the period for which an operator must remit the account balances of restricted investors from 90 days to 12 months.
- The *Lotteries Amendment Regulation (No. 1) 2014* commenced 26 September 2014 to amend the *Lotteries Regulation 2007* to provide for the introduction of the 'Set for Life' lotto game in Queensland.
- The *Land Sales and Other Legislation Amendment Act 2014* commenced on 26 September 2014 to amend the *Breakwater Island Casino Agreement Act 1984*, to provide for the transfer of ownership of the Jupiters Townsville Hotel and Casino from Jupiters Limited to CLG Properties Pty Ltd as trustee for CLG Property Trust.
- On 3 February 2013, the Attorney-General and Minister for Justice approved the use of approved third parties to evaluate 'regulated' wagering and lotteries equipment. On 3 October 2014 the *Gaming Legislation Amendment Regulation (No. 2) 2014* amended the *Casino Control Regulation 1999, Charitable and Non-Profit Gaming Regulation 1999, Keno Regulation 2007, Lotteries Regulation 2007 and Wagering Regulation 1999* to declare four entities as approved evaluators.
- The *Appropriation Act (No. 2) 2014* commenced 12 December 2014 to amend the *Wagering Act 1998*, to facilitate an extension to the term of the retail exclusivity arrangement associated with TattsBet Limited's (TattsBet) sports and race wagering licences for a further 30 years from 1 July 2014. The extension to the term of the exclusivities relates to an in-principle agreement between Tatts Group Limited (Tatts), Racing Queensland and the State of Queensland regarding the future of racing and wagering in Queensland and, in particular, the future funding for the racing industry (Wagering Agreement).
- *Wagering Amendment Regulation (No. 1) 2014* commenced 1 July 2014, amending the *Wagering Regulation 1999* to give effect to the key terms of the Wagering Agreement between Tatts Group Limited (Tatts), Racing Queensland and the State of Queensland, of

reducing wagering tax rates to 14% for totalisator (pari-mutuel) wagering and 10% for fixed odds wagering. The amendments provided that:

- where the wagering is conducted by means of a totalisator, the gross wagering tax for a month will be the sum of:
 - 14% of the commissions received on wagers; and
 - 14% of winning bets that have not been claimed within 1 year; and
- where the wagering is conducted on a fixed odds basis, the gross wagering tax for a month will be 10% of the gross revenue made on wagers.

New developments

Gambling reforms

As reported in previous editions of this publication, the Minister for Business Services and Consumers introduced a Bill to the South Australian Parliament on 1 May 2013 to amend all of South Australia's gambling-related Acts.

The Bill was passed, with amendments, by both Houses of Parliament on 25 July 2013. It received Royal Assent on 8 August 2013.

The *Statutes Amendment (Gambling Reform) Act 2013* contains amendments to the following Acts:

- *Gaming Machines Act 1992*
- *Casino Act 1997*
- *Independent Gambling Authority Act 1995*
- *Authorised Betting Operations Act 2000*
- *State Lotteries Act 1966*
- *Problem Gambling Family Protection Orders Act 2004*.

These reforms are aimed at reducing the harm from problem gambling in the South Australian community and make improvements to existing regulatory measures, including red tape reduction as well as some technical improvements.

There are 141 amendments across the six affected Acts.

There are various commencement dates between 2013 and 2018. A summary of the 'key' amendments which commenced on 1 July 2014 were:

- **Online notification of gaming managers and gaming employees**
 - Gaming managers and gaming employees no longer require approval from the Commissioner for Consumer Affairs, Liquor and Gambling (the Commissioner) to work at a gaming machine venue.
 - Instead, licensees (or a person nominated by the licensee as a venue administrator) use a new Barring & Online Employee Notification System known as 'BOEN' to 'notify' the Commissioner of new gaming managers and gaming employees prior to them commencing in those roles. No application fees apply to the new arrangements.
 - The Commissioner has the power to prohibit a person from carrying out the duties of a gaming manager or gaming employee, either permanently or for a specified period.
 - If a person is employed as a gaming manager or gaming employee at more than one venue, the licensee of each of those venues must notify the Commissioner (via the BOEN system) separately.

- Gaming managers and gaming employees must still wear an identification badge in a form approved by the Commissioner. Venue administrators are able to print badges directly from the BOEN system to satisfy this requirement.
- If a person ceases to hold the position of gaming manager or gaming employee, or is no longer employed at the venue, the licensee must, within 14 days, notify the Commissioner by updating the person's record in the BOEN system.
- **New responsible gambling training**
 - Consistent minimum training requirements now apply across all gambling sectors, including hotels, clubs and the Adelaide Casino.
 - Gambling training courses also need to be 'recognised' by the Independent Gambling Authority (IGA), with training providers and the courses they intend to deliver needing to meet the Authority's criteria before such courses can be conducted.
 - All new and existing gaming managers and gaming employees are required to complete the new training courses and maintain their level of knowledge through repeat training every two years.
 - The previous accredited courses 'Provide Responsible Gambling Services' and 'Attend Gaming Machines', and the recognised course 'Advanced Problem Gambling Intervention Training' (APGIT), have been replaced by two new consolidated levels of training known as Basic Training to be completed by gaming employees and gaming managers, and Advanced Training to be completed by gaming managers.
 - Details of the content and outcomes of each of the new training courses have been prescribed by the IGA in the '*Gambling Regulation - Employee Training Prescription Notice 2013*' which is available from the IGA website at www.iga.sa.gov.au.
- **One Government agency responsibility for all gambling-related welfare barrings**
 - Consistent 'welfare' barring arrangements now apply across all gambling sectors, including hotels, clubs and the Adelaide Casino. Barring arrangements are now administered under the *Independent Gambling Authority Act 1995*, with the IGA as the central gambling-barring agency (this excludes barrings initiated under the *Liquor Licensing Act 1997*).
 - From 1 July 2014, the details of a barring, or request for barring, from a gaming area must be notified through the new BOEN system.
 - Barring orders may be made by a licensee (or an employee if the licensee has delegated the power in writing to the employee) or the IGA in relation to a person:
 1. at the request of that person (voluntary) or
 2. being satisfied that a barring order is appropriate due to a reasonable apprehension that the person may suffer harm, or may cause serious harm to family members, because of problem gambling (involuntary).
 - Barring orders made by the IGA are for a period of no more than three years.
 - Barring orders made by a licensee:
 1. may only relate to the premises of that licensee
 2. can only be for a period of three months, during which time (usually two weeks) the IGA reviews the barring order and, if necessary, offers the relevant parties the opportunity to discuss whether a barring order covering a longer period, more venues, or more types of gambling would be appropriate, or if the decision should be reversed
 3. must be recorded by the licensee and notified to the IGA using the BOEN system within seven days of the barring order being issued
 4. must be served on the person personally or posted to the person's last known address or transmitted to the person's last known fax number or email address
 5. can only be varied or revoked by the IGA.

- If a request to be barred is refused by a licensee, the IGA is to be notified of the decision using the BOEN system within seven days of the decision being made. If a person has requested to be barred and no decision on that request is made within 14 days, it will be taken that the request has been refused and the barring did not take effect.
- **Conduct of gaming operations (between 2am and 8am)**
 - Prior to 1 July 2014, a gaming manager or gaming employee who had completed advanced problem gambling intervention training had to be present in the gaming area at all times between 2am and 8am.
 - From 1 July 2014, licensees must now ensure that a gaming manager is present on the licensed premises at all times that gaming operations are being conducted on the licensed premises (rather than specifically in the gaming area between 2am and 8am, as was previously the case).
- **Simplified in-venue signage**
 - Since gaming machines were introduced into hotels and clubs nearly 20 years ago at the time of writing, various changes were made to signage requirements which has resulted in replication, clutter, and reduced message impact.
 - Changes were made to the signage requirements aimed at achieving an optimal level of signage that increases the impact of regulatory, responsible gambling and gambling help service messages, while reducing the overall number of signs in venues.
 - Rather than the previous situation, where the signage requirements were spread across various Acts, regulations, codes of practice, and licence conditions, the new signage requirements are now consolidated under the Gambling Codes of Practice.
 - All existing signage (including gaming machine licences) were no longer required to be displayed.
 - Pre-1 July 2014 signage which was replaced:
 1. **Gambling Helpline Card**
The old gambling helpline card was replaced and features the new national gambling helpline number 1800 858 858.
 2. **Gamble Responsibly Sign**
From 1 July 2014, licensees must display at least one A3 'multi-lingual' sign in English, Arabic, Chinese, Greek, Italian, Vietnamese and any other locally relevant language in a prominent position in each gaming area.
 - **New Signage:**
 1. **Coin Dispensing Machines and Cashier Areas**
Licensees must ensure the prominent display of the condensed warning message and the national gambling helpline number 1800 858 858 on or near each coin dispensing machine and each cashier area. The form and size of this sign is not prescribed but it must be prominent.
 2. **Perimeter Sign**
The Codes of Practice requires that a new 'perimeter' sign must be displayed at the entry to each gaming area and must include the following regulatory information:
 - the gaming area is restricted to people over the age of 18
 - the gaming area is subject to state laws and codes of practice
 - the gaming area is inspected by Consumer and Business Services
 - a telephone number to make complaints (through CBS).
 3. **In-Venue Messaging**

Licencees must display approved Office for Problem Gambling (OPG) responsible gambling campaign material in gaming areas (a primary sign) and, depending on the number of gaming machines operated, additional signs either in gaming areas or other parts of the venue which are accessible to the public.

Licencees are required to display at least one primary A1-size (or equivalent) sign, ensuring that at least one sign is in each gaming area. Licencees with more than 10 gaming machines are also required to display at least one additional A1 sign (either inside or outside the gaming area) for each 10 (or part thereof) gaming machines in excess of 10.

For example, if a venue has 25 gaming machines, the licensee must display three A1 signs – one must be displayed in the gaming area, while the other two can be displayed inside or outside the gaming area.

Licencees are able to display two A2, four A3 or eight A4 signs, or any logical combination thereof, in lieu of one A1 sign.

Where licencees choose to display the current responsible gambling campaign material electronically, in lieu of the A1 sign, it must be displayed as follows:

- in full screen with 16:9 format, on a screen that has at least a diagonal measurement of 1270mm (50") and be displayed for at least three minutes per hour
 - or
 - on multiple screens with 16:9 formats which have a diagonal measurement of 1270mm (50") and the total dimensions of all the screens are at least 1270mm (50").
4. Automatic Teller Machines (ATM) / EFTPOS (Fitted With Touch-Screen Enabled Devices)
- Responsible gambling message images must be displayed on ATM screens and EFTPOS-enabled touch screens connected to cash dispensers. Licencees must ensure that a full-screen responsible gambling message is displayed on the ATM screen or EFTPOS-enabled touch screen at least 20% of the time that the screen is idle.

Statutes Amendment (Gambling Measures) Bill 2015

As a result of the gambling reforms which came into effect on 1 July 2014, as reported above, the South Australian Government conducted a further review into gambling-related legislation to identify whether there was a need to further fine tune the statutory framework applying to the gambling sector.

Consequently, the Government introduced the Statutes Amendment (Gambling Measures) Bill 2015 (the Bill) into Parliament in March 2015 to fine tune some provisions in the *Gaming Machines Act 1992*, the *Independent Gambling Authority Act 1995*, the *Lottery and Gaming Act 1936* and the *Problem Gambling Family Protection Orders Act 2004*.

A summary of the 'key' amendments included in the Bill follows:

- **Unlawful gaming machines**
 - Recently, Consumer and Business Services (CBS) in association with South Australia Police, raided properties and seized gaming machines held by unlicensed persons. CBS had received information indicating that unlawful gaming machines were being brought into the state by unlicensed persons. However, action could not be taken until the gaming machine was in the unlicensed person's possession.
 - The Bill proposes to make it an offence under the *Gaming Machines Act 1992* for a person to purchase, or enter into a contract or agreement to purchase, a gaming machine, unless licensed.

- **Lottery and Gaming Act - Tournament Poker**
 - The *Lottery and Gaming Act 1936* prohibits a range of activities associated with lotteries, gaming and betting. There has been a lack of clarity as to whether gambling on poker, specifically tournament poker, is prohibited under this Act.
 - Tournament poker that does not involve gambling is popular in many hotels, clubs and other not-for-profit associations. Concerns exist that some poker games being played under the guise of tournament poker, may in fact involve gambling and are being conducted without any integrity or responsible gambling regulation.
 - The Bill proposes to make it unlawful to play at, or engage in, a game of poker in a public place. It is the Government's intention to make a regulation to clarify the definition of tournament poker, and to ensure that tournament poker that does not involve gambling is not an unlawful game.

- **EFTPOS facilities in gaming areas**
 - The removal of the prohibition of EFTPOS facilities in gaming areas in hotels and clubs is another proposed amendment to the *Gaming Machines Act 1992*.
 - Persons attending gaming areas to gamble are currently required to leave the gaming room to withdraw cash using EFTPOS facilities located outside the gaming area. This means that a person gambling is not able to be observed or assisted by trained staff in the gaming area.
 - It is considered that there may be a better opportunity of appropriate intervention when a person is exhibiting problem gambling characteristics if the EFTPOS facility were to be located in the gaming area. EFTPOS facilities involve human interaction, unlike Automatic Teller Machines (ATMs). This is considered to provide an opportunity for interaction between the person gambling and trained gaming staff, to observe cash withdrawal behaviour.

Amendment to the codes of practice

As reported in previous editions of this publication, the IGA conducted a comprehensive review of the various advertising and responsible gambling codes of practice for all forms of gambling, which resulted in all 14 of the previous codes of practice being consolidated into one document.

The Gambling Codes of Practice Notice 2013 was amended in March 2015 in order to:

1. allow the space and time requirements for the mandatory warning message to be variable by a management plan
2. allow dispensations to be granted from the prohibition of inducements to gamble where the inducement would not increase the risk of problem gambling
3. ensure that permitted inducements to gamble may be advertised
4. regulate the use of self-service terminals in terrestrial gambling environments
5. make transitional arrangements for the timeframe for when gaming managers and gaming employees are required to complete training.

Legislative amendments

Refer to Gambling Reforms, above.

Junket operator approvals

In February 2015, the IGA reversed the sensitive position designation of group commission operators, group commission representatives and commission agents for the purposes of section 28(1) of the *Casino Act 1997*. The original designation for the approval of these positions relating to the regulation of junket (group commission) operators was advised to the casino licensee on 17 April 2003.

Furthermore, the IGA issued the "Casino (Commission Operations) Directions Notice 2015" imposing specific reporting requirements with respect to junkets. Clause 3(2) of this notice required 'key particulars' to be provided by email to an email address, to manage the integrity risks arising from junket operations in a different way following the removal of the previous method of probity controls.

The key particulars are, in respect of each participant in a junket or group commission program:

- the participant's full name
- the participant's date and place of birth
- the residential address of the participant in the country where the participant is domiciled
- the usual occupation of the participant in the country where the participant is domiciled
- if the participant is not domiciled in Australia, the following details from the participant's passport:
 - country of issue
 - passport number (noting that provision of an image of the bio-data page of the passport will be good compliance with this requirement).

This change to the process effectively removes any requirement for group commission operators, group commission representatives, and commission agents to seek approval by the Liquor and Gambling Commissioner to undertake these roles. Key particulars are also required to be provided to the Officer in Charge of the Police Licensing Enforcement Branch.

Approved gaming machine entitlement trading system

As previously reported, the *Gaming Machines Act 1992* was amended in 2010 to remove the previous fixed price of \$50,000 per gaming machine entitlement and establish a market price model. At that time, the maximum number of gaming machines able to be operated in the state was 12,900.

The first trading round was conducted on 14 June 2012. As a result of this trading round the maximum number of gaming machines reduced to 12,887.

As part of the 2013 gambling reforms, the gaming machine entitlement concept was extended to the Adelaide Casino to create a state-wide cap on gaming machine entitlements.

To achieve this, the Adelaide Casino:

- was granted 995 gaming machine entitlements, which is equal to the maximum number of gaming machines it could operate immediately before the amendments
- was given access to the Approved Trading System. It has the right to buy and sell certain entitlements.

The number of gaming machines that the State Government has targeted to operate in South Australia was increased by 995 from 12,086 to 13,081.

Also as part of the gambling reforms, the South Australian Government has allowed the Adelaide Casino to increase the maximum number of gaming machines it can operate from 995 to 1,500.

The Adelaide Casino is initially required to purchase gaming machine entitlements for the additional 505 gaming machines through the Approved Trading System.

However, if the Adelaide Casino is unable to reach specific targets through the Approved Trading System, the South Australian Government will sell some gaming machine entitlements directly to it to enable it to proceed with an expansion of its facility. These gaming machine entitlements are only to be used in premium gaming areas and are unable to be sold in the Approved Trading System.

During 2014–15, a further three rounds were conducted. As a result of these trading rounds, the maximum number of gaming machines was 13,827 (inclusive of the 995 entitlements issued to the Adelaide Casino).

A further 746 gaming machine entitlements must be removed from the South Australian market to achieve the government's reduction target.

1.6.5 Western Australia

Legislation

Legislation governing the regulation, supervision and control of gambling activities in Western Australia includes:

- *Betting Control Act 1954*
- *Bookmakers Betting Levy Act 1954*
- *Casino (Burswood Island) Agreement Act 1985*
- *Casino Control Act 1984*
- *Gaming and Betting (Contracts and Securities) Act 1985*
- *Gaming and Wagering Commission Act 1987*
- *Gaming and Wagering Commission (Continuing Lotteries Levy) Act 2000*
- *Racing and Wagering Western Australia Act 2003*
- *Racing and Wagering Western Australia Tax Act 2003*
- *Racing Restriction Act 2003*
- *Racing Bets Levy Act 2009.*

New developments

- On 9 September 2014, amendments were made to the *Racing Bets Levy Regulations 2009* to introduce a new racing bets levy regime. This resulted in a new set of racing bets levy rates being applicable to Western Australian race fields. The new rates applicable to betting operators who field on Western Australian race fields are as follows:

Type of Wagering	Below \$3 million threshold	Above \$3 million threshold Standard Race Meeting	Above \$3 million threshold Premium Race Meeting*
Pari-mutuel	1% of turnover	1.5% of turnover	2.5% of turnover
Betting Exchange	1% of turnover	1.5% of turnover	2.5% of turnover
Non Betting Exchange (fixed odds bets)	1% of turnover	2% of turnover	3% of turnover

- On 17 December 2014, the *Rules of Wagering 2005* were amended by the *Rules of Wagering Amendment Rules 2014* for the purpose of reducing the minimum wager obligation for a bookmaker fielding at racecourses located at Albany, Bunbury, Geraldton, Kalgoorlie, Mt Barker, Northam, Pinjarra and York thoroughbred meetings to \$1000, whether the horses have entered the track or not. The amendment effectively reduced an on-course bookmaker's risk on any single bet from a potential loss of \$1500 to \$1000.

- In March 2015, the 13th Supplementary Agreement was executed amending the Agreement scheduled to the *Casino (Burswood Island) Agreement Act 1985*. The Agreement replaced the GST reimbursement scheme with a net of GST tax rate scheme and reduced tax on international commission business from 11 to 8 percent.

General industry information

- For the period, the casino gaming operations tax rates were as follows:

Electronic gaming machines	From 20.956% to 12.27% as at 24 December 2014
Fully automated table games	From 22% to 12.92% as at 24 December 2014
Table games	From 18% to 9.37% as at 24 December 2014
International commission business tax	From 11% to 8% as at March 2015
- As at 30 June 2015, Crown Perth had approval to operate a maximum of 295 table games, and 2,300 electronic gaming machines.

1.6.6 Tasmania

Legislation

Legislation governing the regulation, supervision and control of gambling activities in Tasmania includes:

- *Gaming Control Act 1993*
- *TT-Line Gaming Act 1993*
- *Racing Regulation Act 2004.*

New developments

- Crown Resorts Pty Ltd acquired 100 per cent of Betfair Pty Ltd on 13 August 2015.
- Betfair surrendered its sports betting and race wagering endorsements effective from 3 February 2015, and no longer conducts a sportsbook bookmaker operation in Tasmania.
- Intralot surrender of Foreign Games Permit effective from 31 January 2015.
- TOTE Tasmania Pty Ltd changed its name to UBET TAS Pty Ltd on 02 April 15.

General industry information

- Totalisator and fixed odds wagering is offered in Tasmania by TOTE Tasmania Pty Ltd (TOTE Tasmania), a subsidiary of TattsBet. TOTE Tasmania operates a number of shopfront agencies as well as interactive (internet and telephone) betting services, while a number of hotels and clubs also provide TOTE outlets and/or self-service wagering terminals.
- TOTE Tasmania was a member of the Victorian Supertab betting pool until March 2012, when it was sold to TattsBet.
- Bookmakers offer traditional fixed price wagering on course at certain racing events in Tasmania.
- There are two land-based casinos operating in Tasmania: Wrest Point in Sandy Bay (Hobart) and the Country Club at Prospect (Launceston). Both casinos are owned and operated by the Federal Group.
- A number of hotels and clubs in Tasmania offer gaming in the form of gaming machines and keno. These gaming services are owned and operated by Network Gaming, which is part of the Federal Group. Individual hotels and clubs rent gaming equipment from Network Gaming.
- Gaming machines are also operated on the Spirit of Tasmania I and II ferries by Admirals Casino Pty Ltd.
- Interactive (internet and telephone) wagering services are currently offered in Tasmania by Betfair Pty Ltd, which operates both a betting exchange and a bookmaker service (no longer operating).
- There are no providers of major lotteries currently operating in Tasmania. However, three companies, Tattersalls Sweeps Pty Ltd and Intralot Australia Pty Ltd (no longer operating), which are both licensed in Victoria, and Golden Casket Lottery Corporation Limited, which is licensed in Queensland, hold foreign games permits that allow their products to be offered from accredited outlets in Tasmania.
- Minor gaming in Tasmania generally consists of activities such as lucky envelopes (eg beer / cash tickets), bingo, and raffles conducted for the benefit of not-for-profit organisations. Various minor games are currently approved.

1.7 Cautionary note

While all care has been taken in the preparation of this publication, and the relevant authorities of each state and territory have verified their own data in detail, it is nevertheless necessary to caution users with regard to its complete accuracy.

All tables should be read in conjunction with the explanatory notes in Part 1 of this report.

In some instances, data contained in previous editions have been corrected or amended. These corrections or amendments are noted within the relevant table(s).

Caution should be used when comparing data between states and territories, as each jurisdiction has its own systems, processes and reporting methods. Also, the availability of certain data can vary between jurisdictions.

Data on government revenue from gambling for years prior to 2000–01 are not comparable with data from 2000–01 onwards, due to the introduction of the goods and services tax on 1 July 2000.

In particular, readers are urged to use casino handle figures with extreme care. Please read Part 1.4, Glossary, which has information on casino handle (under casino turnover) and a warning on its usage, before using any data on casino handle.

(3) On-course totalisator expenditure calculated at 16 percent of parimutuel turnover.

(4) Figure is inclusive of both TAB and on-course totalisator expenditure (discrete data were not available).

Between 1998–99 and 2006–07, racing expenditure on TAB and on-course totalisators has been calculated at 16.0 percent of turnover – the maximum average commission rate across all parimutuel pools under the relevant legislation at that time.

(5) TAB expenditure calculated at 15.7 percent of parimutuel turnover plus actual "gross profit" of fixed odds racing.

(6) Actual expenditure.

(7) Actual expenditure - including fixed odds racing - plus roundings (retained by TABCorp - derived by the rounding down of dividends to the \$0.10 below the calculated dividend).

(8) Figures recalculated as all commissions and fractions and paid by TAB, therefore estimates only here from proportions of investments.

- (1) Bookmaker betting expenditure is estimated at 5.5 percent of turnover.
 - (2) Figure is included in TAB expenditure (discrete data were not available).
 - (3) On-course totalisator expenditure calculated at 16 percent of parimutuel turnover.
 - (4) Figure is inclusive of both TAB and on-course totalisator expenditure (discrete data were not available).
- Between 1998–99 and 2006–07, racing expenditure on TAB and on-course totalisators has been calculated at 16.0 percent of turnover – the maximum average commission rate across all parimutuel pools under the relevant legislation at that time.
- (5) TAB expenditure calculated at 15.7 percent of parimutuel turnover plus actual "gross profit" of fixed odds racing.
 - (6) Actual expenditure.
 - (7) Actual expenditure - including fixed odds racing - plus roundings (retained by TABCorp - derived by the rounding down of dividends to the \$0.10 below the calculated dividend).
 - (8) Figures recalculated as all commissions and fractions and paid by TAB, therefore estimates only here from proportions of investments.

Notes: These data should be read in conjunction with the explanatory notes.

(1) NSW does not collect information relating to minor gaming. Previous data provided related to total value of prizes in trade promotion lottery competitions which are free entry and as such there is no revenue/turnover.

(2) This estimation was calculated by applying the same ratio of expenditure to turnover for the casino in 2000–01 (16.9 percent) to the calculated expenditure for the current year.

(3) No data were collected for gaming machine turnover for registered clubs and hotels for the August and November 2001 (clubs) and September and December 2001 (hotels) quarters. The turnover for these quarters was based on the turnover for the February and March 2001 quarters respectively.

(4) Total turnover incomplete due to unavailable figures for keno turnover.

(5) Total turnover incomplete due to unavailable figures for casino turnover.

(6) Data only available for 3 months April to June 2010.

(7) Note that the turnover figure is net and does not include agent commission.

Notes: These data should be read in conjunction with the explanatory notes.

(1) NSW does not collect information relating to minor gaming. Previous data provided related to total value of prizes in trade promotion lottery competitions which are free entry and as such there is no revenue/turnover.

(2) This estimation was calculated by applying the same ratio of expenditure to turnover for the casino in 2000–01 (16.9 percent) to the calculated expenditure for the current year.

(3) No data were collected for gaming machine turnover for registered clubs and hotels for the August and November 2001 (clubs) and September and December 2001 (hotels) quarters. The turnover for these quarters was based on the turnover for the February and March 2001 quarters respectively.

(4) Total turnover incomplete due to unavailable figures for keno turnover.

(5) Total turnover incomplete due to unavailable figures for casino turnover.

(6) Data only available for 3 months April to June 2010.

(7) Note that the turnover figure is net and does not include agent commission.

Notes: These data should be read in conjunction with the explanatory notes.
 Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) State tax on bookmaker's turnover was abolished on 30 March 2002, therefore government revenue for bookmaker (and other) fixed odds only includes nine months worth of revenue for 2001–02 and nil revenue thereafter.

(2) Government revenue data for TAB tote odds are for NSW investments only.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Casino turnover includes actual turnover for keno and gaming machines and handle for table games.

(2) Lotteries and lotto turnover includes handling fees. In the case of instant lottery, turnover is calculated by total sales less returns and defective tickets.

(3) Reliable figures are no longer available since the introduction of the *Charitable and Non-Profit Gaming Act 1999*.

(4) Total turnover incomplete due to unavailable figures for minor gaming.

(5) No longer operational.

(1) This estimate was calculated by applying the same ratio of expenditure to turnover for TAB racing in 2000–01 (15.3 percent) to the turnover figure for 2001–02.

(2) Profit from phone bets is estimated based on the proportion of bets taken (turnover) between oncourse and offcourse. Profit data is collected as a whole and not split into off and on course.

(3) Profit from all on course bets.

Notes: These data should be read in conjunction with the explanatory notes.

(1) This estimate was calculated by applying the same ratio of expenditure to turnover for TAB racing in 2000–01 (15.3 percent) to the turnover figure for 2001–02.

(2) Profit from phone bets is estimated based on the proportion of bets taken (turnover) between oncourse and offcourse. Profit data is collected as a whole and not split into off and on course.

(3) Profit from all on course bets.

Notes: These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) Changes in taxes payable by bookmakers was introduced in January 2010. (\$0.193m was collected as turnover tax and \$1.102m was collected as gross profit Tax).

(2) Gross profit tax is not based on turnover and is also capped and therefore cannot be determined as relative to racing or sports. As a consequence, all revenue is reported as racing revenue.

Notes: These data should be read in conjunction with the explanatory notes.

- (1) Figure is inclusive of both TAB and on-course totalisator expenditure (discrete data were not available). Between 1998–99 and 2006–07, racing expenditure on TAB and on-course totalisators has been calculated at 16.0 percent of turnover – the maximum average commission rate across all parimutuel pools under the relevant legislation at that time.
- (2) TAB expenditure calculated at 15.7% of parimutuel turnover plus actual "Gross Profit" of Fixed Odds Racing.
- (3) Figures are inclusive of both on- and off-course betting.
- (4) This estimate was calculated by applying the same ratio of expenditure to turnover for TAB racing in 2000–01 (15.3 percent) and applying it to the turnover figure for the current year.
- (5) Actual expenditure - including fixed odds racing - plus roundings (retained by TABCorp - derived by the rounding down of dividends to the \$0.10 below the calculated dividend - not previously included).
- (6) Actual expenditure - including fixed odds racing - plus roundings (retained by TABCorp - derived by the rounding down of dividends to the \$0.10 below the calculated dividend - included for the first time in 2007–08).
- (7) Total turnover incomplete due to unavailable figures for South Australia.
- (8) Amended due to incorrect value being provided in 2013/14 report.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Figure is inclusive of both TAB and on-course totalisator expenditure (discrete data were not available). Between 1998–99 and 2006–07, racing expenditure on TAB and on-course totalisators has been calculated at 16.0 percent of turnover – the maximum average commission rate across all parimutuel pools under the relevant legislation at that time.

(2) TAB expenditure calculated at 15.7% of parimutuel turnover plus actual "Gross Profit" of Fixed Odds Racing.

(3) Figures are inclusive of both on- and off-course betting.

(4) This estimate was calculated by applying the same ratio of expenditure to turnover for TAB racing in 2000–01 (15.3 percent) and applying it to the turnover figure for the current year.

(5) Actual expenditure - including fixed odds racing - plus roundings (retained by TABCorp - derived by the rounding down of dividends to the \$0.10 below the calculated dividend - not previously included).

(6) Actual expenditure - including fixed odds racing - plus roundings (retained by TABCorp - derived by the rounding down of dividends to the \$0.10 below the calculated dividend - included for the first time in 2007–08).

(7) Total turnover incomplete due to unavailable figures for South Australia.

(8) Amended due to incorrect value being provided in 2013/14 report.

Notes:

These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) Government revenue from TAB includes on-course totalisators.

(2) Government revenue from TAB is in the form of an annual licence fee. There is no correlation between the receipts from the licence fee and the two totalisator activities.

The revenue figures allocated to TAB represents the bulk of turnover activity in each of the two categories (TAB and on-course totalisator).

(3) Tote ceased to pay tax from 1 August 2000 on totalisator turnover following its corporatisation.

(4) Total revenue incomplete due to unavailable figures.

(5) Figures are inclusive of both on and off-course betting.

Notes:

These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

- (1) State tax on bookmakers turnover was abolished on 30 March 2002, therefore government revenue for bookmakers on-course only includes nine months worth of revenue.
- (2) Nil government revenue from bookmakers due to abolition of state tax on bookmakers 30 March 2002.
- (3) Race bookmakers do not return any revenue to the Government since the tax rate was effectively abolished in Sept 2003.
- (4) Bookmakers' tax abolished from 1 December 2001.
- (5) Government revenue from racing (bookmakers) includes both tax and product levies received.
- (6) Changes in taxes payable by bookmakers was introduced in January 2010. (\$4.973m was collected as turnover tax and \$1.102m was collected as gross profit tax).
- (7) Product levy no longer payable by Betfair from October 2010.
- (8) Total Government revenue incomplete due to unavailable figures for one or more states.

Notes: These data should be read in conjunction with the explanatory notes.

(1) This estimation was calculated by applying the same ration of expenditure to turnover for the casino in 2000–01 (16.9%) and applying it to the calculated expenditure for the current year.

(2) Casino turnover includes actual turnover for keno and gaming machines and handle for table games.

(3) Casino turnover excludes Community Keno.

(4) Total turnover incomplete due to data from one or more states being unavailable.

(5) July 2013 - December 2013.

(6) Turnover data no longer provided to SA Government.

Notes: These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) Information relating to minor gaming no longer collected.

(2) Minor Gaming Revenue incorrectly reported in previous years. No tax is received for minor gaming activities, only income is from application fees.

(3) Total revenue incomplete due to data from one or more states being unavailable.

Notes: These data should be read in conjunction with the explanatory notes.

(1) Expenditure for TAB tote odds was estimated using actual data. In preceding years a retention factor has been used.

(2) Total expenditure incomplete due to unavailable figures from one or more states/territories.

(3) Player expenditure in 2012-13 for sports betting totalisator was a negative amount due to a totalisator pool jackpotting, resulting in more dividends paid than turnover received.

Notes: These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) State tax on bookmaker's turnover was abolished on 30 March 2002, therefore government revenue for bookmaker (and other) fixed odds only includes nine months worth of revenue for 2001–02 and nil revenue thereafter.

(2) Bookmakers' tax abolished 1 December 2001.

(3) Government revenue from bookmaker (and other) fixed odds sportsbetting includes tax paid on Australian and overseas non-racing events.

(4) Changes in taxes payable by bookmakers was introduced in January 2010. (\$0.193m was collected as turnover tax and \$1.102m was collected as gross profit tax).

(5) Total revenue incomplete due to unavailable figures from one or more states/territories.

Notes: These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) State tax on bookmaker's turnover was abolished on 30 March 2002, therefore government revenue for bookmaker (and other) fixed odds only includes nine months worth of revenue for 2001–02 and nil revenue thereafter.

(2) Bookmakers' tax abolished 1 December 2001.

(3) Government revenue from bookmaker (and other) fixed odds sportsbetting includes tax paid on Australian and overseas non-racing events.

(4) Changes in taxes payable by bookmakers was introduced in January 2010. (\$0.193m was collected as turnover tax and \$1.102m was collected as gross profit tax).

(5) Total revenue incomplete due to unavailable figures from one or more states/territories.

Notes: These data should be read in conjunction with the explanatory notes.

Data for the gambling revenue received by states and territories from 1 July 2000 onward are not comparable with that of preceding years because of the impact of changes brought about by the introduction of the GST.

(1) Total gambling revenue is incomplete due to some unavailable revenue figures that are used to derive this number.
