

# STOP BUNDY!

# STOP RETRENCHMENTS!

The Wits 2001 plan is anti-worker. It aims initially to retrench workers and replace them with casuals from outsourcing companies. This means

- ◆ *Retrenchments for many workers*
- ◆ *Those reemployed by the contractors will work at lower wages with few benefits*
- ◆ *Union bashing: NEHAWU could lose its right to represent you*

**Wits 2001 is a neo-liberal plan.**

It aims at one thing: turning Wits into a capitalist company aimed at making profits by concentrating research and training on the rich. It is driven by *government's neo-liberal GEAR policy*, which buried the RDP in 1996.

**This means**

- ◆ *Workers will lose their jobs or become casuals*
- ◆ *Academics with "unprofitable" courses will lose their jobs*
- ◆ *Research will be determined by the needs of bosses and politicians*
- ◆ *Poor students will be thrown out due to high fees*
- ◆ *Wits will stop being a public asset and become a capitalist company*

**Who loses?** YOU lose if you are working class or poor.

Workers, students and academics must unite against the neo-liberal offensive.

**Defend your job! Defend your union!**

**Defend public education!**

**Mass action is the answer to the neo-liberal offensive!**

## **DON'T PRIVATISE WITS!**
