## GALLIPOLI The Turkish Defence

by Harvey Broadbent

### THE STORY FROM THE TURKISH DOCUMENTS

*'A ground-breaking and illuminating study of the Ottoman Army in the Anzac campaign.'*—David Horner

The people of both Australia and Turkey attach meaning to their national identities and ideals as a result of the Gallipoli campaign. *Gallipoli: The Turkish Defence* is the first and only book to reveal new details of the Turkish point of view of the conflict, revealing how the Turks reacted and defended Gallipoli and how they succeeded in forcing the Allied forces to withdraw.

Author and Turkish language expert Harvey Broadbent spent five years in Turkish military and other archives to unearth the Turkish story. He had access to an extensive collection of previously unresearched documents, ranging from official government records to military and personal diaries and correspondence of soldiers. The result is the fullest possible and most comprehensive account of the Turkish defence yet produced, which fills a huge gap in the history of the Gallipoli campaign.

**Harvey Broadbent** is a leading authority on Turkey and its history. He is the author of *Gallipoli: The Fatal Shore* (2005), *The Boys Who Came Home: Recollections of Gallipoli* (1990/2000) and *Voices of the First World War* (2014). In a 23-year career at the ABC, he produced four documentaries on Gallipoli for ABC Television and several radio features. Since 2005 he has been using his expertise as a Senior Research Fellow and Associate Professor at Macquarie University, where he directed the Gallipoli Centenary Research Project, a partnership between the university, the Australian War Memorial and the Australian Research Council.
