I. Abstract

The NPS is requesting to reinstate a previously approved collection (OMB Control Number: 1024-0262) needed to survey Alaska residents who customarily and traditionally engage in subsistence uses within a national park, preserve, or monument. In 2012, a survey was conducted in Wrangell-St. Elias National Park and Preserve (WRST) and Gates of the Arctic National Park and Preserve (GAAR) to understand the effects of subsistence harvesting. This collection intended to collect information in additional Alaskan National Parks, Preserves, and Monuments.

Under the provisions of The Alaska National Interest Lands Conservation Act (ANILCA), subsistence harvests by local rural residents are considered to be the priority consumptive use of park resources. This collection will continue to gather information on subsistence harvest patterns and the impact of rural economy from resident zone communities associated with the following parks, preserves, and monuments: 1) Aniakchak National Monument (ANIA), 2) Bering Land Bridge National Preserve (BELA), 3) Cape Krusenstern National Monument (CAKR), 4) Gates of the Arctic National Park and Preserve (GAAR), 5) Kobuk Valley National Park (KOVA), 6) Noatak National Preserve (NOAT), 7) Wrangell-St. Elias National Park and Preserve (WRST) and 8) Yukon-Charley Rivers National Preserve (YUCH).

The information from this collection will be used by the NPS, the Federal Subsistence Board, the State of Alaska, and local/regional advisory councils in making recommendations and making decisions regarding seasons and harvest limits of fish, wildlife, and plants in the region which communities have customarily and traditionally used.
