"Post an impressive 22% Y-O-Y growth in June'16, though the index for July shows muted growth of just 3%, good news is the slow and steady growth in the NON-IT sectors viz., Auto, Hospitality, Education and Healthcare to name a few. Looks like this trend will continue and we can expect the index to move north in the coming months."

METHODOLOGY

Naukri.com, India's No. 1 job site and the flagship brand of Info Edge introduced the concept of e-recruitment in India. Since its inception in 1997, Naukri.com has seen continuous decline while outperforming its competitors in every sphere. Info Edge was the first internet Company to be listed in India. The site enjoys a traffic share of 69% as per Comscore. Naukri.com is a recruitment platform that provides hiring-related services to corporates/ recruiters, placement agencies and to job seekers in India and overseas. It offers multiple products like Resume Database Access, listings and Response Management Tools. With more than 1,25,000 jobs live at any point and over 38 million CV's, Naukri.com serviced over 48000 corporate clients in 2013-2014. The company employs over 3100 people operating through 56 offices in 42 cities in India and overseas offices in Dubai, Riyadh, Abu Dhabi and Bahrain.

On the basis of job listings added to the site every month, the data shows an increase or decrease in the index. To calculate the index, job listings added to the site in July 2008 have been taken as 1000. The subsequent months have been indexed with data of July 2008. The monthly report shows hiring trends across industry sectors, geography and functional areas. There might be high volatility for certain fringe cases like smaller cities, niche industries etc. owing to a small base, but more than 48000 clients using Naukri.com leads to high reliability of the data.

The Naukri Job Speak index from Feb'10 includes both online jobs as wells as jobs acquired from existing clients by our tele-calling team. Although the tele-calling data is a relatively small component of the entire job postings on Naukri, addition of the same to the index gives a more holistic picture of the Indian job market. Therefore, the Job index which was till now based on the July 2008, has been realigned to take care of the effect of the Jobs added by the tele-sales team.

Naukri Job Speak not only talks about sectors or cities but also about the job movement on site.
