

SCOTLAND.

BOREIN IN HONOR OF MR. GEORGE THOMSON.

On Friday evening last, a splendid entertainment was given to Mr. Thomson in the Assembly Rooms, originating with, and arranged by a great number of our countrymen in Glasgow, who, some time ago, forwarded a requisition to Mr. Thomson, requesting him to meet a party of them, to be held on a certain evening, in order to confer with him on a matter of public interest, and to discuss, in connection with the subject, the various points which would be connected with the proposed reformation of the law in relation to the colored people.

Never, on any occasion, have we witnessed a more interesting and highly respectable assembly than that which was held on Friday evening last. The number of those who were present was estimated at 400, who were soon eagerly purchased, and in some instances, the applications for admission were numerous and urgent, but necessarily refused. The entertainment consisted of tea, coffee, and music, and the evening's proceedings were rendered useful and entertaining, by the eloquent speeches of the gentlemen who had been invited to address the assembly, and the excellent music of Mr. Thomson's band. At seven o'clock, the Assembly Room was completely filled by a highly respectable audience, one half of whom are ladies in full dress. The room was splendidly illuminated by wax chandeliers. A platform had been erected at the upper end of the hall, by distinguished guests, and his friends.

At the lower end, the orchestra was occupied by the musicians. On the right of Mr. Thomson, the band commenced playing "See the conquering hero comes," and Mr. Thomson was greeted with the most hearty and cheering cry.

The Rev. Dr. Hecox was the first to move the division bench, which he did in a feeling and eloquent manner, and which was commended and continued playing during the same.

The Chairman rose and introduced the business of the evening with the following remarks:—

LADIES AND GENTLEMEN, In fulfilling the duties of that office to which the kind patronage of the Government has conferred upon me, I permit me to state the circumstances under which this very interesting assembly has originated.

About three weeks ago, a requisition, signed by upwards of 30 young gentlemen, was presented to Mr. Thomson, requesting him to meet a party of them, to be held on a certain evening, in order to confer with him on a matter of public interest, and to discuss, in connection with the subject, the various points which would be connected with the proposed reformation of the law in relation to the colored people.

With one heart and one soul, we bid you adieu. I would not be surprised if you should be again invited to meet a party of them, to be held on a certain evening, in order to confer with him on a matter of public interest, and to discuss, in connection with the subject, the various points which would be connected with the proposed reformation of the law in relation to the colored people.

With one heart and one soul, we bid you adieu. participating was attributable to the religious influence of these high principles, which had directed and governed them in their own careers, and which they were anxious to see heard him know. The first and grandest, that man could hold no property in the body of another man, and that the property of the soul is not to be sold or transferred, and next, that justice, truth, and equity, which are the principles of heaven, are the principles of earth, and for ever, unchanging and unchangeable. The plain, straightforward, and earnest declaration of those principles, produced an instantaneous, and almost miraculous effect. Men everywhere were struck with awe, and their hearts were torn by their truth, and devoted themselves to their practical application. What had been the consequence? The overthrow of a great and powerful empire, and the establishment of a new one, which had only rendered wiser, by their tempering and unadorned wisdom. Let all the world like them from their souls, and the same course of slavery, to adopt precisely the same course with reference to every evil they were witnesses of.

What is the path of duty?—and having once obtained it, we are to pursue it, until we reach the goal. The path of duty is to be found in the principles of heaven, which are the principles of earth. The path of duty is to be found in the principles of heaven, which are the principles of earth. The path of duty is to be found in the principles of heaven, which are the principles of earth.

At the conclusion of Mr. Thomson's address, music re-commenced, and continued while the friends were served round to the company. The Chairman then rose to propose a vote of thanks to Mr. Thomson for his great pleasure in introducing to the meeting, the next speaker, the Rev. Dr. Hecox.

Ladies and gentlemen:—The young gentlemen who have assigned to me the subject on which they request me to offer a few observations, have selected a subject which is near to my feelings. They call the subject "a text; and I must say, that to address you in a formal and uninteresting manner, would be to me, to do you an injustice. I should feel moreover much more at home, than to address you this evening, and on such an arena. At the same time, I have experienced too much reluctance, to do so, to doubt that you will kindly excuse me in this regard. (Applause.)

It is proposed that a society should be formed, or rather, that a society having been formed, should be supported to the end of its days. It is proposed that a society having been formed, should be supported to the end of its days. It is proposed that a society having been formed, should be supported to the end of its days.

The Chairman next called upon the Rev. Dr. WARDLAW, who rose amidst the loudest cheers. Mr. Chairman, I consider myself honored to be permitted to address you on this important subject. I feel deeply moved, and I feel that I have a duty to perform. I feel that I have a duty to perform. I feel that I have a duty to perform.
