MINISTER'S MESSAGE

VCE one of life's milestones

ONGRATULATIONS to all of the students recognised in today's supplement for their outstanding results in the 2016 Victorian Certificate of Education (VCE).

A study score of 40+ is a great achievement, and clearly demonstrates that you put in

the hard yards and showed great resilience and focus to achieve your success.

I have no doubt that your parents, teachers and friends are very proud of you.

I want to thank all of those parents and teachers across Victoria who have provided guidance and support to help

make your achievement possible

Nearly 50,000 Victorian students are graduating this year and I congratulate every single one of you on this important milestone in your lives. It is an accomplishment you should be extremely proud of.

Whatever your study score or ATAR, it is important to recognise that VCE, while important, is only one step in your life journey.

There have never been more opportunities and pathways available, including higher education, TAFE, traineeships and fulltime

work, and I urge you to fully explore your options and take full advantage of them.

Whatever path you take, I wish you every success next

James Merlino MP, **Minister for Education**
