

Caravan for Justice: Resist Militarization, Support Refugees, End Incarceration Thursday-Sunday, Nov. 17-20, 2016

U.S. policies, including training at the School of Americas (now called WHINSEC), continue to escalate violence, force migration, and exploit and detain hundreds of thousands of people at a massive human, financial, and moral cost.

We say ¡Ya Basta! to ICE and their for-profit and state-sponsored partners.
Join us as we demand accountability and justice!

Immigrant detention is an unjust and discriminatory practice of mass-incarceration for profit. Its use is rapidly increasing and will reach an unprecedented 47,000 people in detention PER DAY by June 2017. To meet these numbers, **ICE is currently renewing and negotiating new contracts with for-profit detention centers and state facilities.** NOW is the time to put pressure on ICE. NOW is the time to use your voice and be heard. NOW is the time to mobilize before the ink dries on their contracts—before it's too late.
