Practice Support

Practice Management Online Integrates into AAP.org

The American Academy of Pediatrics is pleased to announce that the practice management content, formally housed on Practice Management Online (PMO), has been migrated into the Practice Support section of AAP.org.

Practice Support is the new and revitalized online home for the best pediatric practice management information, tools, and resources for pediatricians and their office staff.

To help you get acquainted with the new format, please take a moment to review the attached document.

Let us know if the slides were helpful and what you think about the integration of PMO by emailing AAPorgSupport@aap.org.

Remember, we have a help page to answer the most common questions. Of course, if you encounter any problems with the site, please contact Customer Service at csc@aap.org.
