The creative alternative for your next event

The National Gallery of Australia is the creative alternative for your next event. Offering a range of venues and services in the heart of Canberra, it is the perfect place for conferences, annual general meetings, workshops, presentations, product launches, corporate and private functions and more.

The building is a stunning example of brutalist architecture and is surrounded by Australian native gardens designed to flower throughout the year. The 'new look' National Gallery of Australia, was launched in October 2010, including a new entrance, 11 Aboriginal and Torres Strait Islander galleries, state-of-the-art facilities and the spectacular Gandel Hall, a purpose-built, beautifully appointed conference and event space that offers a unique indoor-outdoor ambiance unlike any other in Canberra.
