

Late Night Subway Service

Midnight to 6:00 am

Key

The subway operates 24 hours a day, but not all lines operate at all times. This map depicts late night service. Call our Travel Information Center at 511 for more information in English or Spanish (24 hours) or ask for an agent for help in all other languages (6AM to 10PM).

To show service more clearly, geography on this map has been modified.

Service Note

This subway map depicts late night service, approximately midnight to 6:00am. All stations are served though not all lines run. Most lines run local, making all stops. Check overhead signs on platforms for details.
Visit mta.info for detailed guides to subway service: click on Maps, then "Individual Subway Line Maps" or "Service Guide." For construction-related service changes, click on "Planned Service Changes" in the top menu bar.
On weekends, the Weekender website and app show construction-related scheduled service changes. This information is also posted at station entrances and on platform columns of affected lines.
