In business to deliver

INTEGRITY & RESPONSIBILITY

CORPORATE SOCIAL RESPONSIBILITY
REPORT HIGHLIGHTS 2015

2015 CORPORATE SOCIAL RESPONSIBILITY REPORT

A MESSAGE FROM OUR CEO

Energy is essential to our modern way of life. We depend on reliable access to affordable energy in our daily lives, whether it's to drive our children to school, turn on the lights at work or cook a simple meal at home.

At the same time, there is also a growing demand to transition to a lower-carbon future. New climate change policies are accelerating the transition from coal to cleaner energy alternatives such as natural gas, nuclear and renewable sources.

As a leading energy infrastructure company, the crux of our challenge in this changing energy landscape is to safely deliver the energy the world needs in an economically, environmentally and socially responsible manner.

Ultimately, we look at Corporate Social Responsibility not as a facet of our business, but as a reflection of the way we conduct our business and an expression of our core values of integrity, responsibility, collaboration and innovation.

I invite you to read our full CSR Report at csrreport.transcanada.com and welcome your comments at csr@transcanada.com.
