Notes

- (a) The following definitions are used in this Budget Paper:
- ‘real’ means adjusted for the effect of inflation;
 - real growth in expenses is measured by the non-farm Gross Domestic Product (GDP) deflator;
 - the budget year refers to 2005-06, while the forward years refer to 2006-07, 2007-08 and 2008-09; and
 - one billion is equal to one thousand million.
- (b) Figures in tables and generally in the text have been rounded. Discrepancies in tables between totals and sums of components are due to rounding:
- estimates under \$100,000 are rounded to the nearest thousand;
 - estimates \$100,000 and over are generally rounded to the nearest tenth of a million;
 - estimates midway between rounding points are rounded up; and
 - the percentage changes in statistical tables are calculated using unrounded data.
- (c) For the budget balance, a negative sign indicates a deficit while no sign indicates a surplus.
- (d) The following notations are used:
- | | |
|---------|---|
| NEC/nec | not elsewhere classified |
| - | nil |
| na | not applicable (unless otherwise specified) |
| (e) | estimates (unless otherwise specified) |

SA	South Australia
TAS	Tasmania
