BIOGRAPHICAL NOTE

Gerhardt Laves was born in 1906 and died in 1993. He carried out linguistic and anthropological field work in Australia between 1929 and 1931 under the auspices of the Australian National Research Council. He was supervised by Professor A.R. Radcliffe-Brown of the University of Sydney.

Although principally interested in comparative linguistics, Laves drew much of his material from explanations of social and religious organisations, often through stories.

His field work areas were the North Coast of New South Wales, Albany, Broome and Cape Leveque in Western Australia, Victoria and Daly Rivers, Arnhem Land and Cape York.

He did not continue anthropological research after his return to America in 1931.

An obituary of Laves, by David Nash, can be found at <http://www.anu.edu.au/linguistics/nash/aust/laves/obituary.html> and additional biographical information at <http://www.anu.edu.au/linguistics/nash/aust/laves/biog.html>.

NUMBERING SYSTEM

Items correspond to sections and subsections of the original manuscript held at [MS 2188](#) where possible.

Items 3-6 are language cards and are held in Series 9.

The collection was re-housed in 2003 to ensure better conservation of the collection. While item

numbers were not amended, this required a change in the boxes in which items are housed. The [Box List](#) notes the original box numbers as well as the current ones.

At the same time series numbers were applied to the geographical section headings used in an earlier finding aid.
