

Selected Bibliography of Material on the Warlpiri Language and People held by the AIATSIS Library

Pamphlets

Local call number: p ABB

Personal Author: Abbie, A. A. (Andrew Arthur), 1905-1976

Title: Scalp hair colour in Australian Aborigines

Annotation: Early comments listed, light-coloured hair a particulate intrusion in an otherwise uniform pigmentary pattern, more common in females; gives account of study of nearly 1000 Aborigines from Yuendumu, Haasts Bluff, Yalata, Maningrida, Beswick, Kalumburu (including Walbiri, Pintubi & Bureria people), including assessment of hair colour, range of colours; results - regional distribution, tribal incidence, refutes three postulated causes of light hair colour, suggests it was produced by a single gene mutation brought by early Aboriginal immigrants & unevenly dispersed through Australia

Personal Author: Agar, N. S.

Title: Levels of glutathione and 2, 3- diphosphoglycerate in the red blood cells of Australian Aborigines

Annotation: Based on comparison of red blood cells from Walpiri Aborigines at Yuendumu and Caucasians

Source: Annals of human biology -- 1980; 7(4); 375-378 -- bibl.; tbl

Language/Group: Warlpiri people (C15) (NT SF52-4)

Local call number: p AND

Personal Author: Andrews, Avery D.

Title: Multilevel case-marking in Australian languages / Avery D. Andrews

Physical descrip: 25 p.

Annotation: Discusses 'multilevel case marking' (MLCM) ; nominals bear a sequence of case markers, each signally properties of the syntactic structure; suggests a way to analyse MLCM by means of an concept of 'inside -out unification'

Language/Group: Kayardild / Kaiadilt language (G35) (Qld SE54-6)

Local call number: p AUS
Personal Author: Austin, Peter Kenneth
Title: Non-configurationality in Australian Aboriginal languages / Peter Austin
Publication info: 1996
Physical descrip: p. [215]-268
Source: Natural language and linguistic theory Vol. 14 no. 2 May 1996 : p. [215]-268
Annotation: "The syntax of the Australian Aboriginal language Warlpiri has led to two opposing models of non-configurationality: a dual structure hypothesis, which abandons the projection principle for a grammatical architecture that separates constituency and functional representations (Simpson 1983, 1991, Hale 1983, Kroeger 1993), and a pronominal argument hypothesis, which hypothesizes that bound or zero pronominals satisfy the projection principle in such languages, with free nominals analysed as adjuncts (Jelinek 1984, Baker 1991, Hale 1993). Although the pronominal argument hypothesis is widely accepted in the syntactic literature, we show that available evidence from Warlpiri, new evidence from the related language Jiwarli, and a survey of six other Australian languages actually support the dual structure hypothesis. The non-configurationality characteristics of free word order, null anaphora, and split NPs are in fact independent of each other and of the distribution of bound pronouns. Additionally, the clitic pronouns that Jelinek (1984) and others take to be the source of non-configurationality in Warlpiri are simply an areal feature of Australian languages that is independent of the syntactic properties that are supposed to derive from it." [Author's abstract]
Language/Group: Warlpiri language (C15) (NT SF52-04)
Language/Group: Jiwarli / Djiwarli language (W28) (WA SE50-14)

Title: Community Profile : Yuendumu
Edition: 1st ed., Oct. 2009
Publication info: Canberra : Remote Area Health Corps, 2009
Physical descrip: 7 p. : col. ill., maps ; 29 cm
Annotation: Yuendumu community is located 290 kms northwest of Alice Springs on the Tanami Highway and has a population of approximately 1000 to 1300 people the vast majority being Warlpiri people who are the traditional owners. The languages spoken are Warlpiri and English. Yuendumu is the largest indigenous community in Central Australia and is also one of the most studied communities in Australia. Traditional owners control the land as part of self determination supported by government departments. The establishment of cattle stations in the late 19th and early 20th centuries resulted in competition for land. The conflict and reprisals that led up to and followed the Coniston Massacre in 1928 resulted in the dispersal of people from their traditional country. Yuendumu was established by the native Affairs Branch in 1946 for the purpose of rationing and welfare. A Baptist Mission was established in 1947 and by 1955 many local Warlpiri groups Granite and Bullocky Bore, were settled in Yuendumu. Yuendumu Aboriginal Reserve, 2, 199 km square was proclaimed in

1952, following visits by Baptist missionaries in the 1940's. The reserve became Aboriginal freehold under the Aboriginal Land Rights Act (NT) 1976 and the community is now within the Yuendumu Aboriginal Land Trust area with day to day decisions and management of the community vested in the Yuendumu Community Council. This profile was put together by the Remote Area Health Corps (RAHC) to assist health professionals in employment placements and is part of a series of community profiles in other regions of Australia -- Taken from p. 5
Annotation: Part of a set of twenty five community profiles that provide information for medical professionals seeking employment in Aboriginal communities in the Northern Territory.
Language/Group: Warlpiri people (C15) (NT SF52-04)

Title: Mapping the mythological landscape : an Aboriginal way of being-in-the-world / Paul Faulstich

Physical descrip: p. [197]-221 : ill., maps

Annotation: "Warlpiri Aborigines utilize graphic and cognitive systems to represent their connections to landscape. The Dreaming is the primary mechanism through which Warlpiri organise and understand the significance of places. Each Dreaming myth has an accompanying graphic map, which references incidents and places associated with Ancestors. The maps recount sites along Dreaming tracks, and provide assessments of resources. Warlpiri create these coded images to coordinate psychographic and mythical components of the landscape. They structure knowledge about the world and facilitate the recollection of activities in space. Dreaming maps signify, among other things, aspects of cultural ecology around which society is organised." [Author's abstract]

Title: Mitochondrial DNA variation in an Aboriginal Australian population : evidence for genetic isolation and regional differentiation / Kirsi Huoponen...[et al.]

Publication info: 2001

Physical descrip: p. 954-969 : map

Annotation: Analysis of the mitochondrial DNA variation in the Walpiri people of the Northern Territory which demonstrates the genetic uniqueness of the Australian Aboriginal population, "which attests to Aboriginal Australians ancient origin a long period of isolation"

Annotation: "The mitochondrial DNA (mt-DNA) variation of in the Walbiri tribe of the Northern Territories, Australia, was characterized by high resolution restriction fragment length polymorphism (HR-RFLP) analysis and control region sequencing. Surveying each mt-DNA for RFLPs with 14 different restriction enzymes detected 24 distinct haplotypes, whereas direct sequencing of the control region hypervariable segment I (HVS-I) of these mt-DNAs revealed 34 distinct sequences. Phylogenetic analysis of the RFLP haplotype and HVS-I sequence data depicted that the Walbiri have ten distinct haplotype groups (haplogroups), or mt-DNA lineages. The majority of the Walbiri RFLP haplotypes lacked polymorphisms common to Asian populations. In fact, most of the Walbiri haplogroups were unique to this population, although a few appeared to be subbranches of larger clusters of mt-DNAs that included other Aboriginal Australian and/or Papua New Guinea haplotypes. The similarity of these haplotypes suggested that Aboriginal Australian and Papua New Guinea populations may have once shared an ancient ancestral population(s), and then rapidly diverged from each other once geographically separated. Overall, the mt-DNA data corroborate the genetic uniqueness of Aboriginal Australian populations." [Author's abstract]

Title: Ngurra-kurlu : a way of working with Warlpiri people / Wanta Jampijinpa Pawu-Kurlpurlurnu (Steven Jampijinpa Patrick), Miles Holmes, (Lance) Alan Box

Publication info: Darwin : Desert Knowledge CRC, 2008.

ISBN: 1741580870 (pbk.)

ISBN: 1741580889 (online)

Physical descrip: iv, 40 p. : ill. (some col.), map ; 30 cm.

Annotation: Ngurra-kurlu design represents the five elements of Warlpiri culture: land, law, language, ceremony, skin (information extracted from a documentary made by Warlpiri filmmakers and available on You Tube); presents Warlpiri philosophy, in a written form to make it accessible to non Warlpiri people; central theme of paper is that, when supported, Ngurra-kurlu promotes the healthy functioning of Warlpiri people and Warlpiri country - it is about relationships, engagements and belonging; promoting Ngurra-kurlu does not mean a return to historical times, but about mainstreaming core Warlpiri values whether living in the bush or in the community; explores the elements of ngurra-kurlu and their interrelationships and explains that it can provide a clear direction for the future of Warlpiri people for the benefit of all Australians

Personal Author: Proffit, William R.
Added Author: McGlone, Robert E.
Title: Tongue-lip pressures during speech of Australian Aborigines / William R. Proffit
Physical descrip: p. [200]-220. : ill., pls.
Annotation: Electronic instruments to measure tongue and lip pressures and pressure patterns in Australian Aborigines made it possible to differentiate physiologically between certain sounds; lingual pressure patterns indicate that the /t/, /nt/ and /tj/ sounds in the Walbiri language require different articulatory gestures and are properly considered separate phonemes; labial pressures distinguish classes of phonemes but not individual sounds; tongue positioning within the oral cavity of Aborigines reveals compensations for their

different anatomy, but articulatory gestures are remarkably similar in Aborigines and Americans
