you can get anything you want....in a fantasy with arlo guthrie but wot
a fantasy - no alice! but nevertheless why not extend your frustration
with the great society by a pseudo (interruptus) satisfaction via alice
s restaurant bookshop 116 greville st prahran which is where all the
lovelies of the world meet and you may big deal meet them too and hear
all about the refrigerator image and arlo and dagwood and sturrgles of
course and all the other bile which spews forth from minds which are
relatively speaking beautiful but not properly so because the revolution
has yet to cum. there is of course no doubt that the revolution will
cum and as that old utopian anarchist who will of course have to be
purged bakunin said we must have revolution and revolution and revol-
ution until our children are perfect and rightly so too so do come along
and see us and meet the fugs and the great woody and perhaps later even
read the village voice and meet too huey newton jr who is perhaps the
most liberated of us all and as our shop is to be australia s own afro-
american embassy that is also rightly so. anybody can have a go at
alice old whore that she is - proles student workers maybe even the odd
anarchist or so. but remember we offer you no satisfaction til after
the revolution but as alice is indispensable to the revolution she
should be patronized by all.
