

## Noise Demonstration outside the Home Office and Border Force in Wales

UK Border Force and Home Office, together with their military partners are busy defending the borders, to make sure UK plc can mine, trade and exploit beyond the UK without the risk of too many people coming along to ask for a receipt.

From these offices life and death decisions are made and dawn raids ordered and carried out.

Come make some noise to show how we feel about their work!

**12:00PM, Tuesday 2nd Sept,  
31-33 Newport Road, Cardiff**

## Why are we protesting outside this building? Well, in short....

This is the regional offices of the Home Office and the Border Force. These offices make decisions on people's visa applications, claims for asylum, and decide who can and cannot stay in the UK. From this building life and death decisions are made and dawn raids ordered and carried out. They are responsible for detaining and deporting thousands of migrants every year.

Migrants come to the UK for many reasons. They may be simply seeking a chance to work or study. Many are refugees, fleeing war, abuse or torture.

A key means through which NATO and its constituent members maintain their power is through the controlling the mobility of all but the richest few. This has given rise to increasingly militarised border regimes across the globe, including the UK's 'Border Force' and Europe's 'Frontex'.

People had moved freely across the globe for thousands of years, without any need for these movements being controlled. The political reality is that immigration controls are inherently, institutionally, racist and morally wrong.

Come and take action against them!

**NO NATO, NO BORDERS.**
