

# Discover Mauritius

The Plantation Club is inspired in architecture and service by the original sugar plantations that shaped the growth of our stunning country.

Plantation houses interpreted Creole Cuisine according to the wildlife, vegetables and herbs found in the different areas of the island.

We have scoured the island and now bring you a modern presentation of traditional Mauritian flavours.

---

"I look forward to taking you on a journey of flavors from the diverse regions of our island. Bon Appétit!"

*Chef Sadien*

---

If you would like to discover a dish that is not listed here, Chef will be pleased to help you.

## To begin

### **Native fish from the West Coast** 780
