A CENTENARY OF
OPPORTUNITY 2016

VICTORIA UNIVERSITY
COURSE GUIDE 2017

POSTGRADUATE

vu.edu.au

**VICTORIA
UNIVERSITY**
MELBOURNE AUSTRALIA

At Victoria University (VU), we will help you prepare for victory.

VU may be a young university, but we draw on a long, rich history. Our Centenary of Opportunity celebrates the students and staff, past and present, that have made Victoria University what it is today.

A full century on from opening our doors at Footscray Technical School in 1916, we provide outstanding educational opportunities for students from diverse countries, cultures, and backgrounds; and empower our students to grow their capabilities and transform their lives for the better, by enabling career aspirations, and building employability and entrepreneurship.

We are a university that is deeply connected with industry. We provide you with access to workplace learning opportunities that will give you real-world experience so you graduate job-ready.

By choosing to study with us, you can be assured of a friendly, supportive environment where our teachers will work alongside you to help achieve your goals.

Thank you for considering VU for your postgraduate studies.

PROFESSOR PETER DAWKINS
Vice-Chancellor and President

I look forward to welcoming you
at Victoria University in 2017.

A CENTENARY OF OPPORTUNITY

CELEBRATING
A CENTENARY OF
OPPORTUNITY 2016

VICTORIA UNIVERSITY

100 Years of Education

2016 marks 100 years since Footscray Technical School first opened its doors. Since then, the institution has grown and evolved, establishing itself as an international university in 1990. We are proudly celebrating the role we've played in our community over the past 100 years, and excited about sharing our vision for the future as the University of Opportunity and Success.

We have organised a program of events for 2016 to mark this significant milestone. Come along and get a taste for VU life and our history at one of the many events across campuses and in the community. There are plenty to choose from, including lectures, sporting events and a special VU Homecoming. The program reflects the diversity of the VU community, and is a celebration of the remarkable achievements of our past and present students, educators, researchers and partners.

With over 100 years of experience in providing excellent opportunities to all our students and communities, today's institution can help you find true success through high-quality teaching and flexible study options that suit your lifestyle.

By choosing VU for your study in 2017, you will become part of a long history of opportunity and success.

vu.edu.au/centenary

CONTENTS

"My entire academic experience at VU was phenomenal and laid the foundation for my future success."

"In my home country I had no freedom to pursue an education. VU was my chance to make a lifelong dream a reality, and I credit the VU community at large for playing a major role in helping me earn a masters degree. Every staff member was so welcoming and helpful, motivating me to do well.

VU attracts the most amazing students locally and from around the world. My entire academic experience at VU was phenomenal and laid the foundation for my future success."

SAMUEL MANHOM

Bachelor of Accounting, Banking and Finance
(now Bachelor of Business [Banking and Finance])
Master of Business (Finance)

Samuel Manhom spent 12 years in refugee camps before resettling in Australia. He worked by day and studied at night. He now works for the National Sterling Financial Group as an Accounts Officer, and volunteers with Rotary, helping to build a primary school in his former hometown of Rumbek, in South Sudan.

"I decided to further my studies by completing VU's Master of Education because I ultimately want to be a principal.

The curriculum was very relevant, and I've been able to apply theory to practice in my classroom. Professionally, I was in control of my own growth.

The flexible evening classes were held at Point Cook Secondary College, so it was easy for me to study after work."

JANITTA LOUGHLIN

Bachelor of Education
Master of Education

POSTGRADUATE STUDY AT VU

Postgraduate study is undertaken after completing an undergraduate degree and/or equivalent work experience.

It can help you take your career higher or in a new direction. Whether you want to climb the career ladder, further specialise your skills, follow a passion, or study with an internationally recognised research community, we will help you reach your goal.

VU may be able to fast-track your studies by giving you credit for prior learning or work experience (see 'Advanced Standing' on page 46 for more information).

Many VU courses are delivered in convenient locations outside working hours – full-time, part-time or in bursts – so you can balance your studies with other commitments.

POSTGRADUATE COURSEWORK DEGREES

VU offers coursework degrees and research degrees. The three types of coursework degrees available are:

- **Graduate certificate:** builds on the skills and knowledge developed in your undergraduate degree, or develops new vocational skills. Applicants typically require a bachelor degree, advanced diploma or equivalent (work experience may also be taken into consideration).
- **Graduate diploma:** develops new knowledge and specialised skills in an area not previously studied. Applicants typically require a bachelor degree or diploma (exceptions may apply where appropriate work experience can be demonstrated).
- **Masters degree by coursework:** enhances your professional skills and understanding in a specific area. You will receive additional support and guidance in tutorials, from tutors and other students. Applicants normally require a bachelor degree, honours degree or graduate diploma.

See the following page for information on research degrees.

COURSE PATHWAYS

Many of our postgraduate programs offer a pathway or full transition between courses. For example, a graduate certificate may provide one semester's credit towards a particular graduate diploma, which, in turn, may provide two semester's credit towards a particular masters degree by coursework.

However, you usually don't need to undertake a graduate certificate, for example, before undertaking a graduate diploma or masters.

Additionally, if you enrol in a masters course and decide to exit early, you may still graduate with a lesser qualification in the same discipline, such as a graduate certificate or graduate diploma. This may depend on how many units of study you have successfully completed. If you choose to resume your masters studies at a later date, you can. It's your choice.

RESEARCH DEGREES

VU provides quality research training, and undertakes specialised and cross-disciplinary research. We aim to make change through practical and applied outcomes that can be used by business, industry and the community.

Our researchers enjoy international reputations for excellence. They conduct research that is locally relevant and globally significant, through an extensive network of partnerships and collaborations.

VU aims to be recognised for applied and translational research that has an impact on industry and community, particularly across the following four interdisciplinary themes:

- Sport, Health and Active Living
- Education, Lifelong Learning and Workforce Development
- Sustainable Industries and Liveable Cities
- Policy Studies.

These themes build on areas of existing research strength. Their interdisciplinary nature means the University will produce robust research outcomes that have positive real-world impact.

vu.edu.au/research

RESEARCH FOCUS AREAS

Work across these themes is undertaken in the academic colleges and their research centres and institutes, and focuses on the following areas:

- applied informatics
- creative arts and writing
- diversity, communities and wellbeing
- education and lifelong learning
- food sciences and nutrition
- health and biomedicine
- sport, exercise and active living
- strategic economics and finance
- supply chain and logistics
- sustainability and innovation.

GRADUATE RESEARCH CENTRE

VU's Graduate Research Centre provides comprehensive support through all stages of graduate research candidature – from choosing a supervisor and scholarship applications, to participating in professional researcher development workshops and planning for your future career in research and industry.

They're located on the Footscray Park Campus in Building C320.

vu.edu.au/graduate-research-centre
gradresearch@vu.edu.au
03 9919 4522

RESEARCH EXCELLENCE

VU received impressive ratings in the 2015 Excellence in Research for Australia (ERA) assessment, with many of our research focus areas achieving a ranking of world-standard or above. ERA is the major research quality assessment exercise for Australian universities.

In 2015, VU received:

- the highest rating of 5 (well above world standing) in Electrical and Electronic Engineering, Human Movement and Sports Science, and Nursing
- a rating of 4 (above world standard) in Mathematical Sciences, Applied Mathematics, Engineering and Mechanical Engineering
- a rating of 3 (world standard) in Artificial Intelligence and Image Processing, Distributed Computing, Information Systems, Education, Specialist Studies in Education, Tourism, Language Communication and Culture, and Cultural Studies.

RESEARCH INSTITUTES & CENTRES

The VU research institutes and centres listed below provide unique opportunities for cross-disciplinary research and knowledge exchange:

- Institute of Sport, Exercise and Active Living (ISEAL) vu.edu.au/iseal
- Institute for Supply Chain and Logistics (ISCL) vu.edu.au/iscl
- The Victoria Institute vu.edu.au/victoria-institute
- Victoria Institute of Strategic Economic Studies (VISES) vu.edu.au/vises
- Mitchell Institute at Victoria University mitchellinstitute.org.au
- Centre for Applied Informatics (CAI) vu.edu.au/cai

- Centre for Chronic Disease Prevention and Management (CCDPM) vu.edu.au/ccdpm
- Centre for Cultural Diversity and Wellbeing (CCDW) vu.edu.au/ccdw
- Centre for Environmental Safety and Risk Engineering (CESARE) vu.edu.au/cesare
- Centre of Policy Studies (CoPS) vu.edu.au/cops

WORLD-CLASS RESEARCH FACILITIES

Our research facilities rank among the best in Australia and the world.

They include:

- world-class exercise science and sport laboratories
- the Western Centre for Health Research and Education (Western CHRE)
- a water research centre
- a sleep laboratory
- fire testing facilities
- food technology and testing facilities.

RESEARCH SCHOLARSHIPS

Victoria University offers a generous range of scholarships for students undertaking a higher degree by research. In 2015, some 280 VU graduate research scholars were supported with living allowances and/or tuition-fee scholarships. Scholarships are awarded on the basis of merit, with preferences given to students undertaking research projects in one of our areas of research strength.

vu.edu.au/research-scholarships
researchscholarships@vu.edu.au
03 9919 5014

KEY PARTNERSHIPS

VU enjoys strong partnerships with industry, community, government and other academic institutions.

Through these connections we equip students with the skills and knowledge required in the real world. Many also offer opportunities for our researchers to collaborate on solving real problems.

INDUSTRY CONNECTIONS

INDUSTRY-RELEVANT CURRICULUM

Employers value our graduates because they learn from industry-relevant curriculum, giving them real-life experience.

Our industry partnerships provide valuable insights into current industry practices, allowing us to develop our courses to meet industry's current and future needs. This ensures we provide students with the most meaningful, relevant and up-to-date education.

By studying at VU, you graduate with the knowledge and skills that employers need and are looking for.

STUDENT WORKPLACE LEARNING

Postgraduate students have many opportunities to undertake workplace learning. Each workplace learning program is structured around what the student wants to achieve. It is an invaluable means of allowing a student to experience how their studies are applied in the workplace.

KEY PARTNER INDUSTRIES

We have prioritised 10 key industries to both broaden and consolidate our industry partnerships. Each industry was chosen because of its potential for growth and its alignment to courses that we offer. The 10 industries are:

- sport and recreation
- health services
- educational services
- built environment
- tourism and major events
- community services
- creative industries
- financial services
- legal services
- supply chain and logistics.

WESTERN BULLDOGS

Our partnership with the Western Bulldogs is unique among Australian universities and sporting clubs. It is one based on a shared commitment to sport, recreation, and the economic and social wellbeing of residents in Melbourne's west. Benefits include joint research and staff appointments, work placements for students, collaborative education programs, and joint community activities.

The Bulldogs' training ground – Victoria University Whitten Oval – is a venue for student placements and postgraduate research.

CITY WEST WATER

City West Water and VU are engaged in a number of partnerships and agreements. These include a partnership to promote research collaboration in the area of water and sustainability; and investigation into PH Neutralisation Salts, their chemistry and their use in industry.

A number of VU academics and research students' projects are funded by City West Water.

WESTERN HEALTH

Our collaboration with Western Health includes student clinical placements and work-based education programs. The Western Centre for Health Research and Education, the first purpose-built research and training facility for medicine and the health sciences in Melbourne's west, is a three-way partnership between Victoria University, Western Health and the University of Melbourne.

MALTHOUSE THEATRE

Our longstanding partnership with Malthouse Theatre is built on a shared vision to celebrate excellence, opportunity, community and empowerment in the arts. As official Prompt Education Partner, VU students and staff have opportunities to engage with the theatre's artistic program.

WORLD HEALTH ORGANISATION

VU works with the World Health Organisation on research that addresses disease prevention and management, and health investment that has a positive impact on global health and economic issues.

SPORTS PARTNERSHIPS & COLLABORATIONS

VU actively supports and participates in knowledge exchange (including applied research) with many sports bodies, including:

- the Australian Sports Commission
- the Australian Institute of Sport
- Netball Victoria
- Western Jets Football Club.

COMMUNITY ENGAGEMENT

The west of Melbourne is Australia's fastest growing region and VU's heartland. Our community engagement includes improvements to physical infrastructure, and helping to develop and grow the capacity of community groups.

VU has significant experience working with culturally and linguistically diverse (CALD) and Indigenous communities; addressing refugee issues; tackling diversity and social inclusion issues; and improving health and social wellbeing in the region.

We have also partnered with local, government and community organisations to establish Footscray University Town, a 10-year urban renewal program for Footscray.

PROFESSIONAL ACCREDITATION

Many of our courses are accredited by peak bodies and professional organisations. These bodies are identified in our course listings. Accreditation means your qualification delivers the skills employers are looking for and will be recognised by industry. Accreditations by peak bodies include:

- Australasian Osteopathic Accreditation Council
- Australian Children's Education and Care Quality Authority
- Australian Computer Society
- Australian Psychological Accreditation Council
- CPA Australia
- Exercise and Sports Science Australia
- Institute of Chartered Accountants Australia
- Victorian Institute of Teaching.

INDUSTRY PROFESSIONALS

TAPPING INTO INDUSTRY INSIGHTS

The high standard of our teaching, curriculum and research is complemented by the industry focus and connections that our highly regarded adjunct professors bring to VU. With years of experience in their fields, they deliver guest lectures, provide industry insights and assist with curriculum development.

THE HONOURABLE CRAIG EMERSON

Former Federal Government minister The Hon. Dr Craig Emerson provides advice and expertise to the College of Business, and delivers guest lectures. A high-profile economist, Dr Emerson held various portfolios, including Minister for Trade and Competitiveness.

THE HONOURABLE NICOLA ROXON

Australia's first female Attorney-General The Hon. Nicola Roxon is the Advisory Board Chair of VU's Sir Zelman Cowen Centre, which conducts industry-related courses, consultancy and research in the legal profession.

THE HONOURABLE MICHAEL KIRBY

The Hon. Michael Kirby is a former Justice of the High Court of Australia, and remains an active human rights advocate. He shares with students his High Court experiences and passion for human rights, and inspires law students from all walks of life.

ALAN KOHLER

As one of Australia's most experienced financial journalists, Alan Kohler contributes to our business curriculum, and promotes the value of financial literacy – which is critical for small, medium and large businesses.

IAN JAMES

Managing Director of Mushroom Music Publishing, Ian James is one of Australia's most respected music industry identities and has contributed significantly to VU's music industry business courses.

DIANNE SMITH

Currently General Regional Manager (Acting) with Tourism Victoria, Dianne's substantive role is Chief Executive of Victoria Tourism Industry Council. She has over 20 years' experience in marketing, visitor services, policy and strategy positions, and leads a network of industry professionals mentoring students through workshops and presentations.

"I chose VU because of its links to professional sporting organisations, outstanding research facilities and well-respected staff. My supervisor was one my first teachers during my undergraduate degree.

The strong partnership between VU and the Western Bulldogs has definitely helped my career. Whilst completing my PhD, I worked as strength and conditioning coach with VFL team, the Footscray Bulldogs and was recently appointed Physical Performance Manager at the Western Bulldogs in the AFL.

At VU, students are offered placements at elite sporting teams, elite athletes are supported with flexible study, and sporting clubs get access to facilities and the latest research."

MAT INNESS

Bachelor of Fitness Leadership
Doctor of Philosophy

VU has a well-earned reputation for accessibility, and we pride ourselves on the affordability of our courses.

Like other universities and tertiary education providers, we determine our own tuition fees. Our degrees are high quality and better value than other tertiary education providers.

HOW MUCH WILL MY COURSE COST?

POSTGRADUATE COURSEWORK STUDENT FEES

VU does not receive government funding for most postgraduate coursework student places, and students pay the full cost of their course. Course fees are based on the units studied, rather than a fixed price for each course. Different units have different costs.

Postgraduate course fees are payable before each semester. Australian citizens and humanitarian visa holders can apply to defer paying their fees through the Australian Government's loan program, FEE-HELP.

Students can choose to use a FEE-HELP loan to cover all or part of their tuition fees. Students repay their loan by instalments through the Australian Taxation Office when they earn above a specific yearly income (in 2015–2016, the yearly income was \$54,126 or above).

For information on FEE-HELP: studyassist.gov.au

COMMONWEALTH SUPPORTED PLACES

A small number of VU's postgraduate courses are subsidised by the Australian Government as a Commonwealth supported place (CSP), where the government pays part of the course fee and the remainder is paid by the student through the HECS-HELP scheme. Note that where no CSP is available, the government provides FEE-HELP.

For information on CSP and HECS-HELP: studyassist.gov.au

POSTGRADUATE RESEARCH STUDENT FEES

Students undertaking research degrees who are Australian citizens, permanent residents or New Zealand citizens may be eligible for Commonwealth Government-funded Research Training Scheme (RTS) places. There are no tuition fees for these places but students are required to pay the Student Services and Amenities Fee. New Zealand citizens and permanent residents whose study is funded through the RTS must reside in Australia for the duration of their course of study. Australian citizens who undertake the study offshore are required to undertake part of their studies onshore.

Students ineligible for an RTS place can undertake the course as a full-fee paying student and, if eligible, defer their fees through FEE-HELP.

For information on RTS and FEE-HELP: studyassist.gov.au

The following table lists the approximate average fees for some of our most popular postgraduate coursework courses in 2016.

Course fees for 2017 entry may be higher.

| COURSE | FEE SAMPLE (COST OF FULL COURSE) |
|--|-------------------------------------|
| ARTS | |
| GRADUATE DIPLOMA IN COUNSELLING – AGPD | \$13,860 |
| MASTER OF INTERNATIONAL COMMUNITY DEVELOPMENT – AMCD | \$27,000 – \$31,680 |
| BUSINESS | |
| GRADUATE DIPLOMA IN PROFESSIONAL ACCOUNTING – BGAP | \$23,040 |
| MASTER OF ACCOUNTING – BMAC | \$32,490 |
| EDUCATION | |
| MASTER OF EDUCATION – EMED | \$27,720 |
| ENGINEERING | |
| GRADUATE CERTIFICATE IN PERFORMANCE-BASED BUILDING AND FIRE CODES – ETQB | \$8,760 |
| MASTER OF ENGINEERING (BUILDING FIRE SAFETY AND RISK ENGINEERING) – EMQB | \$30,660 – \$39,420 |
| HEALTH | |
| MASTER OF HEALTH SCIENCE (OSTEOPATHY) – HMOP | \$38,400 |
| LAW | |
| GRADUATE CERTIFICATE IN AUSTRALIAN MIGRATION LAW AND PRACTICE – LTML | \$11,520 |
| SPORT AND EXERCISE SCIENCE | |
| MASTER OF CLINICAL EXERCISE SCIENCE AND REHABILITATION – AMEP | \$21,900 – \$26,280 |

FINANCIAL SUPPORT

We know that financial demands can be one of the main barriers to undertaking further study.

VU helps by offering a range of postgraduate research scholarships, as well as free financial advice about government assistance, budgeting and student loans.

FINANCIAL ADVICE

We offer free financial advice from professional, trained staff to help manage study-related and living costs. Information about tax, government assistance, debt, household expenses, budgeting, financial planning and student loans is also available.

vu.edu.au/financial-advice

ASSISTANCE WITH FEES

Most postgraduate coursework courses are full-fee paying by the student, however a small number of courses are subsidised by the Australian Government as CSPs.

RESEARCH SCHOLARSHIPS

We offer many living stipend scholarship programs to reduce the living costs for postgraduate research students while they are studying. Scholarships are awarded on the basis of merit with preference given to students undertaking projects in one of our areas of research strength. Find out more about our research focus areas on page 7.

vu.edu.au/graduate-research-scholarships
researchscholarships@vu.edu.au
 03 9919 4955

Find out more about our range of scholarships at vu.edu.au/scholarships

"I emerged from the experience so much more confident in myself and in my ability to pursue opportunities relating to my passion: writing."

"Completing my PhD has been the most profound experience of my life. I was so beautifully supported and nurtured by my supervisors, the school and the institution throughout my study that I emerged from the experience so much more confident in myself and in my ability to pursue opportunities relating to my passion: writing."

The novel I wrote as part of my PhD project was picked up for publication not long after I completed the PhD. *Anchor Point* was published in early 2015 and I recently signed a contract for my second novel.

VU changed my life and set me on a professional path I could have previously only dreamed about."

ALICE ROBINSON
Doctor of Philosophy

Alice's debut novel, *Anchor Point*, was longlisted for the 2016 Stella Prize.

ARTS

VU offers postgraduate arts courses in:

- communications
- creative writing
- community development
- counselling
- creative arts
- digital media.
- psychology

Whether your career ambitions are as a psychologist, community worker, digital media practitioner or a writer, we offer courses that will spark your passions and take your career to the next level.

We work with industry partners to ensure our curriculum is in line with the latest in industry practice, to share research and to provide students with access to world-class resources and workplace learning opportunities.

Our lecturers have professional backgrounds in their respective industries and draw on rich experience to bring their teaching to life.

Postgraduate arts students and researchers have collaborated with SBS Television, the Australian Centre for the Moving Image, Malthouse Theatre, the Newport Islamic Society, Victoria Police, Footscray Community Arts Centre, Powerhouse Museum, Melbourne Rebels Rugby Team, Melbourne City Mission and the Australian Multicultural Foundation.

Our psychology students have the opportunity to turn their theoretical knowledge into practice through clinics open to the public.

ARTS RESEARCH FOCUS

We conduct world-class research and provide expert research supervision.

We welcome enquiries from prospective research students interested in developing new projects in:

- community development
- creative writing
- cultural studies
- digital media
- history
- literary studies
- media studies
- politics
- visual arts
- psychology
- social work.

Our research themes focus on:

- cultural diversity and wellbeing
- community, identity and displacement
- creative arts and creative writing.

ARTS RESEARCH CENTRES AND NETWORKS

We encourage collaborative teamwork approaches to the creation of new knowledge. Our postgraduate researchers can conduct research through various groups.

The Centre for Cultural Diversity and Wellbeing (CCDW) conducts theoretical and applied research, in order to better understand and promote the connection between cultural diversity and human wellbeing in three program areas:

- mobilities, transitions and resilience
- cultural diversity, technologies and creativity
- culture and values in health.

The Community, Identity and Displacement Research Network (CIDRN) brings together academic scholars and postgraduate students to investigate new diasporas and change meanings of displacement and identity.

vu.edu.au/arts

Be the employer's choice

"I engaged with VU in order to make a contribution to the industry by arming students with 'real world' knowledge to bridge the gap between tertiary studies and the workforce.

Since then, we have offered employment to many VU students, who have joined MultiChannel Network (MCN) and are starting their careers in advertising and media. We have also successfully facilitated employment of VU students into other businesses in media, including media agencies.

While we usually receive a huge number of applicants for positions at MCN, those that come from VU are high calibre students who are dedicated. In my experience, they have an education with a difference – an education that has prepared them 360-degrees, academically, personally and professionally. They have a willingness to roll their sleeves up and start a real career."

MELINA AUGOUSTAKIS
Strategic Planning Director,
MultiChannel Network (MCN)

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|---|--|---|--|
| COMMUNICATION AND PUBLIC RELATIONS | | | |
| GRADUATE DIPLOMA IN PUBLIC RELATIONS - AGCR DURATION: 1 year CAMPUS: CF vu.edu.au/courses/AGCR | Develop the skills and knowledge you need to advance your career in the public relations field, including professional research capabilities in digital, campaign and organisational contexts. This course focuses on public relations practice, research and evaluation, ethics, campaign management, and a variety of case studies. | Undergraduate degree; or equivalent combination of education and relevant work experience. | A range of roles in organisations and consultancies, designing and managing campaigns, managing partnerships, managing media engagements, creating documents and online material, providing strategic advice on internal communication advice and policy, and managing in-house communication. |
| GRADUATE CERTIFICATE IN PROFESSIONAL ENGLISH COMMUNICATION - ATEC DURATION: 0.5 years CAMPUS: FP vu.edu.au/courses/ATEC | Designed for non-native English speakers, this course is tailored to meet student needs. It complements and augments existing professional coursework masters degrees to improve graduate outcomes in the English-language professional employment market. The course aims to enhance professional competence and confidence through high-level studies of professional English and an internship. | Undergraduate degree or higher. | Admission to further postgraduate studies, or professional positions where English is the preferred language for business communication. Note: for non-native English speakers. |
| GRADUATE CERTIFICATE IN COMMUNICATION - ATCN DURATION: 0.5 years CAMPUS: CF vu.edu.au/courses/ATCN | Develop the skills needed to work locally or internationally in professional writing, public relations and digital media. Graduates will understand the contemporary context of the communication profession across various commercial, state and community sectors. | Undergraduate degree; or significant professional experience. | Communications/media adviser, policy developer/adviser. |
| GRADUATE DIPLOMA OF COMMUNICATION - AGCN DURATION: 1 year CAMPUS: CF vu.edu.au/courses/AGCN | Develop skills in cross cultural and international communication, campaign communication, public relations and digital media. This course combines knowledge and skill development for professionals in communication roles, or those seeking to enter this field. Course delivery blends campus-based and online components to present flexible study options, along with fostering supportive peer networks. | Relevant undergraduate degree; or equivalent combination of education and relevant work experience. | A range of roles in organisations and consultancies, managing internal and external partnerships and media engagements, creating documents and online material, providing strategic internal communication advice, policy communication advice, and managing in-house communication. |
| MASTER OF COMMUNICATION - AMCN DURATION: 2 years CAMPUS: CF vu.edu.au/courses/AMCN | Expand your career options in the professional writing, public relations and digital media professions, and become a leader in the communications industry. This course has a strong focus on public relations, digital and social media, and on ethical issues, critiques, and the skills and practices of public relations and communication professionals. | Undergraduate degree; or significant professional experience. | Senior communications officer, adviser and manager, policy developer/adviser, broadcaster/journalist, public relations specialist, media adviser, researcher. |
| COUNSELLING AND PSYCHOLOGY | | | |
| GRADUATE DIPLOMA IN COUNSELLING - AGPD DURATION: 2 years CAMPUS: CF, FN vu.edu.au/courses/AGPD | Advance your counselling skills and learn how to apply them ethically. Develop your theoretical knowledge with industry-based learning and placement. Choose course specialisations that meet the current needs of the public and private industry. You can choose either the 'General' stream or 'Child and Adolescent' stream. | Undergraduate degree; or significant professional experience in the field of counselling. | Counsellor, community/youth worker, welfare roles in community, government or educational settings. |
| GRADUATE DIPLOMA IN PSYCHOLOGY - AGPS DURATION: 1 year CAMPUS: FN vu.edu.au/courses/AGPS | Pursue an advanced level of theoretical study and focus on one of three areas: organisational psychology, community psychology or health research. You will develop skills in critical analysis and independent research in psychology, preparing you for postgraduate research or professional careers. Graduates are eligible to become probationary psychologists with the Victorian Psychologists' Registration Board. | Undergraduate degree with an APAC-accredited specialisation in Psychology (or equivalent). Relevant experience in either private or public sector organisations is an advantage. Applicants may be interviewed and requested to provide academic letters of recommendation. | Further study or employment in areas such as welfare, community services and human resources, and professional pathways such as teaching. With an additional APAC-accredited fourth year course, students are eligible to register as a provisional psychologist with the Psychology Board of Australia. |
| MASTER OF APPLIED PSYCHOLOGY (COMMUNITY PSYCHOLOGY) - AMPC DURATION: 2 years CAMPUS: FN vu.edu.au/courses/AMPC | Pursue a career as a community psychologist in a vibrant learning environment. This program is founded upon the scientist-practitioner model of professional training, as well as facilitating a clear stance of inquiry in relation to all aspects of theory, research and practice. Graduating students will have completed 1000 hours of supervised practical placement experience. | Honours degree with APAC-accredited fourth year in Psychology; or a pass degree with APAC-accredited three-year sequence in Psychology, and APAC-accredited four-year Psychology course. Applicants will be interviewed. | Work in community mental health, organisational psychology, applied social psychology, environmental psychology, ecological psychology and health psychology. |
| MASTER OF COUNSELLING - AMPE DURATION: 2 years CAMPUS: CF, FN vu.edu.au/courses/AMPE | Extend your expertise in counselling theory and practice. This course focuses on psychological theory relevant to your workplace and interests, counselling interventions and psychological therapies, and practical skills through industry-based learning and placement. You can specialise in either the 'Adult' stream or the 'Child and Adolescent' stream. | Undergraduate degree in any discipline; or significant professional experience. Applicants must provide academic and professional references, and attendance at a selection interview may be required. | Multicultural services, counselling, family support, community work, palliative care. |
| MASTER OF PSYCHOLOGY (CLINICAL PSYCHOLOGY) - AMPL DURATION: 2 years CAMPUS: FN vu.edu.au/courses/AMPL | Become a professional clinical psychologist working with children, adolescents and adults. Undertake clinical field placements in agencies across Melbourne. Study a range of assessments, therapies and rehabilitation techniques. This program has a strong emphasis on psychodynamic perspectives. Graduates qualify for registration as a psychologist in Victoria. | Fourth year in an APAC-accredited course. Referees' reports and any relevant professional experience are taken into account. | Specialist professional psychologist in clinical psychology. |
| DOCTOR OF PHILOSOPHY (PSYCHOLOGY) - UPAP DURATION: 4 years CAMPUS: FP, FN, SA vu.edu.au/courses/UPAP | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Masters degree; or four-year undergraduate degree with honours or equivalent at a high standard. | Academic and research-focused positions in the relevant fields of study. |

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|--|--|---|--|
| CREATIVE ARTS | | | |
| DOCTOR OF PHILOSOPHY (CREATIVE ARTS) - UPAC DURATION: 4 years CAMPUS: FN, FP, SA vu.edu.au/courses/UPAC | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Masters degree; or four-year undergraduate degree with honours or equivalent at a high standard. | Academic and research-focused positions in the relevant fields of study. |
| DIGITAL MEDIA | | | |
| GRADUATE CERTIFICATE IN DIGITAL MEDIA - ATDM DURATION: 0.5 years CAMPUS: CF vu.edu.au/courses/ATDM | Enhance your career options as a digital media practitioner in a global industry. Course content is flexible and regularly updated to deliver the latest in industry practices and processes. Study 'app' development, search engine optimisation, content strategy and social network analytics. Australian Psychology Accreditation Council (APAC)

"I had worked in hospitality in England and taught English in Japan but I wanted to do something that would be of benefit to my community, and that I would find personally fulfilling and intellectually stimulating. Community development fit those criteria.

I chose VU for my postgraduate studies because I had a couple of friends who had studied there and they spoke in glowing terms of VU and the lecturers.

The other students added to the richness of the course. They had amazing life experiences, and studying with people from such diverse cultural backgrounds was amazing, particularly in the context of my course. I think that is something I would only have got at VU."

SARA GRAHAM
Master of International Community Development

"I chose VU both for its recognition in the logistics industry and also because the course structure was flexible and offered classes at night."

"I first began studying at VU with a Diploma of Logistics while working full time as a Warehouse Manager for Austpaper Pty Ltd. I chose VU both for its recognition in the logistics industry and also because the course structure was flexible and offered classes at night, which suited my work hours.

Once I completed my diploma I applied to do a bachelor degree, but was directed straight to the master due to my high marks and more than seven years' industry experience. The Master of Business (Supply Chain Management) has opened many doors of opportunity for me and I've recently moved into a new role as the National Logistics Manager for Position Partners.

My career success comes from a combination of work experience in the field and formal education from a reputable institution like VU."

BART PHAOSIHAVONG
TLI50410 - Diploma of Logistics
Master of Business (Supply Chain Management)

BUSINESS

VU offers suites of postgraduate business courses in:

- accounting
- finance
- business administration
- business analytics
- enterprise resource planning
- human resource management and industrial relations
- organisational change management
- management
- marketing
- supply chain and logistics.

We have an extensive network of high profile business partnerships and overseas exchange opportunities. Through these, and our mix of students from around the world, you can grow a national and global network, and expand your career opportunities.

Our course curriculum is widely recognised for quality and relevance to business industry needs.

Our MBA has been ranked in Australia's top three by *CEO Magazine* for three consecutive years, for its excellent lecturers, small class sizes, student diversity, value for money and international study options. The *Australian Financial Review's BOSS* magazine ranked our MBA in Australia's top 10, and number two in Victoria. VU is also a three-time winner of the Australian Tourism Award for excellence in tourism education and training.

VICTORIA GRADUATE SCHOOL OF BUSINESS

All postgraduate coursework business courses are offered through the Victoria Graduate School of Business (VGSB). Located in the heart of Melbourne's business district, we offer the flexibility and convenience to make postgraduate study work for you.

VGSB courses are affordable and globally recognised for their high quality. We are dedicated to encouraging your educational and career aspirations, and will help you lay the foundations for a successful future in business.

Along with expert academics and researchers, we have a number of respected adjunct professors, such as financial journalist Alan Kohler, former federal minister Dr Craig Emerson and Victoria Tourism Industry Council Chief Executive, Dianne Smith.

vu.edu.au/vgsb

INTERNATIONAL OUTLOOK

VU values cultural diversity and offers enriched learning experiences through global insights. Partner universities in Singapore and Malaysia provide the chance for you to take your study overseas so you will come away from your degree with an invaluable global network of peers.

INDUSTRY CONNECTIONS

Our strong industry relationships help inform our curriculum and provide opportunities for students to be kept abreast of current trends and the changing business landscape. This knowledge, along with networking opportunities and real-life experiences, will prepare you to excel in your chosen field.

SUPPORTIVE STAFF

Relationships between our teaching staff and students focus on mutual respect, and acknowledging students as professionals who want to extend their business skills and be challenged. Our teaching staff have an 'open door' policy and encourage students to approach them for additional assistance whenever necessary.

PRIME LOCATION

Postgraduate business courses are taught at our City Flinders Campus, conveniently located opposite Melbourne's Flinders Street Station. We have a commitment to forging strong relationships with the business community to provide highly relevant, practical and hands-on courses.

Be the employer's choice

“What makes VU stand out for me is the industry work experience. VU students study the theory and then have the opportunity to work in the industry, which definitely allows them to realise their full potential.

The MCEC has a few employees that have studied at VU, which is fantastic. They are passionate and driven people whilst being hard working.”

"VU offers a lot of hands-on practical experience in the teaching profession. I've been able to build my professional networks."

"I began my study at VU with a Diploma of Early Childhood Education and Care and proceeded to a Bachelor of Education (Early Childhood/Primary), which took me to where I am today.

I'm currently studying a Master of Education part-time through night classes. This opportunity through VU gives me flexibility and allows me to work during the day at the same time. VU also offers a lot of hands-on practical experience in the teaching profession. I've been able to build my professional networks.

I'm currently working at VU, teaching the Diploma of Early Childhood Education and Care. My end goal is to go back and teach other adult learners who are studying each of the pathway courses I have taken myself. My advice to students is to dream big and go for it!"

Master of Education

EDUCATION

Broaden your career opportunities in the education sector, by sharpening your skills through research or coursework, or a combination of both.

VU believes in creating a better world through education. If you want to join the next generation of innovative educators, our broad range of courses and workplace learning opportunities will give you the skills you need.

Whether you are already an educator or are looking to education as a new career direction, we'll help you take your career to the next level.

Our courses emphasise networks in teacher education, through a range of partnerships with schools, community organisations, government and universities – particularly in Melbourne's north and west, but also overseas. We have a unique relationship with the University of Texas (El Paso) that has been recognised for innovation in international education.

EDUCATION RESEARCH FOCUS

Our world-class research is directed at improving educational experiences and outcomes for all students. Many of our researchers focus on education, diversity and lifelong learning, looking at the interaction between diversity and education across all sectors of formal education, non-formal education and workforce development.

We also provide leadership and innovative thinking on issues such as population mobility, environmental sustainability, health and wellbeing, inequality and social isolation, disability and disablement, the gap between the rich and poor, and our changing relationship with technology.

VICTORIA INSTITUTE FOR EDUCATION, DIVERSITY & LIFELONG LEARNING

The Victoria Institute works closely with researchers, teachers, communities, industry and policy makers to improve educational experiences and outcomes. Victoria Institute research covers various types and levels of education settings and, through the Work-based Education Research Cluster, includes investigating how learning takes place in, through and for the workplace. This research is aimed at building better educational practices for learners from diverse and disadvantaged backgrounds in Australia and around the world.

You will engage in professional learning through practitioner research informed by contemporary theories of learning, leadership, and personal, workplace and social change. | Undergraduate degree, or equivalent, and relevant work and/or community experience as approved by the University. | Education or health professional, preparation for a management role in a number of specialist fields. Note: this course does not provide students with registration to teach. |
| MASTER OF TEACHING (PRIMARY) - EMTP DURATION: 2 years CAMPUS: FP vu.edu.au/courses/EMTP | Gain practical experience and prepare for a rewarding career as a primary school teacher. Refine your craft by engaging in classroom discussions and undertaking research. You will also gain significant workplace experience to prepare you for the real world through 60 days of supervised teaching practice in a primary school. | Undergraduate degree or approved diploma. | Primary school teacher. |
| MASTER OF TEACHING (SECONDARY) - EMTS DURATION: 2 years CAMPUS: FP vu.edu.au/courses/EMTS | The Master of Teaching (Secondary) is a two-year full time postgraduate program designed to prepare students for registration as secondary teachers. This course involves significant learning in the workplace through project partnerships and prepares for teaching in a wide range of disciplines, including business, English, health, mathematics, physical education, science and technology. | Approved undergraduate degree, or equivalent, which includes the prerequisite studies for the chosen teaching methods. This generally involves completion of at least one sub-major in that subject area, except in the case of LOTE, which requires completion of a major. | Secondary teacher, roles with a range of educational-related industries and organisations. |
| MASTER OF TEACHING (EARLY CHILDHOOD) - EMTC DURATION: 2 years CAMPUS: SA vu.edu.au/courses/EMTC | Become an expert practitioner in early childhood services. This course has a strong emphasis on mentoring and support for pre-service teachers. You will develop a broad knowledge and understanding of teaching and learning processes in early childhood education, and undertake extensive teaching practice in early childhood services. | Approved undergraduate degree in any discipline; or a teaching degree in any area other than early childhood. | Early childhood teacher or director, or professional development for practicing teachers. |
| MASTER OF EDUCATION - HRED DURATION: 2 years CAMPUS: FP vu.edu.au/courses/HRED | Make a valuable contribution to new knowledge in the field of education as you make yourself more competitive in your career. Manage a research project with the support of academics with broad research experience, including presenting papers at international conferences and publishing papers in academic journals and books. | Undergraduate degree completed at a high standard (normally distinction average in final year); or relevant qualification at an appropriate standard plus professional experience. | Professional development for teachers, education administrators, researchers and policy makers. Note: this course does not provide students with registration to teach. |
| MASTER OF EDUCATION - EMED DURATION: 2 years CAMPUS: FP vu.edu.au/courses/EMED | Build on your experience as an educator by studying the latest theory and research in education. This flexible coursework program has a particular focus on, and commitment to, social justice, sustainability and ethical action. It is designed to meet the needs of professionals whose work has an educational component or some educational responsibility. | Undergraduate degree completed at a high standard, or an approved equivalent qualification. To undertake the minor thesis option, evidence of aptitude for a comprehensive research project is required. | Education professional, specialist manager, health professional. Increasingly, a Master of Education is seen as a prerequisite for promotion in the field of education for qualified school teachers. |
| DOCTOR OF EDUCATION - HZED DURATION: 3 years CAMPUS: FP vu.edu.au/courses/HZED | Contribute to new knowledge in your specialised field of education and get an advanced qualification through coursework and research. Supervisors are active researchers and educators with extensive experience in their fields, who will support and encourage you. You may exit early with a masters degree upon completing the requirements for the Master of Education. | Bachelor of Education with honours of first (H1) or upper second-class (H2A); or Master of Education by coursework, or equivalent, where the thesis has been completed to a level of second class honours (H2) or higher; or an acceptable alternative masters qualification plus significant professional experience of at least three years. All applicants must attend an interview. | Career enhancement, advancement or transition to new fields. |
| DOCTOR OF PHILOSOPHY (EDUCATION) - UPEE DURATION: 4 years CAMPUS: CQ, FP, SA vu.edu.au/courses/UPEE | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or a four-year undergraduate degree with honours or its equivalent at a high standard. | Academic and research-focused positions in the relevant fields of study. |

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|--|--|---|---|
| TESOL | | | |
| GRADUATE CERTIFICATE IN TESOL - ATTL DURATION: 0.5 years CAMPUS: FP vu.edu.au/courses/ATTL | Specifically designed for teachers who want a change of direction, you will acquire the skills needed to work as a TESOL program designer and teacher. This flexible coursework program is underpinned by a commitment to social justice, sustainability and ethical action. Graduates who do not have teaching qualifications will still gain a recognised qualification for TESOL teaching. | Recognised degree of at least three years, preferably in linguistics/TESOL/education (or related disciplines); or a recognised degree of at least three years, or equivalent, plus a commitment to work in TESOL programs (examples of this commitment include: completed CELTA, working experience as a teacher of English as a second/international/additional language, participation in professional development or volunteer work). Current or recent working experience in an education or teaching environment is strongly recommended. Applicants are also required to attend a meeting with the course coordinator to discuss course content and employment opportunities, submit a current CV with at least three referees, and present a 200-word statement outlining why they are interested in the course. | Teacher of migrant or Indigenous students, teacher of English abroad. |
| GRADUATE DIPLOMA IN TESOL - AGTL DURATION: 1 year CAMPUS: FP vu.edu.au/courses/AGTL | Change direction in your teaching career and expand your employment opportunities. Learn in the workplace and complete the professional practice that leads to accreditation with employing bodies such as the Victorian Department of Education and Early Childhood Development. Graduates who do not have teaching qualifications will still gain a recognised qualification for TESOL teaching. | Recognised degree of at least three years (preferably in linguistics/TESOL/education or a related discipline); or recognised degree of degree of at least three years plus demonstrated commitment to work in TESOL programs (examples of this commitment include: a completed CELTA, working experience as a teacher of English as a second/international/additional language, participation in professional development or volunteer work). Current or recent working experience in an education or teaching environment is preferred. Applicants are also required to attend a meeting with the course coordinator to discuss course content and employment opportunities, submit a current CV with at least three referees, and present a 200-word statement outlining why they are interested in the course. | Teacher of migrant or Indigenous students, teacher of English abroad. |
| MASTER OF TESOL EDUCATION - EMTL DURATION: 1.5 years CAMPUS: FP vu.edu.au/courses/EMTL | This flexible course, with a commitment to social justice, sustainability and ethical action, encourages students to make links between their practice and the latest theory and research in education, locally and internationally. It is open to current and future educators. | Recognised degree of at least three years, preferably in linguistics/TESOL/education (or related disciplines); or a recognised degree of at least three years, or equivalent, plus a commitment to work in TESOL programs (examples of this commitment include: completed CELTA, working experience as a teacher of English as a second/international/additional language, participation in professional development or volunteer work). Current or recent working experience in an education or teaching environment is preferred. | Teacher of migrant or Indigenous students, teacher of English abroad. |

CAMPUSES: CQ - CITY QUEEN, FP - FOOTSCRAY PARK, SA - ST ALBANS

"The experience and expertise of VU's lecturers is a reflection of the program. We meet industry professionals and learn from real-life examples."

"The experience and expertise of VU's lecturers is a reflection of the program. We meet industry professionals and learn from real-life examples. These opportunities have helped me develop my leadership skills through regular communication with leading academics, researchers and professionals, who are proficient in their field, and have strong connections to international and local organisations and agencies.

In 2014 I received an Australian Institute of Project Management (AIPM) academic excellence award based on my academic achievement in the Master of Project Management program. This achievement gave me more encouragement and motivation for successful completion of this degree to become a high calibre and successful project manager."

NOUSHIN ISLAM
Master of Project Management

ENGINEERING AND SCIENCE

VU offers postgraduate engineering and science courses in:

- project management
- engineering
- information technology
- science.

Courses provide industry-focused technical and management specialisations with a range of durations, to fit with your existing commitments.

Our researchers collaborate with industry, business, non-profit organisations and the community, in Australia and overseas. Liaise with experts in your field and access the most up-to-date knowledge and facilities.

Partners include Engineers Australia, the CSIRO, Melbourne Water, VicRoads, Fosters, Clariant, Racing Analytical Services, Modern Olives Laboratories, the National Measurement Institute, the Bushfire and Natural Hazards CRC, and the Department of Environment, Land, Water and Planning.

ENGINEERING & SCIENCE RESEARCH EXCELLENCE

Our research is future-focused and covers a diverse range of areas including:

- applied informatics
- applied mathematics
- biotechnology
- chemical and analytical science
- energy
- telecommunications, electronics, photonics and sensors
- sustainable buildings
- fire safety and risk engineering
- water resources
- applied ecology
- engineered packaging and distribution
- structural mechanics and materials
- membrane technology
- 21st century telecommunication systems and networks.

In the 2015 Excellence in Research for Australia (ERA) ratings several areas were rated highly, including:

- the highest rating of 5 (well above world standard) in Electrical and Electronic Engineering
- a rating of 4 (above world standard) in Mathematical Sciences, Applied Mathematics, Engineering, and Mechanical Engineering
- a rating of 3 (world standard) in Artificial Intelligence and Image Processing, Distributed Computing, and Information Systems.

INSTITUTE FOR SUSTAINABILITY AND INNOVATION

The Institute for Sustainability and Innovation provides innovative and sustainable technologies for industry and the community, especially in water treatment and resource management. It also conducts research into the environment, smart and alternative energy, and packaging.

FIRE RESEARCH FACILITIES

VU's fire safety engineering program is one of only two delivered in Australia. We are the only Australian university to comprehensively teach and apply a probabilistic risk analysis approach in fire safety design.

Our Centre for Environmental Safety and Risk Engineering (CESARE) offers research and testing opportunities for applications in fire-safety engineering. Our range of fire research facilities are among the most sophisticated in Australia and include:

- a four-storey scale building model
- fire test furnaces
- cone calorimeter
- 3MW calorimeter and ISO room
- high-pressure water mist system
- firebrand generator for ember dispersion.

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|---|---|--|---|
| ENGINEERING AND PROJECT MANAGEMENT | | | |
| MASTER OF ENGINEERING - NMEN DURATION: 2 years CAMPUS: W vu.edu.au/courses/NMEN | Prepare for a specialised career in the fast-growing electrical power and telecommunications industries. This course has a strong emphasis on real-world problem-solving and international trends. You will acquire specialised skills through a combination of coursework, design exercises and research, with the opportunity to develop and implement innovative telecommunication and power distribution solutions. | Undergraduate degree in engineering, science or information technology; or the equivalent in qualifications and experience. | Positions managing, designing or developing telecommunication network systems or electrical power for a wide range of organisations, including telecommunications operators and equipment manufacturers, information technology companies, specialised test and measurement companies, microelectronic and electronic equipment design companies; installation and operations for a range of organisations. |
| MASTER OF ENGINEERING (BY RESEARCH) - ERIT DURATION: 2 years CAMPUS: FP, W vu.edu.au/courses/ERIT | Develop your knowledge and focus your practical skills on a specific research area in engineering. You will undertake research on a topic that you and your supervisor choose. You will develop your cognitive, technical and creative skills while building a body of knowledge that includes an understanding of recent developments in one or more discipline. | Undergraduate degree completed at a high standard (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD, research assistant, research technician. |
| DOCTOR OF PHILOSOPHY (ENGINEERING) - UPNE DURATION: 4 years CAMPUS: FP vu.edu.au/courses/UPNE | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or a relevant four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research-focused positions in relevant fields of study. |
| GRADUATE CERTIFICATE IN PROJECT MANAGEMENT - NTPM DURATION: 0.5 years CAMPUS: FP vu.edu.au/courses/NTPM | Equip yourself with advanced project management principles and techniques, enabling you to assume the role of project manager and become an effective member of project management teams. You can specialise in specific project management tasks across a number of sectors including engineering, business, information technology, and administration. | Undergraduate degree; or a vocational education qualification plus at least two years of work experience in project management. | Project management careers in any sector including engineering, construction, business, information technology and administration. |
| GRADUATE DIPLOMA OF PROJECT MANAGEMENT - NGPM DURATION: 1 year CAMPUS: FP vu.edu.au/courses/NGPM | Designed to meet the needs of current or potential project managers in industry, this course will equip you with specialised skills and techniques, enabling you to assume the role of project manager and become an effective project management team member. You can also focus on specific project management sectors, including engineering, business, information technology and administration. | Undergraduate degree; or Graduate Certificate in Project Management plus at least two years of work experience in project management. | Project management careers in any sector including engineering, construction, business, information technology and administration. |
| MASTER OF PROJECT MANAGEMENT - NMPM DURATION: 2 years CAMPUS: FP vu.edu.au/courses/NMPM | Designed to meet the needs of potential managers, this course will enable you to take on the role of an effective project manager. Authentic, work-based scenarios and projects, as well as opportunities for research, ensure relevance for those concurrently employed and wanting to broaden their professional expertise, or wanting to pursue higher level, applied scholarship. | Undergraduate degree; or Graduate Certificate in Project Management plus at least two years of work experience in project management. | Project management careers in any sector including engineering, construction, business, information technology and administration. |
| FIRE SAFETY ENGINEERING | | | |
| GRADUATE CERTIFICATE IN PERFORMANCE-BASED BUILDING AND FIRE CODES - ETQB DURATION: 1 year CAMPUS: W vu.edu.au/courses/ETQB | Gain an in-depth understanding of key concepts and alternative frameworks for performance-based building in fire codes. You will further your knowledge through the assessment of performance-based building design and application of fire codes, and develop an appreciation of legal, statutory and design integrity requirements, as well as the need for design compliance. | Diploma of Building Surveying, or equivalent, plus at least two years of relevant professional experience. | Relevant Building Surveyor (RBS) capable of determining compliance of an alternative building design solution. |
| MASTER OF ENGINEERING (BUILDING FIRE SAFETY AND RISK ENGINEERING) - EMQB DURATION: 2 years CAMPUS: W vu.edu.au/courses/EMQB | Develop your professional and advanced technical skills in a specialist discipline (fire science and technology) and gain market edge for yourself above your peers. You will graduate as a professional equipped to analyse and design cost-effective fire safety provisions in residential, commercial and industrial buildings. | Graduate Certificate in Performance-Based Building in Fire Codes with honours average (70%); or a four-year degree in engineering; or a three-year degree in science plus two years of relevant work experience. | Registered Building Practitioner (Fire Safety Engineer) in Victoria (additional requirement may be needed). |
| INFORMATION TECHNOLOGY | | | |
| MASTER OF APPLIED INFORMATION TECHNOLOGY - NMIT DURATION: 2 years CAMPUS: FP vu.edu.au/courses/NMIT | Boost your career prospects and become highly employable with a postgraduate qualification in IT. This flexible course provides advanced training in IT for students with an IT undergraduate qualification. Apply your knowledge and skills to real world problems and scenarios in this practical course. | Postgraduate qualification; or an undergraduate degree in information technology, computer science, computing, information systems, engineering, business, science or equivalent. | Careers in areas such as software development/engineering, networking, networking administration, IT consultancy, data warehousing, cloud computing, data mining, sensor networks, project management, IT training, IT project management and business intelligence. |

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|---|---|---|---|
| SCIENCE | | | |
| MASTER OF SCIENCE - SRNL DURATION: 2 years CAMPUS: FP vu.edu.au/courses/SRNL | This course is normally undertaken purely by research on a topic that is agreed between the student and supervisor, and endorsed through University processes. Some coursework studies may be included as recommended by the University. You will be supervised by academic staff with suitable qualifications and proven research skills in the fields of computer science or mathematics. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD or professional doctorate, research assistant, research technician. |
| MASTER OF SCIENCE (RESEARCH) - SRHC DURATION: 2 years CAMPUS: FP, SA, W vu.edu.au/courses/SRHC | Develop your knowledge and skills across various research fields, and focus your practical skills into specific research areas in health, engineering and science. This course is undertaken purely by research on a topic that is agreed between the student and supervisor, and endorsed through University processes. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD or professional doctorate, research assistant, research technician. |
| MASTER OF SCIENCE (RESEARCH) - SRLC DURATION: 2 years CAMPUS: FP, SA vu.edu.au/courses/SRLC | Enhance your knowledge across various research fields and focus your practical skills into specific research areas in health, engineering and science. This course is undertaken purely by research on a topic that is agreed between the student and supervisor, and endorsed through University processes. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD, research assistant, research technician. |
| MASTER OF SCIENCE (RESEARCH) - SRMS DURATION: 2 years CAMPUS: FP, SA, W vu.edu.au/courses/SRMS | Enhance your knowledge across various research fields and focus your practical skills on specific research areas in health, engineering and science. This course is undertaken purely by research on a topic that is agreed between the student and supervisor, and endorsed through University processes. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD or professional doctorate, research assistant, research technician. |
| DOCTOR OF PHILOSOPHY (SCIENCE) - UPNS DURATION: 4 years CAMPUS: FP, SA, W vu.edu.au/courses/UPNS | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or a relevant four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research-focused positions in relevant fields of study. |
| DOCTOR OF PHILOSOPHY (INFORMATION AND MATHEMATICAL SCIENCES) - UPNI DURATION: 4 years CAMPUS: FP vu.edu.au/courses/UPNI | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or a relevant four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research-focused positions in relevant fields of study. |

CAMPUSES: FP - FOOTSCRAY PARK, SA - ST ALBANS, W - WERRIBEE

"I chose VU because it offered a range of research areas, and a lot of practical training and field work. That really appealed to me.

One of my teachers – who is well known for her work on the effect of tourism on dolphins – had been contacted by the New Zealand Department of Conservation to conduct a similar study on fur seals. She recommended I do it for my research project.

I spent four months in the Bay of Plenty on New Zealand's North Island. I received a VU postgraduate scholarship and the New Zealand study became the basis for my masters degree."

MARY COWLING
Bachelor of Science
Master of Science

"I would definitely recommend VU, as it offers everyone a chance in a supportive and friendly environment."

"After being an at-home mother for several years, I was faced with the choice of returning to an outdated nursing career, or taking a risk to make a complete career change. I opted for the latter.

I am so glad I made the choice to return to study. It has been challenging to juggle all my roles but I hope to inspire my children to have dreams, set goals and not be discouraged by age, circumstances or adversity.

My success is a direct result of the opportunity I was given to study at Victoria University. I would definitely recommend VU as it offers everyone a chance in a supportive and friendly environment.

I hope to continue research work within the area of cancer, with the ultimate goal that the research makes a difference in someone's life."

CHARLETT GIULIANI

Bachelor of Science (Honours)
(Biomedical Science)
Doctor of Philosophy

HEALTH AND BIOMEDICINE

VU offers health and biomedicine postgraduate courses in:

- nursing
- public health
- osteopathy.

Our programs are taught by expert academic staff who are leaders in the field of health, and held in high regard around Australia and the world. You will graduate with the latest in innovative skills and knowledge, relevant to today's health industry.

You will learn in high-tech laboratories, and real-world clinical settings, giving you the practical edge.

We are proud of our strong partnerships with local and global health agencies, and research institutes, including Western Health, the Australian Spinal Research Foundation, the Baker IDI Heart and Diabetes Institute, beyondblue, the National Institute of Integrative Medicine, and Werribee Mercy Hospital.

HEALTH & BIOMEDICINE RESEARCH FOCUS

VU researchers and graduate students in health and biomedical sciences focus on exploring important issues affecting the health of individuals and the community.

They specialise in:

- molecular and nutritional physiology and pharmacology
- diabetes, cardiovascular disease, obesity and nutritional interventions
- cancer
- nerve and muscle conditions
- chronic inflammatory disorders
- paramedic and prehospital medicine
- chronic disease policy and advocacy
- public health and health promotion
- mental health and substance misuse
- nursing, and maternal and child health
- muscle and exercise metabolism
- complementary medicine
- healthier foods, sustainable production and distribution
- food security.

Our key research groups focus on world-class research and development, translating innovation in experimental medicine into positive health results for the community, particularly in Melbourne's west.

Our research is conducted in state-of-the-art facilities such as the Western Centre for Health Research and Education, an innovative teaching, training and research precinct based at Sunshine Hospital.

CENTRE FOR CHRONIC DISEASE

The Centre was established in 2013 to address the urgent need for research, action and intervention in chronic disease in Australia. Its goal is to be a world-class research centre focused on fundamental and applied research into all aspects of chronic disease. With a particular focus on Melbourne's west, it seeks to translate research discoveries into applications and therapeutic results that improve the health and wellbeing of individuals and communities.

vu.edu.au/health-biomedicine

"I chose osteopathy at VU because I believed it was the best program with the best location – central CBD.

The best part about my course was the lecturers. They had a wide range of experiences and backgrounds, which enhanced the spectrum of learning substantially. The VU student-run osteopathy clinic is also fantastic grounding for moving into private practice.

I now run two successful multidisciplinary clinics with nearly 40 staff. I have lectured throughout the world several times and Australia. I worked at the Beach

Volleyball World Championships in Holland and will be doing more consulting work overseas.

VU gave me the knowledge, experience and motivation to continue my studies and to go to the next level in my career."

PAUL HERMANN

Bachelor of Clinical Science (now Bachelor of Science [Osteopathy])
Master of Health Science (Osteopathy)

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|--|---|---|---|
| DIETETICS AND BIOLOGICAL SCIENCES | | | |
| DOCTOR OF PHILOSOPHY (FOOD SCIENCES AND TECHNOLOGY) - UPHF DURATION: 4 years CAMPUS: SA, W vu.edu.au/courses/UPHF | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or relevant four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research positions in relevant fields of study. |
| DOCTOR OF PHILOSOPHY (MEDICAL AND BIOLOGICAL SCIENCES) - UPHM DURATION: 4 years CAMPUS: SA vu.edu.au/courses/UPHM | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or relevant four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research positions in relevant fields of study. |
| NURSING, MIDWIFERY, HEALTH SERVICES, AGED CARE | | | |
| MASTER OF NURSING (BY RESEARCH) - HRNR DURATION: 2 years CAMPUS: SA vu.edu.au/courses/HRNR | If you have the ability to conduct extensive study and research in a focused area of nursing, this course will get you to where you want to be. You will work under the guidance of a qualified supervisor, but you will also be expected to demonstrate a high degree of independence while researching your specific field. | Undergraduate degree completed at a high standard (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | Research-related positions in the healthcare field and preparation for higher studies (e.g. PhD). |
| MASTER OF PUBLIC HEALTH (GLOBAL NUTRITION AND ACTIVE LIVING) - HMPG DURATION: 2 years CAMPUS: SA vu.edu.au/courses/HMPG | This course addresses the global change in public health and the need for health professionals with the capabilities to respond. It brings together nutrition and active living, and focuses on working with diverse communities. Gain specialist knowledge and skills to pursue a career in public health practice in Australia, or overseas, in emergencies or development. | Undergraduate degree in nutrition, health sciences, biosciences, community development, sports and exercise science, or a related discipline. | Roles in global health, nutrition, physical activity research and teaching; community development work in health, nutrition and food security; and delivering health, food and nutrition programs in response to emergencies. |
| DOCTOR OF PHILOSOPHY (NURSING AND MIDWIFERY) - UPHN DURATION: 4 years CAMPUS: SA vu.edu.au/courses/UPHN | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or relevant four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research positions in relevant fields of study. |
| OSTEOPATHY | | | |
| GRADUATE CERTIFICATE IN EXERCISE PRESCRIPTION FOR MANUAL THERAPY - HTEO DURATION: 1 year CAMPUS: CF vu.edu.au/courses/HTEO | Equip yourself with the skills, knowledge and attributes to prescribe exercises to patients (including elite athletes) after musculoskeletal injury, illness, surgery or as a preventative measure. This course has been designed to cover areas of exercise prescription most relevant to manual therapists. | Undergraduate degree or equivalent in a manual therapy discipline (such as osteopathy, chiropractic, physiotherapy or myotherapy), plus current employment in clinical practice. | The course will improve the ability of practitioners to provide evidence-based and personally-tailored exercise programmes for their patients; improve employment prospects in a competitive market; and act as a lead-in to potential further study and/or research. |
| MASTER OF HEALTH SCIENCE (OSTEOPATHY) - HMHO DURATION: 1.5 years CAMPUS: CF vu.edu.au/courses/HMHO | Learn to assess the health status of patients, including physical, socioeconomic and psychological aspects. You will obtain the diagnostic skills and graduate capabilities for osteopathic practice required by primary health-care practitioners. You will also have the ability to formulate and prescribe a suitable and safe treatment program. | Bachelor of Science (Osteopathy), or equivalent, plus Level 2 First Aid Certificate and current working with children check. Applicants may also be required to attend a selection interview. | Registration as an osteopath with the Osteopathy Board of Australia, in all Australian states and New Zealand. |

CAMPUSES: CF - CITY FLINDERS, SA - ST ALBANS, W - WERRIBEE

Australasian Osteopathic Accreditation Council (AOAC)

"As well as access to outstanding lecturers, I've also gained a network of young professionals, entrepreneurs and industry leaders with similar goals and values."

"Victoria University has a national reputation as a leader in migration law studies, valued for strong links to industry, and coursework that is grounded in practical and relevant learning.

Before I enrolled, I understood that VU's courses would give me the best possible preparation to continue working with refugees and migrant communities around Australia.

In 2012 I was fortunate to be recognised by the Minister for Multicultural Affairs for some of my work in this area. The migration law programs have given me the added value of understanding the legislation, policy and context that underpins my work.

VU is a community of future leaders, not just a university. As well as access to outstanding lecturers, I've also gained a network of young professionals, entrepreneurs and industry leaders with similar goals and values."

TRAVIS BROOKS-GARRETT

Professional Course in Australian Migration Law
Graduate Certificate in Australian Migration Law and Practice

LAW AND JUSTICE

Strong industry connections drive our postgraduate law programs, which we develop for the needs of government, the judiciary, legal practitioners, court staff and ancillary professions. We deliver these programs from our City Queen Campus, located in the heart of Melbourne's legal precinct.

Our postgraduate law coursework focus provides an opportunity to undertake the Graduate Certificate in Australian Migration Law and Practice, and the Master of Laws (Applied Migration Law).

You will benefit from our strong partnerships with local and global legal organisations, including through court internships, an internationally recognised moot program and community legal centres.

RESEARCH FOCUS

Our academic staff and graduate research students conduct research with industry partners to solve real-world problems.

Our research development focuses on four particular areas:

- governance and regulation
- the scholarship of legal education
- international law
- courts and justice

VU's governance research program aims to improve governance of the private and public sectors through the use of independent academic research, consultancies and postgraduate teaching.

Research degrees can be obtained by undertaking a Masters by Research or a PhD.

To find a supervisor with similar research interests to you, email law.school@vu.edu.au

vu.edu.au/research-supervision

LEARN FROM THE BEST

Some of Australia's most illustrious legal professionals impart their experience and knowledge as VU lecturers and adjunct professors. These include:

- Retired High Court Justice The Hon. Michael Kirby AC, CMG
- Australia's first female Attorney-General The Hon. Nicola Roxon
- The Hon. Justice Chris Maxwell QC
- Professor Robert Richter QC
- Criminal law specialist Robert Stary
- State Coroner Ian Gray.

Be the employer's choice

“Why have we chosen VU as the institute of choice for us? VU’s law school has a close relationship with the justice system. It was Victoria University that first commenced a program with the Magistrate’s Court, and the Magistrate’s Court is the people’s court. That’s where 90 per cent of criminal cases are resolved. The comprehensive program involves VU law students linking with magistrates and working within the court system and legal aid.

of how the justice system operates. They’ve been mentored and tutored by significant members within the profession. They can offer the profession and the justice system a greater depth and a greater understanding than students from most other institutions.”

ROBERT STARY

Principal, Stary Norton Halphen
Criminal Law Specialists
Adjunct Professor in the
College of Law and Justice

This is what VU law students have ahead of everyone else – practical placements and practical knowledge

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|---|---|--|---|
| GRADUATE CERTIFICATE IN AUSTRALIAN MIGRATION LAW AND PRACTICE - LTML DURATION: 0.5 years CAMPUS: CQ vu.edu.au/courses/LTML | Study Australian migration law with Australia’s leading migration law education provider. This popular course helps migration practitioners, accountants, lawyers and migrants transition into this growing sector, meeting the knowledge requirements for registration as a migration agent. Gain real-world experience through a face-to-face placement program, and an essential up-to-date legislative folder to assist with your VU studies and exams. | Undergraduate degree or equivalent; or demonstration of capacity to study successfully at a postgraduate level. Applicants must complete a 200-word statement detailing their interest in the course, and submit a Higher Education Direct Admission/Supplementary Information Form. | Graduates who score at least 50% on the Migration Agents Registration Authority (MARA) assessment items are recognised by the Authority as satisfying the knowledge requirement for initial registration as a migration agent. Additional requirements apply for registration. |
| GRADUATE DIPLOMA IN MIGRATION LAW - LGML DURATION: 1 year CAMPUS: CQ, industry | Gain an advanced knowledge of Australian migration law and practice. This course is designed to meet the needs of industry and enhance the career prospects for students. You will develop legal research, administrative, and professional and interpersonal communication skills, as well as ethical work practices that enhance career prospects and promote public good. | There is currently no direct entry into this course. This Graduate Diploma course is offered only as an alternative early-exit point for students enrolled in the Master of Laws (Applied Migration Law). | Registered Migration Agent with the Office of the Migration Agents Registration Authority, specialist migration lawyer, community law advisor or advocate, migration adviser within human resource companies, public servant with the Department of Immigration and Border Protection, and a range of advisory roles with community and professional organisations. |
| GRADUATE DIPLOMA IN NOTARIAL PRACTICE - BGCN DURATION: 1 year CAMPUS: CQ vu.edu.au/courses/BGCN | Gain a sound understanding of the jurisdiction and legal differences between the Australian legal system and those that place special significance on the role of the notary. This course provides a formal education in relevant legal units of study, enabling you to qualify as a public notary. | Must be engaged in practice as a notary or be seeking appointment as a public notary in Victoria or another jurisdiction. | Public notary and various other positions within the legal profession. |
|  MASTER OF LAWS (APPLIED MIGRATION LAW) - LMAM DURATION: 2 years CAMPUS: CQ vu.edu.au/courses/LMAM | Study with Australia’s leading migration law education provider. Tailored to meet the needs of practicing migration agents, legal practitioners, human resource migration specialists and professionals in government seeking to improve their skills and knowledge, this course explores topics of national and international importance across a range of complex legal issues. | Australian undergraduate honours degree or equivalent; or an Australian undergraduate degree, or equivalent, plus the equivalent of at least two years of full-time, documented, relevant professional experience. Applicants with a Graduate Certificate in Australian Migration Law and Practice are also eligible and will receive Advanced Standing. Advanced Standing may also be available to applicants who have successfully completed a Bachelor of Laws and the Graduate Diploma in Legal Practice (or equivalent); who are current Australian legal practitioners; who hold a Graduate Diploma in Legal Practice (or equivalent); or who hold an Australian undergraduate degree (or equivalent) in the cognate discipline of this course (law or migration studies). | Registered migration agent, specialist migration lawyer, community law advisor or advocate, public servant with the Department of Immigration and Border Protection, a range of advisory roles with community and professional organisations. |
| MASTER OF LAWS (BY RESEARCH) - BMLT DURATION: 2 years CAMPUS: CQ vu.edu.au/courses/BMLT | Undertake in-depth study of a legal topic and complete a major thesis worthy of publication under the supervision of an experienced member of staff. With satisfactory progress, an application for transfer to a Doctor of Philosophy may be made. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD or professional doctorate, research assistant, research technician. |
| DOCTOR OF PHILOSOPHY (LAW) - UPLL DURATION: 4 years CAMPUS: CQ vu.edu.au/courses/UPLL | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Masters degree or a four-year undergraduate degree with honours, or equivalent, at a high standard. | Academic and research-focused positions in the relevant field of study. |

The Society of Notaries
of Victoria

"The facilities, labs and technology at VU are amazing, and the people here create a great learning environment."

"In 2012, I came to Australia for a working holiday from Milan, Italy.

I met my current co-supervisor, Dr Fabio Serpiello the following year. After I started working with him as a research assistant, he suggested I apply for a PhD scholarship. I won it and am now working on my PhD at the Institute of Sport, Exercise and Active Living (ISEAL).

The facilities, labs and technology at VU are amazing, and the people here create a great learning environment. You can pretty much do whatever you want if you have good ideas.

I've always played soccer and am lucky to do a PhD on the game!"

LUCA OPPICI
Doctor of Philosophy

SPORT AND EXERCISE SCIENCE

VU is Australia's leader in sport education.

We have the largest number of sport students, and the best graduate employment outcomes in Australia, with the most graduates working in the sport industry.

Industry-leading coursework offerings include the ESSA-accredited Master of Clinical Exercise Science and Rehabilitation, cutting edge courses in sport business and integrity, and holistic sport science degrees, with residential program opportunities in Madrid, Spain.

Our staff, including our researchers in the Institute of Sport, Exercise Science and Active Living (ISEAL), are involved in research that contributes to all aspects of the sport and exercise industries.

We will enhance your studies with our research, strategic partnerships and collaborations with locally and globally-recognised industry and community organisations. Our key partners include:

- the Australian Football League
- the Australian Institute of Sport
- the Australian Sports Commission
- Shanghai University of Sport
- German Sport University
- Loughborough University
- the Melbourne Vixens
- Netball Victoria
- Universidad Europa Madrid
- the Victorian Institute of Sport
- Western Bulldogs Football Club
- Western University (Canada)
- Tennis Australia
- Sport Australia Hall of Fame.

RESEARCH EXCELLENCE

ISEAL has a rich and vibrant research culture that is internationally recognised, with its large group of academic research scholars, postdoctoral fellows, and postgraduate and honours students.

The institute conducts research in the fields of:

- sport science
- active living across the lifespan
- active living and public health
- clinical exercise science
- muscle and exercise metabolism
- sport in society.

In the 2015 Excellence in Research for Australia ratings we received the highest possible rating of 5 ('well above world standard') for Human Movement and Sports Science.

vu.edu.au/iseal

STATE-OF-THE-ART FACILITIES

Enjoy access to state-of-the-art facilities at our \$68 million sport and learning precinct, located at the Footscray Park Campus.

Here, some of the most comprehensive technology and equipment of its kind in the southern hemisphere is used by our students and researchers, professional sports teams and community organisations.

Facilities include an altitude hotel, as well as biomechanics, biochemistry and exercise physiology labs, in purpose-built research and teaching facilities.

Our \$8 million Sport and Recreation Learning Centre at Victoria University Whitten Oval – a joint initiative with the Western Bulldogs Football Club – allows students to learn alongside a range of sport and recreation professionals, and access leading-edge sport science technologies.

VU IS ELITE ATHLETE FRIENDLY

Elite athletes studying at VU have access to a range of support services to help them successfully complete their studies while training and competing at an elite level.

Our athlete support program helps students balance study with training and competition demands, and provides access to our sport and fitness, and research facilities.

VU has around 90 elite student athletes, many of whom have competed at the Olympics, Commonwealth Games, World University Games and World Championship events.

FIND OUT MORE ABOUT OUR COURSES

vu.edu.au/sport-and-exercise-science

“VU students have a leg up when it comes to making a career in the very competitive sports industry.

The facilities in VU’s College of Sport and Exercise Science are second to none and they have leading sports researchers teaching there. Students also have the opportunity to complete placements with professional organisations where they get practical hands-on experience as well as networking opportunities – opportunities that people who graduate from other universities just won’t have.

At Netball Victoria, we’re proud to have a number of VU graduates working with us – including one of our general managers and one of our senior managers. Having practical experience has helped them be very strong performers in our industry. We find that people who come through programs such as VU’s, which places a high emphasis on practical learning, are ready to work, willing to work and know how to work. They’re go-getters right from the start, and that’s the kind of person we’re looking for.”

MICHELLE PLANE
CEO, Netball Victoria, 2012-2016

| COURSE/CODE | OVERVIEW | PREREQUISITES | CAREER OUTCOMES |
|--|---|--|--|
| GRADUATE CERTIFICATE IN SPORT INTEGRITY - STSI DURATION: 0.5 years CAMPUS: CF vu.edu.au/courses/STSI | This course addresses the continuing concern about sport’s capacity to act on the positive social values it has traditionally upheld. You will learn about the threats to integrity in sport, as well as how to effectively manage them and build positive cultures, equipped with an ethical framework for interrogating the causes and consequences of these threats. | Undergraduate degree in sport that includes sport studies and/or managerial and leadership units; or undergraduate degree in business; or at least 10 years of experience as a sport professional or manager. | Community development officer, integrity officer, player relations officer, player welfare officer, player agent, stakeholder relations officer. |
| GRADUATE DIPLOMA IN SPORT BUSINESS AND INTEGRITY - SGSI DURATION: 1 year CAMPUS: CF vu.edu.au/courses/SGSI | This course addresses the dual responsibilities sport managers now have, being: to run leagues and associations, manage facilities, deliver events and administer clubs at the highest professional level; but also to grow the game, meet its social obligations, build communities and use sport’s kudos and good standing to eliminate barriers to participation and reduce social disadvantage. | Undergraduate degree in sport that includes sport studies and/or managerial and leadership units; or undergraduate degree in business; or Graduate Certificate in Sport Integrity (applicants eligible for Advanced Standing for four selected units). | Sport integrity manager, community relations manager, corporate and community partnership manager, sport development manager, sport planning manager. |
| MASTER OF SPORT AND BUSINESS INTEGRITY - SMSI DURATION: 1.5 years CAMPUS: CF vu.edu.au/courses/SMSI | Gain the skills required by contemporary sport managers, who must deal with their core obligations of delivering financially and operationally sustainable sport programs that lead to socially responsible outcomes, while also ensuring they hold the values of trust, fair play, transparency and integrity. | Undergraduate degree in sport that includes studies in management and leadership; or undergraduate degree in business; or Graduate Certificate in Sport Integrity; or Graduate Diploma in Sport Business and Integrity. | Chief executive officer of professional sporting clubs, general manager of state and national governing bodies, community development manager, player welfare manager, resource planning director, team manager, public relations and corporate affairs manager, sport venue manager, sport project manager, sport event manager, media manager. |
| GRADUATE CERTIFICATE IN SPORTS SCIENCE (FOOTBALL PERFORMANCE) - STFB DURATION: 0.5 years CAMPUS: FP vu.edu.au/courses/STFB | Get a holistic education in the areas of sports science, coaching, strength and conditioning, and management of association football (soccer). You will develop your knowledge of current issues and trends in football, sport integrity and ethics, interprofessional practice communication, and athlete monitoring. | Undergraduate degree in an area related to sport and exercise science/human movement. | Sports scientist, performance analyst, strength and conditioning coach. |
| MASTER OF SPORT SCIENCE (FOOTBALL PERFORMANCE) - SMFB DURATION: 1.5 years CAMPUS: FP vu.edu.au/courses/SMFB | Gain a holistic education in the sport sciences applied to different football codes (e.g. soccer, AFL and rugby). You will develop and further your knowledge of sports science, coaching, strength and conditioning, performance analysis, management, sport ethics and integrity, athlete monitoring, and elite sport performance. | Undergraduate degree in an area related to sport and exercise science/human movement; or a graduate certificate in an area related to sport and exercise science/human movement or sports management. | Director of sports science, high performance manager, head of strength and conditioning. |
| MASTER OF CLINICAL EXERCISE SCIENCE AND REHABILITATION - AMEP DURATION: 1.5 years CAMPUS: FP vu.edu.au/courses/AMEP  | Acquire the comprehensive knowledge, skills and experience to assess and prescribe exercise and physical activity for people with musculoskeletal injuries, as well as neurological, metabolic and cardiovascular conditions and comorbidities, in the community and clinical settings. Throughout your studies you will gain experience via clinical placement in hospitals, industry and the broader community. | ESSA-accredited exercise science or exercise physiology undergraduate degree; or completion of VU’s Bachelor of Exercise Science (Clinical Practice); or any other undergraduate degree, plus full ESSA Exercise Science membership (or eligibility to apply) and 140 hours of exercise science prescription for apparently healthy clientele; or existing ESSA accreditation as an exercise physiologist. | ESSA accreditation as an exercise physiologist upon completion, with access to a Medicare provider number and the ability to work as a registered allied health professional (e.g. clinical exercise physiologist) under the Australian Government’s Medicare health scheme. |
| MASTER OF ARTS - HRAT DURATION: 2 years CAMPUS: FP vu.edu.au/courses/HRAT | A research degree is a unique opportunity to develop new skills, problem-solving abilities, and think logically, creatively and critically. You will improve your career progression with professional skills that will make you competitive in your field and make a valuable contribution to new knowledge. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD or professional doctorate, research assistant, research technician. |
| MASTER OF APPLIED SCIENCE - HREH DURATION: 2 years CAMPUS: FP vu.edu.au/courses/HREH | A research degree is a unique opportunity to develop new skills, problem-solving abilities, and think logically, creatively and critically. Build upon the specialist knowledge you have and learn how to manage a research project. With the support of academic staff with experience in research projects, present papers to international conferences and publish academic journals and books. | Undergraduate degree at a standard considered by the University to be sufficient (normally distinction average in final year); or a relevant qualification at an appropriate standard plus professional experience. | PhD or professional doctorate, research assistant, research technician. |
| DOCTOR OF PHILOSOPHY (HUMAN MOVEMENT) - UPSH DURATION: 4 years CAMPUS: FP vu.edu.au/courses/UPSH | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or four-year undergraduate degree with honours or its equivalent at a high standard. | Academic and research-focused positions in the relevant fields of study. |
| DOCTOR OF PHILOSOPHY (SPORT AND RECREATION) - UPSS DURATION: 4 years CAMPUS: FP vu.edu.au/courses/UPSS | Conduct original research in an area of personal interest and broader significance to the University, industry and the community, with the assistance of an experienced research supervisory team. You will also learn to effectively communicate through the presentation and defence of your research in a wide variety of contexts. | Relevant masters degree; or four-year undergraduate degree with honours or its equivalent at a high standard. | Academic and research-focused positions in the relevant fields of study. |

CAMPUS: CF - CITY FLINDERS, FP - FOOTSCRAY PARK

Exercise and Sports Science Australia

"VU was the only place that offered the course that I was interested in – a combination of aged services and management – and I like its strong sense of social justice.

I couldn't have done it somewhere else. The flexible delivery of my course meant my study could adapt to my changing work situation.

Studying my course at VU helped me redirect my career and get a substantial qualification in a non-clinical field in aged care services. I took a gamble with my first job as a carer in residential aged care ... and I loved it!

I am now undertaking my PhD at VU, looking to understand how older people with depression self-manage their illness in order to optimise well-being."

MEG POLACSEK
Master of Health Science
Doctor of Philosophy

RETURNING TO STUDY?

VU has thousands of mature-age students who have returned to study. Some have never completed secondary school, some are already in the workforce, and some are returning to study after a long break.

Whatever your reason for returning to study, we offer a range of flexible course options and support services to help you achieve your goals.

You can study full-time or work while studying part-time – VU offers a range of flexible study options and support services to help you ensure you can get the most out of your course and achieve your goals.

SKILLS RECOGNITION

Advanced Standing is a form of skills recognition, acknowledging that people learn in many different ways including through formal learning, non-formal or informal learning, or a combination of each. Your skills, training and experiences can be formally assessed against the requirements of a nationally recognised qualification.

A Skills Recognition Online Tool is available for many of our qualifications, allowing you to complete the process in your own time at your pace. Visit vsro.vu.edu.au

Fees will vary depending on your chosen course, units successfully achieved and eligibility for government funding.

CHILDREN'S SERVICES FOR PARENTS

We operate multi-purpose childcare centres at our Footscray Park, Footscray Nicholson and Werribee Campuses. The centres offer day care for children (aged three months to six years) of enrolled students and staff, and are operated by qualified educators with experience in early childhood development.

If you choose to use the children's centres, you may be eligible for the Child Care Benefit, Childcare Tax rebate and fee assistance through the JET Scheme. JET Child Care fee assistance helps with the cost of approved childcare for eligible parents undertaking activities such as work, training or study as part of an activity agreement, to help them enter or re-enter the workforce.

For further information drop in to your nearest Family Assistance Office, visit humanservices.gov.au or call 13 61 50.

Footscray Nicholson Children's Centre 03 9919 8698

GLOBAL LEARNING

VU delivers courses around the world to more than 9400 international students. We send students to a wide range of exciting locations, as varied as Stockholm in Sweden to the tropics of Fiji, for credited study and life-changing experiences.

VU is well recognised as an international university that works with numerous partners, with a focus on the Asia-Pacific region. We are a leader in transnational education, with more offshore than onshore students studying VU courses.

INTERNATIONAL PARTNERSHIPS

Our global partners include corporates, educational institutions, not-for-profit organisations and community groups. These collaborations help us keep up-to-date with global markets and work practices, ensuring our curriculum and research remain at the forefront of world industry standards.

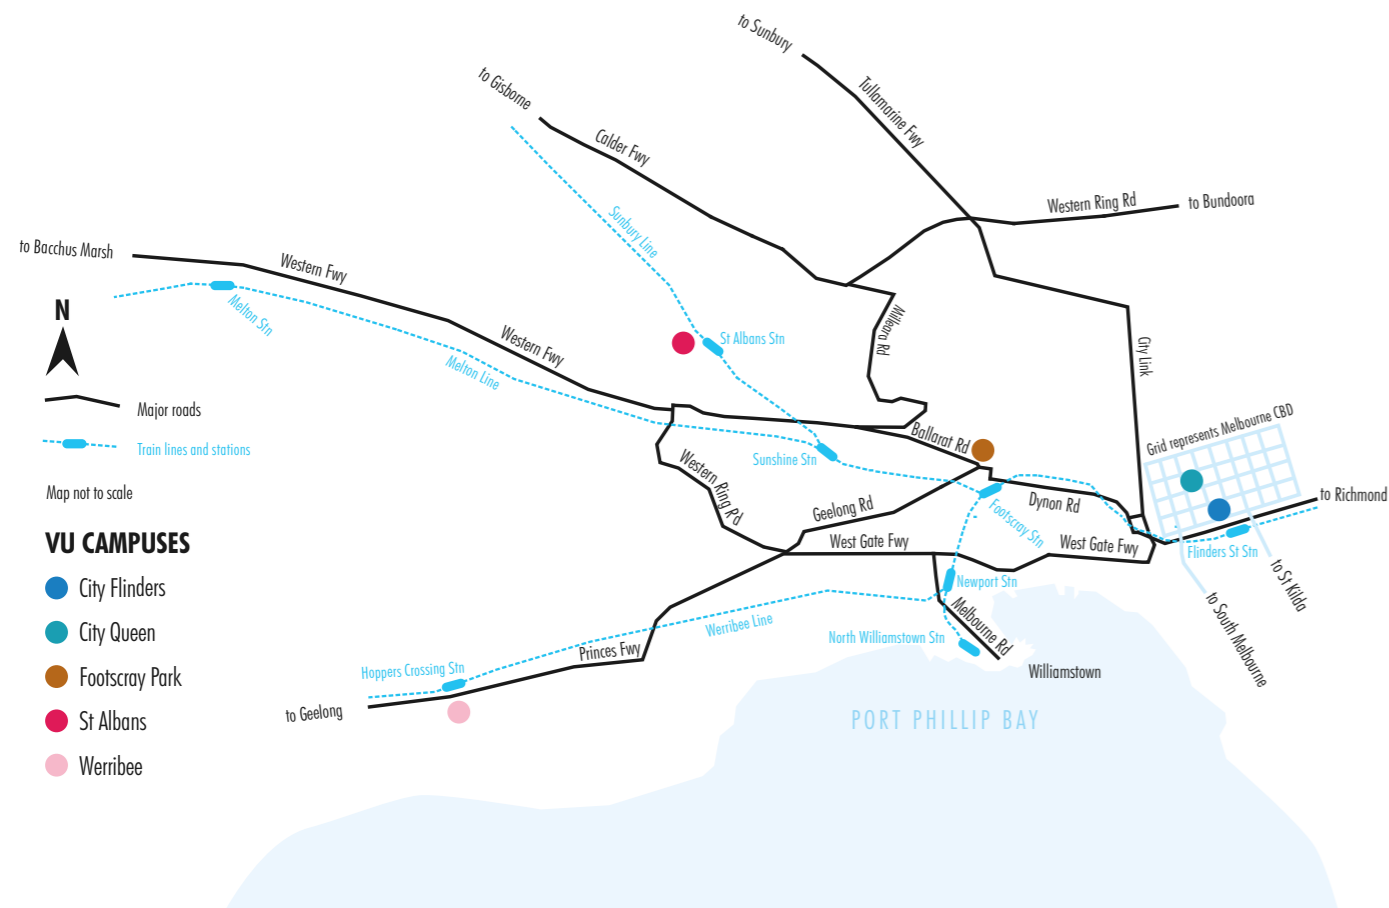

STUDY ABROAD

Immerse yourself in a different culture by completing part of your studies overseas. We have many student exchange agreements around the world, and offer study grants to help you gain a comprehensive international learning experience.

For information about overseas postgraduate study opportunities, contact VU International.

vu.edu.au/study-overseas
educationabroad@vu.edu.au
03 9919 1471

Wende Thompson, Carmen Davis, Briohny Lebbink and Holly Bennett studied an MBA together at VU, culminating with a European study exchange. The group completed the final two units of their MBA at Reims Management School, located in the Champagne Region of France.

FACILITIES

Our wide range of learning and teaching facilities help you get the most from your course. You'll also enjoy access to great fitness centres and food outlets when you want a break.

CAMPUSES

VU has a number of campuses in Melbourne's CBD and across the western suburbs, and one in Sydney for international students. Postgraduate studies are delivered through the following five campuses. All are easily accessed by public transport.

CITY FLINDERS

Our City Flinders Campus is located conveniently in Melbourne's business district, opposite Flinders Street train station. Many of our postgraduate business and arts courses are taught here during the day, as well as in the evening to help our students balance work, or other commitments, with their studies.

CITY QUEEN

Our law courses are taught from the City Queen Campus, located in the heart of Melbourne's legal precinct. The campus includes two heritage-listed buildings and has two moot courts, as well as computer labs, the Law Library, lecture theatres and seminar rooms.

FOOTSCRAY PARK

Footscray Park Campus is our largest campus and the western region's hub for university education. It's a 10-minute train ride, plus a short walk, from the city. Students have access to our world-class sport and learning precinct, featuring state-of-the-art research labs, and an impressive learning commons that combines library resources with academic support, career advice and more.

ST ALBANS

St Albans Campus is a hub for health and nutrition research. Nearby is the \$50 million Western Centre for Health Education and Research, a world-class biomedical research and training facility, of which VU is a key partner. The campus has a modern community feel and is set in a landscape of native grasses and gum trees. It's a relaxed, friendly place to study, with childcare facilities and a great gym. There's plenty of car parking if you choose to drive, or it's a five-minute walk from the train station.

WERRIBEE

Located in the fastest growing area of Melbourne, our Werribee Campus is part of a modern technology precinct. A hub for new and innovative research into water and food, the campus is small enough to be personal but large enough to offer great facilities like childcare and a gym. The campus has plenty of parking and is close to the train station.

FIND OUT MORE

For more information on our campuses, visit vu.edu.au/campuses

Take a virtual tour of some of our campuses at www.youtube.com/user/VictoriaUniversity

FOOTSCRAY UNIVERSITY TOWN

In partnership with Maribyrnong Council, VU is leading a project to rejuvenate Footscray and open the west of Melbourne. The Footscray University Town project will transform Melbourne's west through the revitalisation of local educational facilities and businesses.

With almost 20,000 students studying at our two Footscray campuses, the project will see the seamless integration of the University within the fabric of Footscray through a range of academic, social, community and retail facilities, as well as student accommodation.

An initial part of the project has been the establishment of VU at MetroWest, a VU facility with facilities including Co-op Bookshop, café, Future Students Centre, Psychology Clinic, Student-led Communication Agency, a versatile exhibition space and meeting room (free to book).

footscrayunitown.com.au

LIBRARY

VU's campus libraries are known as 'learning commons' – integrated hubs that offer career advice, learning and IT support, and academic resources, all in a relaxed, lounge-like setting. Each campus learning commons provides students with access to photocopying, computing and printing facilities, electronic and print resources, and a comprehensive information skills training program.

vu.edu.au/library

COMPUTER FACILITIES

We have more than 4000 computers across our campuses, and computer access in all campus libraries. PCs and Apple Macs are provided in teaching laboratories and open-access facilities. A central IT help desk is available to answer all your queries and provide assistance.

You will also have access to a rich collection of online resources, 24 hours a day, seven days a week. These include databases or material housed within the library, student email, e-learning content for courses, student software packages and innovative social networking tools.

FOOD & CAFÉS

All VU campuses offer a range of food for students, staff and the wider community. We strive to cater for your dietary requirements, including vegan, vegetarian and halal options. Many of our campuses have their own cafes or restaurants. Some locations, such as the Footscray and city campuses, are situated in vibrant food hubs.

SPORT & FITNESS

One of the benefits for all students attending Australia's leading sports university is access to our extensive sport services and facilities, including:

- sports clubs, campus sports programs and representative sport opportunities
- quality fitness centres at Footscray Park and Werribee Campuses
- a multi-purpose sports hall at St Albans Campus
- a heated 25-metre swimming pool at Footscray Park Campus
- a first-class athletics track and rugby field at Werribee Campus
- multi-purpose sports halls at Footscray Park and Footscray Nicholson Campuses
- tennis courts at Werribee, Footscray Park and St Albans Campuses.

vu.edu.au/sport

CLINICAL & SIMULATED LEARNING

Demonstrating our commitment to workplace learning, not only do we bring you to the real world, we bring the real world to the classroom. Our learning facilities include:

- nursing laboratories and paramedic clinical placement
- working design and art studios
- a dermal clinic
- an osteopathy clinic
- beauty and hair clinics.

CLASSROOMS OF THE FUTURE

Our classrooms are being transformed into creative and technologically-rich environments.

The multi-platform learning space at Footscray Nicholson Campus – known as the Terrain Room – is one of a growing number of VU's rejuvenated physical spaces that have transformed classrooms, libraries and lecture theatres into creative learning and teaching environments.

SPORT & EXERCISE SCIENCE LABORATORIES AND RESEARCH FACILITIES

Our \$68 million high-technology Institute of Sport, Exercise and Active Living (ISEAL) research facility at Footscray Park Campus meets international standards for best practice. It is designed with multiple integrated spaces to facilitate interdisciplinary teaching, research and engagement. All our research is supported by the latest technologies and equipment, including:

- exercise physiology laboratories
- altitude hotel
- biomechanics laboratories
- motor learning and skilled performance laboratories
- sport and exercise biochemistry laboratory
- motor control and biofeedback laboratories.

Find out more about our world-class sport and exercise science facilities at vu.edu.au/iseal

SUPPORT SERVICES

We want you to achieve your best during your time with us. Whether you need assistance with your studies, career advice or personal counselling, we're here to help.

STUDENT SERVICE CENTRES

Student Service Centres provide face-to-face customer service to help you access services, advice and information in an easy and convenient way. They can help you with general enquiries and refer you to specific services.

This service is also available to prospective students looking for information on courses, enrolments, fees and general administration. Each campus has a Student Service Centre.

vu.edu.au/service-centres
1300 VIC UNI (1300 842 864)

LEARNING SUPPORT

Our Academic Support and Development team can help you improve your studying, writing and maths skills. They offer workshops during semester and university preparation programs between semesters. They also provide individual consultations, email support, student mentor support and online learning resources.

vu.edu.au/academic-support
studentlearning@vu.edu.au
03 9919 4744

FINANCIAL ADVICE

We offer free financial advice from professional, trained staff on study-related and living costs. Information about tax, government assistance, debt, household expenses, budgeting, financial planning and student loans is also available.

vu.edu.au/financial-advice

DISABILITY SUPPORT

Disability Services provides advice and assistance for students with a disability and/or medical condition. These can be permanent, long-term or episodic conditions.

Students are invited to attend a one-on-one meeting with a disability liaison officer, and will be assessed on an individual basis for appropriate support services and accommodation to their course requirements. These may include (but are not limited to) alternative assessment arrangements, specialised equipment or assistive technology.

vu.edu.au/disability
disability@vu.edu.au
03 9919 5400

CHILDCARE

The University's children's centres at Footscray Park, Footscray Nicholson and Werribee Campuses provide full-time weekly and daily care for children from three months to six years of age. A community-run service operates from our St Albans Campus.

vu.edu.au/childcare

ADVICE & COUNSELLING

Our Counselling Services team offers free and confidential counselling to students. They can assist you through study-related matters such as overcoming procrastination and exam stress, or personal issues such as improving confidence, concerns over wellbeing, relationships, anxiety, depression, sexuality, drugs or alcohol. Every semester they also offers free workshops on a range of areas including skills for succeeding at university, time management, emotional intelligence and stress management.

vu.edu.au/counselling

ABORIGINAL & TORRES STRAIT ISLANDER STUDENTS

VU recognises and gives respect to the Ancestors and Elders of the Kulin people, particularly the Boonwurrung and Woio-wurrung, as traditional owners of University land. Our Moondani Balluk Indigenous Academic Unit can assist with any query you may have as an Aboriginal or Torres Strait Islander student. This includes access to computer labs, accommodation, enrolment and admissions, financial assistance, Koori community events, referrals to service delivery organisations, study skill and assessment support, and transport.

Moondani Balluk provides a culturally safe space for all Aboriginal and Torres Strait Islander students. Please feel free to drop in and meet other students and staff, or give us a call.

vu.edu.au/indigenous
moondani.balluk@vu.edu.au
03 9919 2836

HEALTH & MEDICAL ADVICE

Our health adviser can provide advice, information and referrals about:

- general health
- lifestyle
- women's and men's health
- nutrition
- chronic illness
- family planning and sexual health
- injury assistance
- other health matters.

vu.edu.au/health-welfare
healthadvice@vu.edu.au

CAREER ASSISTANCE

Our Career Development and Employment team provide resources and support to help you prepare for work, find a job and keep you moving on and up. No matter what you're studying, we offer advice and assistance on:

- your skills, interests and career direction
- job search and employer trends
- your career goals and strategies to achieve them.

Services include:

- web-based jobs board
- resume and application feedback
- workshops and programs to prepare you for the job market
- mock interviews
- career counselling
- employers on campus.
