

SUPER EASY SUPERANNUATION

For all Australian workers
- super will matter for living the retirement lifestyle you want

But many of us find it complicated & hard to navigate

and don't engage

Two thirds of us have super contributions going into a fund that we didn't choose ourselves ...

... or in other words, a default product

Our draft report explores ways to ...

1

simplify super choice

2

improve default products

3

prevent multiple accounts

To do this we have developed four new possible models

1 model

where an employer picks a better default product for you

with 2 handy lists to guide them

2 models

where funds compete in an auction or tender

1 model

where new comers to super make their own choice,

with a handy shortlist to guide them

WE WANT TO HEAR FROM YOU,

and what you want from your
DEFAULT SUPER
