

# SOS: Save our Solar!

**Premier Brumby: Solar leader or solar faker?**

**The Victorian Government is about to make a decision critical to the future of solar energy. We need to TAKE URGENT ACTION NOW to ensure Victoria's solar future.**

**Join us** from 8.30am-9.30am sharp on the steps of Parliament House this coming Thursday 8<sup>th</sup> May to tell Premier John Brumby and the Victorian Government that we want a REAL Feed-In Tariff for Victoria's solar future.

We need your help to get at least 200 people along, so bring your friends, bring your placards and let the Politicians know what we want.

As the first test of the Brumby government since the Premier's Climate Summit, let's make sure we see real commitment, not more hot air.

Please note: The rally will take place whether or not there has already been an announcement from the Government.

**Where:** Steps of Parliament House, top of Bourke St

**When:** 8.30am-9.30am, Thursday 8th May 2008

**Who:** Anyone who loves solar power or hates climate change

**More information:** Victoria McKenzie-McHarg at Environment Victoria: 03 9341 8112
