As Salaam Alaikum,

Most of you are at different stages of being aware of the present conditions regarding Brother Bilal Sunni-Ali. He underwent surgery on December 1, 2006. The procedure required the surgeon to physically hold onto his spinal column while simultaneously removing an amount of excess calcium from the spine with the use of a drill. The procedure was successful resulting in the removal of the matter which had begun pressing on Bilal's esophagus making it impossible for him to swallow. Additionally, his blood pressure had been out of control.

He is now in recovery and rejuvenation. His recovery requires lots of time being still, quiet and staying away from monitoring such devices as telephones, especially cell phones and computers. It even requires limited application of the flute, the saxophone, and discussing issues dear to his heart and spirit such as the internally displaced person as he result of hurricanes Katrina and Rita.

Bro. Bilal cannot do the work on PP&POW'S that has always been very important to him

We are asking people to help support Bro. Bilal and his family. Due to the hospitalization and the need for recovery, the family has to meet many expenses. There is a need for financial assistance since Bro. Bilal won't be able to work for some time. We are asking people to contribute to help with support at this time. We are also asking for your prayers and well wishes.

We would like you to also be aware that Sis. Fulani Sunni-Ali, Bilal's wife who is still rejuvenating from her illness, has been by Bro. Bilal's side and carrying for him. Of course, her blood pressure did rise during Bilal's initial illness, surgery and recovery/rejuvenation. Her pressure has lowered as well as Bro. Bilal's and Sis. Fulani is back under doctor's care.

The Sunni-Ali family is thankful for the prayers and well wishes they have received. And they are humbly appreciative for all those who sat with Bro. Bilal and have and continue to help.
