Mid-Year Financial Statement Recap - Actual vs. Plan

Revenue is over plan year-to-date due to a strategy change in order to prepare for future challenges from the traffic decline. Expenses were less than plan primarily due to lower salaries/benefits/recruiting costs due late in hiring on new positions or rehiring for staff turnovers, grant expenses, professional service expenses, travel expenses, internet hosting expenses, and timing of technology capital expenditures.

Notes:

- (a) Due to changing readership, Fundraising intentionally exceeded our goal during the period from July - December 2014 in order to prepare for future challenges.
- (b) Includes interest and dividend income offset by realized loss on investments. This cannot be reasonably budgeted due to the uncertainty in the market environments.
- (c) The online merchandise store has not been operating at the level of activity as anticipated.
- (d) Recruiting expenses are lower than plan due to late in hiring on new positions.
- (e) Due to timing of submission for Project&Event Grants and Individual Engagement Grants. Also, Partnership Grants did not commence as planned.
- (f) Due to lower engagement for outside professional services as the needs have not been required.
- (g) Payment processing fee is higher as a result of higher donations processed.
- (h) Other operating expenses are lower primarily due to lower legal fees and servers service contracts/warranty.
- (i) Capital expenditures are lower due to timing as spending will catch up during the second half of the fiscal year.
- (j) Lower than planned due to sponsorship fee and event registration fee that were not budgeted.
- (k) Lower travel expenses attributed to both less travels than planned as well as savings due to effective events coordination (e.g. arranging team meetings around other Foundation wide events to reduce the costs for air travels).
- (l) Represents a grant that is restricted to future periods.

Year Over Year Recap

WMF has continued to raise revenue to support its expanding work per the strategic plan. Expenses have increased in concurrence with the initiatives of the strategic plan.

Notes:

- (a) The online fundraiser revenue continues to increase significantly comparing to prior year for the same period. Due to changing readership, Fundraising intentionally raised more money than planned during the period from July - December 2014 in order to prepare for future challenges. The amount noted does not include the revenue raised by the participating chapters.
- (b) Includes foreign exchange gains or losses, interest income and misc. income. Foreign exchange gains and losses are a direct result of the economy.
- (c) Due to the discontinuance of the licensing and live-feed data services relationship with 3rd parties.
- (d) Salaries and wages increased due to growth in staff as well as annual adjustment in compensation for existing staff.
- (e) Recruiting expenses are lower than prior year for the same period due to a majority of our recruiting is done in-house by our recruiting team.
- (f) Due to the closure of our Tampa data center and lower rate was negotiated for the new data center in Carrollton, TX.
- (g) Grants are lower than prior year primarily due to timing.
- (h) Facilities expense was higher in prior year due to the build out/improvement of our office space.
- (i) Due to the conversion of some of the contractors to full time staff during the current year.
- (j) Staff and volunteer development expenses are lower due to the timing of the events.
- (k) Higher payment processing fee compared to the same period in prior year is a direct result of higher donation revenue.
- (l) Other operating expenses are higher due to legal fees incurred per Plan and higher insurance expenses as a result of coverage increase.
- (m) Capital Expenditures associate with servers purchases for the data centers. Spending in prior year was lower due to the planning of closing down the Tampa data center.
- (n) The expenses are higher in the current year, now that the Foundation is directly managing and incurring them. Whereas in prior year, a portion of the event expenses were provided to the local chapter as a grant, thus it was included in grant expenses. These amounts do not include Wikimania scholarships or WMF staff's travel and lodging expenses.
- (o) Travel has increased primarily due to increase in staff size.
- (p) Represents a grant that is restricted to future periods.
