PUBLIC SERVICE workers continue to face the most serious and sustained attack ever on jobs, pay, pensions and conditions of service.

To date our union's response has been utterly inadequate.

We recognise the need for and will work our hardest to build for coordinated industrial action across branches, service groups and unions against the austerity agenda, no matter which party seeks to implement it.

We support having a real member led union - giving a lead to those branches and members wanting to take action, not capitulating at the first opportunity.

**Voting  
is from  
7 April -  
15 May**

## We say

- Smash the pay freeze
- Defend the NHS - cancel the PFI debt
- For a real fighting union leadership
- Hands off the welfare state - no to public service cuts
- Only support politicians who back action against cuts and privatisation
- Bring all privatised services back in house
- Say no to racism, fascism and Islamophobia
- Defend women's rights
