# 5 Dropped Features

> N/A

# 6 Fixed Issues

> Some system messages did show an invalid character

# 7 Known Issues and Limitations

## 7.1 Known Issues

> When opening a huge number (75 and more) of detail windows for running tickers, the application may crash.

> When logged in for a long period while constantly adding games, the memory usage will grow and the reaction of the graphical user interface may slow down. A restart or re-login is recommended in that case.

## 7.2 Limitations

> N/A
