

## 12 Sharing and Learning on Community Based Disaster Management in Asia

### WHAT ARE THE MAIN ISSUES

- Disaster management capacity of Asian countries needs to be enhanced to increase resilience and reduce disaster losses
- Lack of exchange among Asian countries in Community-based Disaster Risk Reduction (CBDRR)

### POSSIBLE SOLUTIONS

- Strengthening the regional cooperation and building a stronger global network for disaster-prone countries in Asia
- Enhancing community resilience through pilot community peer-learning initiatives on community based disaster management
- Establishing research network and facilitate collaborative researches with the aim to promote the exchange and application of knowledge and learning in CBDRR
- Setting up disaster information platform to increase community disaster preparedness capacity

### HOW CAN UNDP HELP

- Facilitating exchanges among the disaster management practitioners at different levels in the partner countries through UNDP network
- As Programme Management Unit (PMU), ensuring the needs of each country and stakeholder are fully understood and reflected
- Emphasizing the need for collaborative activities among the partner countries, especially the participation of community people
- Contributing UNDP's expertise and knowledge on CBDRR
- Linking the programme activities with SDG and Sendai Framework

### UNDP PAST EXPERIENCE AND SUCCESSFUL CASES

- Promoting Integrated Disaster Risk Reduction and Climate Change Adaptation in Central Asia
- Strengthening Disaster Management Capacity of Selected African Countries through South-South Cooperation with China

## 12 亚洲社区灾害管理的学习和分享

### 主要问题

- 许多亚洲国家的灾害管理能力需要提升，以提高其灾害抵抗力及减少受灾的损失
- 许多亚洲国家间缺少关于社区灾害风险降低（Community-based Disaster Risk Reduction, CBDRR）的交流

### 可行措施

- 强化地区合作并为亚洲易受灾国家建立一个更强的国际合作网络
- 通过试点社区的同伴学习来提供社区灾害管理的主动性，继而增强社区（灾害）抵抗能力
- 创建研究用交流网络并促进协同研究以推进CBDRR知识和学习的交流及应用
- 建立灾害信息平台以增加社区的灾害预备能力

### UNDP如何帮助

- 利用UNDP网络促进伙伴国家中灾害管理实践者的多层次交流
- 作为项目管理单位（Programme Management Unit, PMU），确保每个国家和利益相关者的需求都被完全理解和反映
- 突出在伙伴国家之前进行协作活动的需求，同时特别注重在活动中社区群众的参与
- 为社区灾害风险降低（CBDRR）提供UNDP的实践经验和知识
- 连接规划中的活动至可持续发展目标（Sustainable Development Goals, SDGs）和仙台减少灾害风险框架

### UNDP的过往经验和成功案例

- 在中亚地区开展促进灾害风险减少整合及气候变化适应项目
- 与中国合作进行的针对部分非洲国家强化灾害管理能力南南合作项目
