USE COLOUR TO SET THE MOOD...
When you're planning your next conference or meeting, consider how your colour scheme might affect your delegates. So which colours are best? White is best for inspiration, blue is best for productivity and orange is best for motivation.

BIGGER IS NOT ALWAYS BETTER

When it comes to choosing the ideal venue for your event, size really does matter. Too large a space may leave your event feeling sparse and cold while too small a venue may cause issues with serving and AV logistics. Include all theming and AV requirements at the outset to allow the event specialist to gauge space required.
