MASS BLOCKADE at North Ltd, 476 St Kilda Rd
Monday March 29 to Thursday April 1

Photo of the Jabiluka blockade, NT, July 1998

- North is the parent company of Energy Resources Australia, the company mining at Jabiluka despite the clear opposition of the Mirrar Aboriginal people and 67% of people in Australia
- In the middle of April the Federal Government will tell the World Heritage Bureau that Kakadu National Park should not be listed as 'in danger' despite the impact of the Jabiluka mine
- The last week in March marks a year since a mass protest blockade was launched at Jabiluka in the week leading up to Easter, join the 24 hour a day picket at North Ltd. Show North and the Government that if they don't stop the mine, then we can stop their business as usual.
