France's first-ever unlimited 4G plan. Obviously only at Free!

Yet another awesome offer from Free! This time, it's **unlimited 4G** for the first time ever in France, as Free continues to revolutionize the mobile telephony market.

As of today, the Free Mobile Plan (€15.99/month for Freebox subscribers) includes **unlimited 4G mobile Internet access** as well as unlimited calls, texts and MMS in Metropolitan France. And it still includes roaming from more than 35 countries all year round.

This is the first time worldwide that an operator is offering unlimited 4G mobile Internet at such an attractive price. Free definitively liberates the French consumers! They don't need to count any more as it's unlimited!

And for Free Mobile Plan subscribers that don't yet have a Freebox subscription, Free has bumped up the 4G fair use allowance to 100 GB/month, at no extra cost (€19.99/month) and still with no commitment.

Thanks to the **quality of its network**, Free has offered the best **4G download speed*** for over a year now, based on nPerf surveys.

Free's **4G network** currently covers close to **80% of the French population**.

Those evolutions apply automatically as of today for both existing and new Free Mobile Plan subscribers.

About Free

Free – an Iliad Group subsidiary – is the inventor of the Freebox, the first multiservice box on ADSL. Free is behind numerous innovations in the Broadband and Ultra-Fast Broadband access segment (VoIP, IPTV, flat-rate calling plans to multiple destinations, etc.). Free provides straightforward and innovative offerings at the best prices. For example, the Freebox Revolution, the 6th generation of Freebox units, notably includes an NAS and a Blu-Ray™ drive, and the Freebox mini 4K was the first Android TV™ and 4K box on the French market. Free was the first operator to include calls from landlines to mobile phones in its offerings and also calls to French overseas departments (DOM). Since January 2012, Free has brought mobile phone usage within everyone's reach with straightforward, no-commitment offerings at very attractive prices. The Free Mobile Plan now includes roaming communications, all year round, in all countries in the Europe Zone as well as in the United States, Australia, South Africa, Canada, Israel and New Zealand (3G). As at December 31, 2016, Free had over 19 million subscribers (6.4 million Broadband and Ultra-Fast Broadband subscribers and 12.7 million mobile subscribers).
