## Montana Statewide Water and Wastewater Rate Study 2016

**Introduction:** In the past, the Montana Department of Commerce conducted periodic Montana community rate surveys. The four most recent were conducted in 2014, 2003, 1999 and 1996. The Montana Department of Natural Resources and Conservation (DNRC) contracted previously with Rural Community Assistance Corporation (RCAC) to conduct the 2014 rate study and increased the scope to address additional public systems throughout the state. DNRC staff conducted the 2016 rate study. All told, 229 systems were identified and contacted.

The study provided an up-to-date, comparative account of what rate payers across the state are paying monthly for water and wastewater services, and it includes a number of other complimentary and relevant data points. The results analyses are presented as monthly dollar amount cost and as an annual cost ratio of the Median Household Income (MHI) for that area for optimum stakeholder use. The overall average from all communities surveyed is considered the “target rate” and is typically used in the uniform grant application process when communities apply for infrastructure project funding. The current target rates for Montana are 1.4 percent for water only, 0.9 percent for wastewater only and 2.3 percent combined.

This report explains the methodology used to collect the survey data and presents the results of the study.

**Scope of Services:** In Summer 2015, the DNRC started updating the previous rate study information by:  
Surveying local municipalities and public utility districts to determine existing monthly water and wastewater user rates, as well as other pertinent system information.

**Methodology:** Based on the survey and datasheet the DNRC previously used, which outlined the information desired, DNRC staff further developed the datasheet and developed more detailed survey questions to discuss with 229 municipalities and independent water and wastewater districts across Montana. The final survey questions can be found in Appendix A. DNRC created a contact list of entities based on the following:

- Montana Public Water and Sewer Operations and Maintenance List;
- Montana Department of Environmental Quality’s Water and Sewer District List; and
- Montana League of Cities and Towns’ Directory of Montana Municipal Officials.

DNRC’s list also includes population size based on the 2010 U.S. Census and contact information for each utility district/community. The list changed over the course of the study as more updated contact information and system details came to light.

DNRC contacted all 229 systems at least twice (forms of communication included preliminary introduction letters, phone calls and e-mails when applicable). DNRC received responses from 207 water and/or wastewater systems, which resulted in a 90 percent response rate across the state.

**Results:** The following tables represent only the data that was robust enough to be compared across the state based on the 10,000 gallons of water usage and the 6,000 of wastewater usage—not every utility answered every question to the fullest extent (172 water systems and 181 wastewater systems are analyzed below).

Table 1 is a summary of the results from the water and wastewater systems that fully participated and had representative data. The table divides the communities into three population size categories, which matches those listed in the methodology. The monthly average in dollars is listed as well as the ratio of the annual amount of fees compared to the MHI

Table 1: Summary of 2016 Water and Wastewater Survey Results

Population	Monthly Water Average (\$)	Water Average (% of MHI)	Monthly Wastewater Average (\$)	Wastewater Average (% of MHI)
>7,500	\$34.59	1.00%	\$29.92	0.80%
500-7,500	\$41.46	1.40%	\$39.31	1.30%
<500	\$49.98	1.50%	\$26.27	0.90%
Overall Average	\$45.90	1.50%	\$33.05	1.10%

According to these results, system size and population served for water systems correlates to monthly fees and the ratio of annual fees to the local MHI. The average monthly water bills for systems in locations with populations > 7,500 are the lowest: \$34.59 or 1.0 percent of the annual MHI; systems with population sizes between 500-7,500 people have an average monthly bill of \$41.46 or 1.4 percent of the MHI and the smallest communities, with populations < 500, pay the highest average bills per month at \$49.98 or 1.5 percent of the MHI. The current target rate for water charges is 1.4 percent so large and medium-sized communities are paying under the target rate; small communities are paying more; and the overall statewide average (1.5 percent) is above the stated target rate.

The average monthly wastewater bills for systems in locations with populations > 7,500 are paying rates currently in the middle: \$29.92 or 0.8 percent of the annual MHI; systems with population sizes between 500-7,500 people pay the highest average monthly bill of \$39.31 or 1.3 percent of the MHI and the smallest communities, with populations < 500, pay the statewide target of 0.9 percent and the least (a monthly average of \$26.27).

Table 2 represents a comparison of the 2016 results with 2014, 2003, 1999 and 1996. The comparison contains only the ratio of annual fees compared to the MHI because that was the only comparison made in the 2014 and 2003 report. Monthly dollar amount averages data was not available for the other studies.

Table 2: Comparison of 2016 survey results to 2014, 2003, 1999 and 1996  
Water and Wastewater Survey Results

Population	Average Water System Ratio %					Average Wastewater System Ratio %				
	2016	2014	2003	1999	1996	2016	2014	2003	1999	1996
>7,500	1.00%	1.10%	1.20%	1.40%	1.30%	0.80%	0.80%	0.60%	0.80%	0.80%
500-7,500	1.40%	1.30%	1.60%	1.90%	1.50%	1.30%	1.10%	1.10%	1.30%	0.90%
<500	1.60%	1.70%	1.50%	2.30%	1.40%	0.90%	0.90%	1.00%	1.70%	1.00%
Overall Average	1.50%	1.50%	1.40%	1.90%	1.40%	1.10%	0.90%	0.90%	1.30%	0.90%

According to these results the average annual water rate, in comparison to the MHI, has gone down in communities over 7,500 people and for communities less than 500 people; and the average annual water rate has gone up for communities between 500 and 7,500, resulting in an overall average increase of 0.1 percent from 2003 to 2016.

The water ratio for communities over 7,500 decreased from 2014 to 2016 to 1.00%; communities between 500 and 7,500 increased by 0.1 percent from 2014 to 2016; and communities under 500 decrease to 1.6 percent.

In 1996, 2003, 2014 and 2016, the overall average was between 1.4-1.5 percent, with an outlying spike of 1.9 percent in 1999. Similarly, the overall wastewater rate average has consistently been between 0.9-1.1 percent except for a 1.3 percent spike in 1999.

The wastewater ratio for communities over 7,500 stayed the same from 2014 to 2016; communities between 500 and 7,500 increased to 1.3 percent; and communities under 500 stayed at 0.90 percent.

**Water System Data** Tables 3a-e shows the comparable responses collected from water systems pertaining to water rates; and 229 water systems are represented below. The tables include system name; system type (M=municipality, D=district and P=private); population according to the 2010 census; MHI; monthly bill based on 10,000 gallons of usage; ratio of annual water rate to MHI; a monthly rate charge explanation; and the date the most recent improvement project was completed. The table is split into three sections (a, b, c by population size category) and is sorted in descending order of population size.

Table 3d shows the responses sorted by City name and Table 3e shows the responses sorted by County.

Table 3a: Water system data in communities with a population >7,500

	System Name	System Type	Population	MHI	Monthly bill based on 10,000 gallons used	Ratio of annual rate/MHI	Monthly rate explanation	Most recent improvement project completion
1	BELGRADE CITY OF	M	7,798	\$ 38,343	\$25.04	0.8%	Water: \$18.19 for 5,000 gallons and \$1.37/1,000; Sewer: \$24.93 base for 5,000 gallons and \$1.97/1,000	2013
2	BILLINGS CITY OF	M	108,869	\$ 48,908	\$28.73	0.7%	Water: 0-14ccf: \$2.21/unitccf; 15-43ccf: \$2.65/unit; 44-100ccf: \$3.45; >100ccf: \$5.18/unit; Sewer: \$2.75/CCF	2007
3	BOZEMAN CITY OF	M	32,000	\$ 44,412	\$48.94	1.3%	Water: 5/8 line is \$15.02 (base goes up based on line size), \$2.44/1 HCF of usage for 0-8 HCF, 8-15 is \$2.62/HCF and 15+ is \$3.10/HCF. Sewer: \$17.05 base and \$2.82 per HCF	2013
4	BUTTE SILVERBOW WATER DEPT	M	33,000	\$ 40,485	\$49.24	1.5%	\$26.84 for first 4,000 gallons of usage; flat rate is based on number of rooms in the house and number of bathrooms--the average is about \$46. Over the 4,000 gallons, residents are charged for CCF's by the hundred (and there is an incremental charge for each degree of usage)	Ongoing (every season a new section of the system is selected for upgrade based on merit/need). They also have grant funds from EPA NRD (Natural Resource Damages) to improve the water treatment plant)
5	CO WATER DIST OF BILLINGS HEIGHTS	D	12,000	\$ 44,375	Base + \$21.64	N/A	Based on the size of the meter	N/A
6	GREAT FALLS CITY OF	M	59,351	\$ 42,832	\$21.24	0.6%	\$1.21 for first 300cf and \$2.03 after base	N/A
7	HAVRE CITY OF	M	9,800	\$ 46,132	N/A	N/A	N/A	2003
8	HELENA WATER SYSTEM	M	31,005	\$ 35,310	\$48.65 winter; \$47.60 summer	N/A	\$32.90 Base with \$2.25/1000 winter; \$32.90 Base \$2.10/1000 summer	2013
9	KALISPELL PUBLIC WORKS	M	21800 (2015)	\$ 46,581	\$32.60	1.0%	Water: \$7.50 base plus \$2.43/1,000 gallons of usage. 3/4" lines also have a monthly meter replacement charge of \$0.80. Sewer: \$7.50 base and \$4.78/1,000 gallons of usage	Summer 2015
10	MILES CITY CITY OF	M	8,800	\$ 39,787	\$47.31	1.4%	Water: 5/8" meter-\$20.75 - s/g meter \$3.25/1,000 gal over base 3,000	2013
11	MOUNTAIN WATER COMPANY (Missoula)	P	56,335	\$ 42,321	\$44.08	1.2%	5/8" line: \$17.30 and \$2.003 per ccf of usage (typical line size for residential). Flat rate is \$51.54	Ongoing (ongoing main replacement, new water tank built in 2013)
12	WEST YELLOWSTONE TOWN OF	M	8,535	\$ 39,141	\$14.15	0.4%	\$10.15/VRU as a base and \$4.40/1,000 gallons of usage	2013 (water meters installed)

Average for communities with population >7,500: 1.0% or \$34.59

Table 3b: Water system data in communities with population 500-7,500

	System Name	System Type	Population	MHI	Monthly bill based on 10,000 gallons used	Ratio of annual rate/MHI	Monthly rate explanation	Most recent improvement project completion
1	ABSAROKEE WATER DIST	D	1,100	\$ 39,985	\$37.00	1.1%	As of 2/16, \$22.00/ 4000, \$2.50 /1000, \$12.00 capitalization fee	August 2013 new water tank was completed
2	ANACONDA WATER DEPARTMENT	M	6,500	\$ 34,095	\$25.08	0.9%	Metered (winter): For 3/4 and 5/8 inch lines (majority of residential lines): Base rate is \$14.08 which includes 5,000 gallons of water and \$2.00/1,000 gallons over that. In the summer, rates are based on square footage of lots (to capture watering usage).	Ongoing (have four more years of five year meter installation project and 4 more years of 14 year main replacement project) 20 million in new mains since 2003 through 2016
3	BAKER CITY OF	M	1,948	\$ 48,208	\$36.60		Base rates vary depending on meter size. Average usage is 6,724 gallons/month (water) and 5,809 gallons (sewer)	2013
4	BELT TOWN OF	M	700	\$ 45,375	\$42/in town; \$65/out of town		42/mo for in-town users and \$65/mo for out of town users	2014
5	BIG SANDY TOWN OF	M	700	\$ 66,701	\$39.50	0.7%	Water: \$26.00 for 4,000 gallons and \$2.25/1,000 over that; Sewer (commercial): \$59.90 for 5,000 gallons and \$3.70/1,000 over that	Early 2000's (10+ years ago)
6	BIG SKY COUNTY WATER AND SEWER DIST 363	D	4,213	MADISON- \$47,762 GALLATIN- 52,833	\$41.63	1.0%	Base Charge: \$15.93/Month- \$47.79/Qtr Variable Charge \$2.57/1000for 0-60,000 Gals/Qtr \$3.85/1000 for 60,001- 90,000 Gals/Qtr 5.14/1000for 90,001-120 Gals/Qtr \$643/1000for >120,001 Gals/Qtr	2008
7	BIG TIMBER CITY OF	M	1,650	\$ 33,241	\$22	0.8%	Water: Base is \$22, \$1/1,000 gallons of usage, up to 30,000gal; then \$1.50 from 30,001 on up; Sewer: Base is \$10.90, \$1.90/1,000 gallons of usage	2013
8	BIGFORK COUNTY WATER AND SEWER	D	2,900	\$ 51,250	N/A		N/A	2014
9	BLACK EAGLE CASCADE COUNTY WATER SEWER	D	1,000	\$ 25,802	\$29.05	1.4%	\$29.05 (total can go up to \$37.50 with very large homes)	2014 (sewer)
10	BOULDER CITY OF	M	1,194	\$ 43,406	\$34.16	0.9%	\$14.38-water, O+M: \$19.78	2002
11	BRIDGER TOWN OF	M	750	\$ 42,917			\$33.23	
12	BROWNING TOWN OF	M	4,529	\$ 27,266				

Table 3b: Water system data in communities with population 500-7,500

	System Name	System Type	Population	MHI	Monthly bill based on 10,000 gallons used	Ratio of annual rate/MHI	Monthly rate explanation	Most recent improvement project completion
13	CASCADE TOWN OF	M	885	\$ 42,518	\$55.80	1.6%	Water: \$30.00 for first 2,000 gallons, \$2.60/1,000 over that; Sewer: \$31.78 for first 2,000, \$3.81/1,000 after that. Figure sewer usage on a 3 month average and add to the base rate. This amount is the total for the entire year.	2011
14	CHESTER TOWN OF	M	870	\$ 39,083	\$47.15	1.4%	Water: \$31.15 base with no water and \$1.60/1,000 gallons of usage	2008 (got stimulus money to line water ponds)
15	CHINOOK CITY OF	M	1,300	\$ 39,444	\$74.62	2.3%	Water: \$39.90 (3/4 inch meter); \$2.84/1,000 of usage (on an equivalent dwelling unit system--determines charges for each size meter)	Major rehab in progress. Completion April 2016
16	CHOTEAU CITY OF	M	1,781	\$ 30,417	N/A		N/A	2006
17	CIRCLE TOWN OF	M	615	\$ 30,417	\$70.00	2.8%	Water: \$35 for the first 2,500 gallons and \$5/1,000 over that; Sewer: \$17 for the first 2,500 gallons and then \$2/1,000 over that	N/A
18	COLSTRIP CITY OF	M	2,214	\$ 74,905	N/A		3/4"- \$35.66; 1"-\$63.83; 1 1/2" - \$142.64; 2"-\$254.61; 3"-\$570; 4"- \$1,018.81; 6"-\$2,292.59	
19	COLUMBIA FALLS CITY OF	M	4,450	\$ 37,196	\$20.20	0.7%	Water: \$8.50 base and \$1.17/1,000 gallons of usage for single family homes, \$1.00/1,000 for multi-family and industrial and \$1.05/1,000 for government buildings up to 6,000 gallons. Usage over that costs more. Sewer: \$7.35 base rate and \$5.00/1,000 gallons of usage	Over ten years (have a number of projects on the horizon). In the past ten years only small maintenance projects like line extensions and pump replacements
20	COLUMBUS TOWN OF	M	1,900	\$ 52,443	N/A		\$17.97 for 5,000 gallons (water); \$20.20 for 5,000 gallons (sewer)	2012
21	CONRAD WATER DEPT	M	2,501	\$ 29,167	\$61.83	2.5%	Water: \$38.04 base and \$1.30/1,000 gallons of usage during the summer season (May 20-Oct. 20) and \$3.15/1,000 gallons of usage in winter months (Oct. 21- May 19). Plus \$5 pump station fee. Sewer: \$27.00 for first 1,000 gallons and \$2.75/1,000 over that. Sewer is only metered Nov.-March, averaged and that average is the bill paid by customer in the summer months.	2006
22	CORAM COUNTY WATER AND SEWER DISTRICT	D	600	\$ 41,583	N/A		\$32.43	Two major extensions built since original, last one in 2006

Table 3b: Water system data in communities with population 500-7,500

	System Name	System Type	Population	MHI	Monthly bill based on 10,000 gallons used	Ratio of annual rate/MHI	Monthly rate explanation	Most recent improvement project completion
23	CULBERTSON TOWN OF	M	716	\$ 48,125	\$31.55	0.8%	Water: \$21.67 for 3,000 gallons and \$2.14/1,000 gallons usage	1983 (Spring of 2014 a water main replacement project is beginning)
24	CUT BANK CITY OF	M	3,105	\$ 43,125	N/A	N/A	N/A	2010
25	DARBY TOWN OF	M	700	\$ 34,489	\$37.57	1.3%	Water: Base is \$27.07 (\$12.21 water fee and 14.86 debt fee) for 3,000 gallons plus \$1.50 for every 1,000 gallons over that. Sewer is \$19.34 plus \$3.47 debt fee	2012
26	DEER LODGE CITY OF	M	3,421	\$ 41,351			Water \$15.97	
27	DILLON CITY OF	M	4,500	\$ 52,147	N/A	N/A	\$29.91- Bond cost charges per EDU; 3.42 Water R&Dper EDU; #.42 Sewer R&D per EDU; 1200/600 gallons @ \$2.00/gal; 16.5/6000 gallons @\$2.75per gallon	2008
28	EAST GLACIER CO WATER AND SEWER DIST	D	900	\$ 30,345

19	BLACK EAGLE CASCADE COUNTY WATER SEWER	D	1,000	\$ 25,802	\$29.05	1.4%	\$29.05 (total can go up to \$37.50 with very large homes)	2014 (sewer)
20	BOULDER CITY OF	M	1,194	\$ 43,406	\$34.16	0.9%	\$14.38-water, O+M: \$19.78	2002
21	BOZEMAN CITY OF	M	32,000	\$ 44,412	\$48.94	1.3%	Water: 5/8 line is \$15.02 (base goes up based on line size), \$2.44/1 HCF of usage for 0-8 HCF, 8-15 is \$2.62/HCF and 15+ is \$3.10/HCF. Sewer: \$17.05 base and \$2.82 per HCF	2013
22	BRADY COUNTY WATER AND SEWER DISTRICT	D	225	\$ 21,833	\$62.50	3.4%	\$60 base for up to 7,500 gallons of water. \$1/1,000 gallons over that	In progress. Should be completed by September 2014
23	BRIDGER TOWN OF	M	750	\$ 42,917			\$33.23	
24	BROADUS TOWN OF	M	450	\$ 37,721	\$45.16	1.4%	Water: \$23.86 base and \$2.13/1,000 for the first 50,000 gallons (no one goes over that); Sewer: \$12.97 for the first 3,000 gallons and \$.97/1,000 after that	No projects since at least 1999
25	BROADVIEW TOWN OF	M	200	\$ 39,167				
26	BROCKTON TOWN OF	M	245	\$ 35,000	N/A		Water: \$10.50 is base	1999/2000
27	BROWNING TOWN OF	M	4,529	\$ 27,266				
28	BUTTE SILVERBOW WATER DEPT	M	33,000	\$ 40,485	\$49.24	1.5%	\$26.84 for first 4,000 gallons of usage; flat rate is based on number of rooms in the house and number of bathrooms--the average is about \$46. Over the 4,000 gallons, residents are charged for CCF's by the hundred (and there is an incremental charge for each degree of usage)	Ongoing (every season a new section of the system is selected for upgrade based on merit/need). They also have grant funds from EPA NRD (Natural Resource Damages) to improve the water treatment plant)

Table 3d: Water systems listed by city names

	System Name	System Type	Population	MHI	Monthly bill based on 10,000 gallons used	Ratio of annual rate/MHI	Monthly rate explanation	Most recent improvement project completion
29	CARTER CHOUTEAU CO WATER DIST	D	200	\$ 26,667	\$147.50	6.6%	"Country" connections (who only get water and not sewer) pay \$161 for 15,000 gallons of water and "city" connections in town who get water and sewer pay \$134 for the first 15,000 gallons for water. Both types pay \$3/1,000 gallons overage.	Oct-13
30	CASCADE TOWN OF	M	885	\$ 42,518	\$55.80	1.6%	Water: \$30.00 for first 2,000 gallons, \$2.60/1,000 over that; Sewer: \$31.78 for first 2,000, \$3.81/1,000 after that. Figure sewer usage on a 3 month average and add to the base rate. This amount is the total for the entire year.	2011
31	CHESTER TOWN OF	M	870	\$ 39,083	\$47.15	1.4%	Water: \$31.15 base with no water and \$1.60/1,000 gallons of usage	2008 (got stimulus money to line water ponds)
32	CHINOOK CITY OF	M	1,300	\$ 39,444	\$74.62	2.3%	Water: \$39.90 (3/4 inch meter); \$2.84/1,000 of usage (on an equivalent dwelling unit system--determines charges for each size meter)	Major rehab in progress. Completion April 2016
33	CHOTEAU CITY OF	M	1,781	\$ 30,417	N/A		N/A	2006
34	CIRCLE TOWN OF	M	615	\$ 30,417	\$70.00	2.8%	Water: \$35 for the first 2,500 gallons and \$5/1,000 over that; Sewer: \$17 for the first 2,500 gallons and then \$2/1,000 over that	N/A
35	CLYDE PARK WATER DEPT	M	300	\$ 43,194	\$64.20	1.8%	\$52.68 for first 4,000 gallons and \$1.92/1,000 of usage over base	2009 (built reservoir and replaced some mains) Also, New Mains /Water System was expanded
36	CO WATER DIST OF BILLINGS HEIGHTS	D	12,000	\$ 44,375	Base + \$21.64	N/A	Based on the size of the meter	N/A
37	COLSTRIP CITY OF	M	2,214	\$ 74,905	N/A		3/4"- \$35.66; 1"-\$63.83; 1 1/2" - \$142.64; 2"-\$254.61; 3"-\$570; 4"- \$1,018.81; 6"- \$2,292.59	
38	COLUMBIA FALLS CITY OF	M	4,450	\$ 37,196	\$20.20	0.7%	Water: \$8.50 base and \$1.17/1,000 gallons of usage for single family homes, \$1.00/1,000 for multi-family and industrial and \$1.05/1,000 for government buildings up to 6,000 gallons. Usage over that costs more. Sewer: \$7.35 base rate and \$5.00/1,000 gallons of usage	Over ten years (have a number of projects on the horizon). In the past ten years only small maintenance projects like line extensions and pump replacements
39	COLUMBUS TOWN OF	M	1,900	\$ 52,443	N/A		\$17.97 for 5,000 gallons (water); \$20.20 for 5,000 gallons (sewer)	2012
40	CONRAD WATER DEPT	M	2,501	\$ 29,167	\$61.83	2.5%	Water: \$38.04 base and \$1.30/1,000 gallons of usage during the summer season (May 20-Oct. 20) and \$3.15/1,000 gallons of usage in winter months (Oct. 21- May 19). Plus \$5 pump station fee. Sewer: \$27.00 for first 1,000 gallons and \$2.75/1,000 over that. Sewer is only metered Nov.-March, averaged and that average is the bill paid by customer in the summer months.	2006

Sewer: If you are sewer only it is a \$21.00 flat rate, if you have water and sewer it is \$14.50 plus \$1.50/1,000 gallons over 2,000	2005-replaced many water lines
229	YELLOWSTONE Holiday WATER AND SEWER DIST	D	90	\$ 39,141				

Average for all communities in Montana: 1.5% or \$45.90

## Wastewater System Data

Tables 4a-e show the comparable responses collected from wastewater systems pertaining to wastewater rates; and 228 wastewater systems are represented below. The tables include system name; system type; population; MHI; monthly bill based on 6,000 gallons of usage; ratio of annual wastewater rate to MHI; a monthly rate charge explanation; and the date the most recent improvement project was completed. The table is split into three sections (a, b and c by population size category) and is sorted alphabetically.

Table 4a: Wastewater system data in communities with population >7,500

	System Name	System Type	Population	MHI	Monthly bill based on 6,000 gallons used	Ratio of annual rates/MHI	Residential monthly rate explanation	Most recent improvement project completion
1	BELGRADE CITY OF	M	7,798	\$ 38,343	\$26.90	0.8%	Sewer: \$24.93 base for 5,000 gallons and \$1.97/1,000	2004
2	BILLINGS CITY OF	M	108,869	\$ 48,908	\$24.80	0.6%	\$3.10/unit	2011
3	BOZEMAN CITY OF	M	32,000	\$ 44,412	\$42.07	1.1%	\$18.09 + \$2.99/HCF	2013
4	BUTTE SILVERBOW WATER DEPT	M	33,000	\$ 40,485	N/A	N/A		2015
5	CO WATER DIST OF BILLINGS HEIGHTS	D	12,000	\$ 44,375	N/A	N/A	N/A	N/A
6	GREAT FALLS CITY OF	M	59,351	\$ 42,170	\$42.42	1.2%	\$1.75 per 100 cf for 1st 300 cf, then 2.9 cfper 100 cf over 300 cf	2015(\$18 m in treatment plant upgrades )
7	HAVRE CITY OF	M	9,800	\$ 46,132	N/A	N/A	\$17.00 Base Rate, \$3.35/1,000 gallons	1999
8	HELENA WATER SYSTEM	M	31,005	\$ 35,310	\$22.60	0.8%	Residential (Single Family) Water Base - \$2.52 per month, Water Charge per Unit used - \$2.85; Wastewater Base - \$4.96 per month, Wastewater Charge per Unit used - \$2.20	2001
9	KALISPELL PUBLIC WORKS	M	21,800	\$ 46,581	\$37.12	1.0%	Wastewater: \$8.44 base \$4.78/1,000 gallons of usage.	Summer 2015
10	MILES CITY CITY OF	M	8,800	\$ 39,787	N/A	N/A	Water: 5/8" meter-\$12.95 \$3.25/1000 over base 3,000 gal	2013
11	MOUNTAIN WATER COMPANY (Missoula)	P	56,335	\$ 42,321	N/A	N/A	5/8" line: \$17.30 and \$2.003 per ccf of usage (typical line size for residential). Flat rate is \$51.54	N/A
12	WEST YELLOWSTONE TOWN OF	M	8,535	\$ 39,141	\$13.50	0.4%	\$10.15/VRU as a base and \$.40/1,000 gallons of usage	2012 (new lift station put in)

Average for communities with population >7,500: 0.80% or \$29.82

Table 4b: Wastewater system data in communities with population 500-7,500

	System Name	System Type	Population	MHI	Monthly bill based on 6,000 gallons used	Ratio of annual rates/MHI	Residential monthly rate explanation	Most recent improvement project completion
1	ABSAROKEE WATER DIST	D	1,100	\$ 39,985	N/A		\$17.00 for first 4,000 gallons and \$1.61/1,000 gallons over that. Temporary tank fee in place since 2012 and for the next year or so to pay for tank construction (\$17)	N/A
2	ANACONDA WATER DEPARTMENT	M	6,500	\$ 34,095	N/A	N/A	Metered (winter): For 3/4 and 5/8 inch lines (majority of residential lines): Base rate is \$14.08 which includes 5,000 gallons of water and \$2.00/1,000 gallons over that. In the summer, rates are based on square footage of lots (to capture watering usage).	N/A
3	BAKER CITY OF	M	1,948	\$ 48,208	N/A		Base rates vary depending on meter size. Average usage is 6724 gallons/month (water) and 5,809 gallons (sewer)	2013
4	BELT TOWN OF	M	700	\$ 45,375	\$43.00	1.1%	\$51.55	1979
5	BIG SANDY TOWN OF	M	700	\$ 66,701	\$63.60	1.1%	Water: \$26.00 for 4,000 gallons and \$2.25/1,000 over that; Sewer (commercial): \$59.90 for 5,000 gallons and \$3.70/1,000 over that	In the final phase of an \$8 million project which they had to do in order to stay in compliance. The project was shut down for the winter due to weather constraints but should be finished in Spring 2014
6	BIG SKY COUNTY WATER AND SEWER DIST 363	D	4,213	MADISON-\$47,762 GALLATIN-52,833	\$60.63	1.1%	\$24.63/Month- \$73.89/Qtr Variable Charge: \$6/1000 from 0 Gals	2004 (\$15 million wastewater treatment plant built)
7	BIG TIMBER CITY OF	M	1,650	\$ 33,241	\$22.30	0.8%	Sewer: Base is \$10.90, \$1.90/1,000 gallons of usage	2006
8	BIGFORK COUNTY WATER AND SEWER	D	2,900	\$ 51,250	N/A		N/A	2012
9	BLACK EAGLE CASCADE COUNTY WATER SEWER	D	1,000	\$ 25,802	\$29.70	1.4%	\$29.05 (total can go up to \$37.50 with very large homes)	Have RLG and grants so will be doing improvements Spring 2014

Table 4b: Wastewater system data in communities with population 500-7,500

	System Name	System Type	Population	MHI	Monthly bill based on 6,000 gallons used	Ratio of annual rates/MHI	Residential monthly rate explanation	Most recent improvement project completion
10	BOULDER CITY OF	M	1,194	\$ 43,406	N/A		\$22.07-water, O+M: \$25.77	Currently building new mechanical wastewater treatment system
11	BRIDGER TOWN OF	M	750	\$ 42,917			\$24.76/month	
12	BROWNING TOWN OF	M	4,529	\$ 27,266

223	WINIFRED TOWN OF	M	160	\$ 25,208	\$30	1.4%	N/A	2011 (have a PER out for repairs on the lagoon but were denied funding last round--planning to reapply for grant in the next round)
224	WINNETT TOWN OF	M	187	\$ 29,500	\$44	1.8%	sewer: \$26.62 and \$3.63/1,000 (sewer is averaged in winter and that rate is paid throughout summer to allow for irrigation)	1994
225	WOLF POINT CITY OF	M	3,915	\$ 42,218	\$25.78	0.7%	Water: \$16.78 for first 3,000 gallons \$2/1,000 gallons of usage	2007
226	WOODS BAY SHEAVER CREEK Water DISTRICT	D	680	\$ 38,661	N/A		Water: Base is \$48.75/5,000 gallons and an additional \$2.50/1,000 up to 12,500 gallons and \$3.50/1,000 up to 45000 gallons	N/A
227	WOODSIDE PARK WATER AND SEWER DISTRICT	D	50	\$ 25,481				
228	WORDEN BALLANTINE YELLOWSTONE	D	800	\$ 24,234	\$20.50	1.0%	Water: \$29.00 for the first 2,000 gallons, \$2.50/1,000 gallons over that plus a \$2.50 curb stop fee. Sewer: If you are sewer only it is a \$21.00 flat rate, if you have water and sewer it is \$14.50 plus \$1.50/1,000 gallons over 2,000	None since original build (only minor fixes and replacements)
229	YELLOWSTONE Holiday WATER AND SEWER DIST	D	90	\$ 39,141				

Average for all Montana communities: 1.10% or \$33.05

# Appendix A: Survey Questions

## *Survey Questions for Montana Utility Rate Study:*

1. How many water connections does your utility serve? How many are residential? Commercial?  
Wastewater? Residential/commercial?
2. Is your major community water source ground water or surface water?
3. Do you have a metered water system or is it flat rate?  
Sewer?
4. What is the base rate (if applicable)? Incremental charge over the base rate?
5. What is the average water bill for a typical single family dwelling, assuming three bedrooms and two baths?  
Wastewater?
6. When was your last rate increase for your water system?  
Wastewater?
7. What is your annual revenue for water?  
Wastewater?
8. On a scale of 1 to 5, with 5 being good, what do you perceive public perception of the (water and wastewater) rates to be?
9. When was your last major improvement project completed (water)?  
Wastewater?
10. What is the age of your system (water)?  
Wastewater?
11. What type of sewer system do you have? i.e. lagoon (facultative, aerated, non-discharge, etc.) or mechanical (ox ditch, MBR, SBR, etc.)?
12. *Do you currently have a compliance order in place/ are you in compliance with State of Montana's Department of Environmental Quality (DEQ)?*
13. Do you have any questions or comments?

## Appendix B: Water Data Sheets

Size Classification	System Name	Municipality vs. District	Population 2010 Census	In/Out Compliance (water only unless otherwise noted)	MHI	County	Ground water	Surface Water	Total Residential connections	Total Non-Residential	Metered system or flat rate?	Base rate and incremental charge (if applicable)	Amount based on 10,000 gallons of water use (res)	Annual Percentage of Water costs compared to MHI	Average Monthly Rate	Date of last rate increase	Annual Revenue	Age of System/year built	Date of Last Major Rehab	Customer Satisfaction on a 1-5 scale, 1 being poor and 5 being very good
>7,500	BILLINGS CITY OF	M	108,869	In (as of 1/2/14)	\$ 48,908	YELLOWSTONE		x	30,128	3,197	Metered	Water: 0-14ccf: \$2.21/unitccf; 15-43ccf: \$2.65/unit; 44-100ccf: \$3.45; >100ccf: \$5.18/unitSewer: \$2.75/CCF	\$28.73	0.7%	\$27	7/1/2015	\$21,107,365	Built in 1916	2007	2
>7,500	BOZEMAN CITY OF	M	32000	In (as of 2/21/14)	\$ 44,412	GALLATIN		x	8698(including low income connections)	3222 (includes commercial, municipal, industrial and multi-unit complexes)	Metered (99%--there are a few cases of flat rate)	Water: 5/8 line is \$15.02 (base goes up based on line size), \$2.44/1 HCF of usage for 0-8 HCF, 8-15 is \$2.62/HCF and 15+ is \$3.10/HCF. Sewer: \$17.05 base and \$2.82 per HCF	\$48.94	1.3%	\$32.10	9/1/2012	\$7,115,240	Lines date back to 1925	2013	3
>7,500	BUTTE SILVERBOW WATER DEPT	M	33000	In (as of 1/21/14)	\$ 40,485	SILVERBOW		x	12,550	n/a (do not separate residential from commercial)	56% of the city is metered and 44% is flat rate	\$26.84 for first 4,000 gallons of usage; flat rate is based on number of rooms in the house and number of bathrooms--the average is about \$46. Over the 4,000 gallons, residents are charged for CCF's by the hundred (and there is an incremental charge for each degree of usage)	\$49.24	1.5%	\$50.79 overall, \$46.00 for those with flat rate	Oct. 2013 (they have them annually--starting in 2010)--needs to be approved by the council of commissioners--but typically a 10% increase per year	\$8.65 million	Early 1900's (mining community)	Ongoing (every season a new section of the system is selected for upgrade based on merit/need). They also have grant funds from EPA NRD (Natural Resource Damages) to improve the water treatment plant)	3
>7,500	CO WATER DIST OF BILLINGS HEIGHTS	D	12000	In (as of 1/2/14)	\$ 44,375	YELLOWSTONE		x	5400	n/a (do not separate residential from commercial)	Metered	Based on the size of the meter	Base + \$21.64	N/A	\$47	7/1/15(rate increases depending on rate increase from the City of Billings)	Gross: \$3,779,593; Net: \$517,979 (this is the profit b/c they have to buy their water and then sell it)	NA	N/A	5
>7,500	GREAT FALLS CITY OF	M	59,351	In (as of 1/2/14)	\$ 42,832	CASCADE		x	18,413	2,478	Metered	\$1.21 for first 300cf and \$2.03 after base	\$21.24	0.6%	\$39	5/1/2015	\$9,940,322	1967 (46 years old)	N/A	4
