

So, What Are You Doing?

Posted by [nate hagens](#) on September 18, 2013 - 10:17pm

It's September and we still have 7 more 'final' posts in the queue (myself, Joules, Jerome, Jason, Art, Dave Murphy, and Euan...) and will run them every 2 days until finished. Leanan will post a final Drumbeat later this week where people can leave website links contact details, etc.

For 8 years we read about what people *think* about energy related themes. I thought it would be a good idea to use this thread to highlight what people are actually *doing* in their lives given the knowledge they've gleaned from studying this topic, which really is more of a study of the future of society.

What do TOD members plan to do in the future? Herding goats, fixing potholes, creating web sites, switching careers, etc? I'll go first. Feel free to use my template or just inform others what you're doing. This might be interesting thread to check back on in a few/many years.....(Please no posting of energy charts etc. and let's not respond to others in this thread, just a long list of what people are doing w/ their time).

Ere we scatter to the ether, please share, anonymously or otherwise : *what are people **doing**?*
