World Investment Service

Unit

The

Economist

A complete foreign investment decision-support tool

World Investment Service covers the world's 60 largest economies and provides detailed coverage of each country's investment profile over a five-year horizon.

Full-text reports cover the political and economic background, business environment, foreign investment regulations, and trends in foreign investment. A detailed database presents flows of investment by country and industry, overseas mergers and acquisitions, and business costs.

World Investment Service expands your understanding of each country beyond current conditions—it also identifies the opportunities and risks that may impact investments. Drawing on The Economist Intelligence Unit's renowned macroeconomic forecasts and forward-looking analysis—such as the Business Environment Rankings—World Investment Service provides a detailed picture of each country's investment potential.

Use World Investment Service to:

- Support your overseas investment plans.
- Monitor existing investments.
- Build customised country reports on the fly for your next meeting.
- Benchmark countries' performance to determine the best places for you to invest.
- Compare the cost of investments across 60 countries.
- Identify the countries ideal for foreign investment by industry.

280 variables are provided for each country

World Investment Service provides reliable, accurate, timely, and comparable statistics. The data is checked and vetted by our teams of country experts with the rigour you expect. Data series are provided for the following topics:
