GLOBAL  
RESPONSIBLE  
SUSTAINABLE

**Goldcorp** values the trust and respect of the people and communities in which it works. As part of our on-going commitment to transparency and community partnerships, Goldcorp has committed to the Global Reporting Index (GRI). The GRI is a comprehensive sustainability reporting framework which sets out principles and indicators to measure and report financial activities, as well as environmental and social performance. This factsheet outlines just some of the activities Goldcorp undertakes in the communities where it operates.

# 2007 COMPANY ACHIEVEMENTS

- Goldcorp contributed approximately \$15.4 million in host community support through direct and indirect investment, infrastructure development and donations.
- The Company won the 2007 Governor's Excellence in Mining and Reclamation Award, awarded by the Nevada Division of Minerals, for its reclamation and closure work at three mines in Nevada.
- Goldcorp's Marlin mine team was recognized by the Guatemalan-American Chamber of Commerce for their contribution to a community development program in San Marcos State in Guatemala. The 'Neighbors for Progress' project provided support through economic contribution to the development of San Miguel Ixtahuacán and Sipacapa as well as formal education and training to community members on how to administer a project and prioritize community needs.
- The Company became a signatory to the voluntary International Cyanide Code, which aims to provide third-party certification of cyanide use, transportation and storage.
- Goldcorp's Marigold mine was the first operating gold mine in the world to be fully certified under the International Cyanide Management Code.
- Recently, Goldcorp's El Sauzal mine was the first operating gold mine in Mexico to be fully certified under the International Cyanide Management Code.
- Goldcorp is a participant in the Carbon Disclosure Project (CDP), a non-profit organization which fosters collaboration between industry and research on climate change.

# CENTRAL & SOUTH AMERICA

AT GOLDCORP, WE BELIEVE OUR SUCCESS BEGINS WITH COMMUNITY DEVELOPMENT, ECONOMIC PROSPERITY AND ENVIRONMENTAL STEWARDSHIP. IN THE REGION, GOLDCORP OPERATES THE MARLIN MINE IN GUATEMALA, THE SAN MARTIN MINE IN HONDURAS AND HAS A 37.5 % INTEREST IN THE ALUMBRERA MINE IN ARGENTINA. SOME EXAMPLES OF OUR COMMUNITY DEVELOPMENT INITIATIVES INCLUDE:

## COMMUNITY INVESTMENT ACTIVITIES

---

- In 2007, Goldcorp provided over \$2.6 million dollars in community investment funding in Guatemala.
- The Company paid more than \$13 million in taxes and royalties to the Guatemalan government in 2007.
- Since 2004, Goldcorp paid out over \$35 million in wages to Guatemalan residents.
- To-date, the Company has spent a total of \$230 million on goods and services purchased in Guatemala.
- In 2000, Goldcorp founded the Fundación Sierra Madre (FSM), an organization designed to improve access to and quality of health services, to increase economic opportunities by supporting micro-loans, and to develop local community capacity. For example, through FSM more than 1,900 residents have received health care services, including immunization, prenatal services, support with high-risk pregnancies and a family nutrition pilot project.

- Since inception, the FSM micro-lending program established 38 communal micro-lending banks serving 611 women and providing access to over \$430,000 in capital.
- Since 2003, Goldcorp paid for teacher training and salaries as a way to increase the number of children who can attend school in Guatemala. This has led to higher enrollment and attendance numbers, boosting enrollment up to 71% in some communities. Goldcorp funded training for 37 teachers in nearby municipalities and provided funds to build new schools or upgrade existing schools in area communities.
- Goldcorp is funding and building a new urban centre in Nueva Esperanza, Guatemala, which will include a six-room school, community meeting centre and municipal offices.
- In 2005 Goldcorp helped establish the Asociación de Monitoreo Ambiental Comunitario (AMAC), an independent and community-based organization in Guatemala. AMAC monitors Goldcorp's environmental performance and is comprised of community-selected representatives.
- In 2007, 99% of workers at the Marlin mine were Guatemalan residents and approximately 68% of the workers were residents of local communities.
- The Marlin mine's Sustainable Development Department directly promoted and provided funding for 35 community projects in 2007 alone.
- The Incentivos Forestales – Forestry Incentive – finances reforestation in and outside of the mine site. To date, it has paid more than \$80,000 to local people who are planting and caring for trees.

# MEXICO

GOLDCORP WORKS WITH COMMUNITY MEMBERS AND ORGANIZATIONS TO IDENTIFY AND DEVELOP PROGRAMS THAT IMPROVE THE QUALITY OF LIFE FOR PEOPLE IN MEXICO. GOLDCORP MEXICO HAS BEEN DISTINGUISHED WITH THE TITLE OF “EMPRESA SOCIALMENTE RESPONSABLE” (SOCIALY RESPONSIBLE COMPANY), APPROVED BY THE CORPORATE RESPONSIBILITY SERVICE COMMITTEE, FOR THE ACTIVITIES PERFORMED DURING 2007 AT ALL ITS MEXICAN OPERATIONS. IN MEXICO, GOLDCORP OPERATES THE SAN DIMAS, EL SAUZAL, AND LOS FILOS MINES ALONG WITH THE PEÑASQUITO DEVELOPMENT PROJECT.

## COMMUNITY INVESTMENT ACTIVITIES

---

- Through support to social services programs, Goldcorp provides medical, dental, counseling and legal services to community members in San Dimas. For example, Goldcorp provided immunization to 1200 children.
- Goldcorp provided six small businesses with loans and grants in San Dimas. Business ventures included chicken farming, bakeries, sewing and laundry shops and small banks.
- At Los Filos, 80% of people employed at the mine come from local communities.
- In 2007, the Peñasquito project funded over \$133,000 to construct new water wells for the surrounding communities, including Mazapil and Palmas Grandes.
- Goldcorp's Peñasquito project employs a total of 2,626 people including contractors.
- Donated new computers and other equipment for schools in neighbouring communities of Peñasquito, totaling \$20,841 in 2007.
- Rescued and relocated 846,000 cacti and other native plants in the area to be developed during mine construction.

# CANADA & USA

GOLDCORP WORKS WITH COMMUNITIES AND FIRST NATIONS TO BUILD RELATIONSHIPS BASED ON SHARED OPPORTUNITIES AND RESPONSIBLE DEVELOPMENT. IN CANADA, GOLDCORP OPERATES THE RED LAKE, MUSSELWHITE AND PORCUPINE MINES AND THE ÉLÉONORE DEVELOPMENT PROJECT. IN THE UNITED STATES, GOLDCORP OWNS 66.7% OF THE MARIGOLD MINE AND THE WHARF MINE.

## COMMUNITY INVESTMENT ACTIVITIES

---

- Goldcorp contributed more than \$9 million in corporate donations within Canada in 2007. The focus has been on supporting community development programs and health care facilities, like the United Way and the British Columbia Children's Hospital, as well as partnering with educational institutions.
- Many Goldcorp operations have independent working groups to monitor the mines' environmental performance. For example, the Musselwhite Environmental Working Group includes First Nation and local representatives who regularly use an independent biologist to evaluate the environmental reports and operations of the Company.
- The Porcupine Gold Mine provided over \$166,000 to community programs or initiatives focusing on health, human resources, education and arts and culture.
- Goldcorp has committed \$2.5 million to the Capital for Aboriginal Prosperity and Entrepreneurship Fund.
- In 2005, an education centre was opened in Red Lake to provide training to First Nations and northern residents on mining technology. To date, 80% of the centre's students have been hired by Goldcorp following course completion.
- Goldcorp partnered with a number of universities to support training of engineers and earth sciences professionals. Total academic gifts and commitments entered into during 2007 and early 2008 amounted to over \$18 million.
- In early 2008, Porcupine mine received the 2008 Nova Award for Environmental Achievement by the Timmins District Chamber of Commerce in recognition of efforts to improve and enhance environmental conditions in and around the mine site.
