♦ New Course ❖ Nationally Accredited Training \* ACFE Subsidised Course

### LANDSCAPING & GARDEN MAINTENANCE

Learning the basics of how to create and maintain a garden from exploring design options through to caring for chosen plants. This course will teach you about possible horticulture training, volunteering and career pathways. Join CERES Trainer, Belinda Kennedy as she introduces you to the stages of designing, building, planting and maintaining a garden.

### SUSTAINABLE GARDENING

Interested in hands on sustainable gardening? Enthused about growing your own organic fruit, herbs and vegetables to share with your family and friends? If you want to know more about organic gardening but don't know where to start than this course is for you. Join CERES Trainer, Justin Calverley as he introduces you to the basics of horticulture, permaculture and organic gardening.

### THE COMPLETE URBAN FARMER

The Complete Urban Farmer course combines fourteen sessions including an introduction to permaculture, composting, bee keeping, propagating and seed saving, organic gardening – the list goes on! This program will give you the skills and knowledge to apply to your own urban patch or help you decide if a career in horticulture/permaculture is for you.

### THE COMPLETE URBAN FARMER - ADVANCED

Aimed at the advanced level, this eight week course will delve deeper into our most popular Complete Urban Farmer topics. In-depth sessions on site analysis, design features, fruit production and fertilising with some additional sessions on food forests, habitats and DIY construction.

### ENVIRONMENTAL EDUCATION

This course has been designed for people interested in creating change for sustainability through education and communication. Experienced educators and industry mentors will take you through experiential approaches to environmental education and effective ways to change behaviours and take action for sustainability.

### PERMACULTURE DESIGN COURSE

CERES PDC follows the Permaculture Educators Guild Syllabus which includes urban issues & reading the landscapes of cool temperate south-eastern Australia. The course is a mix of classroom presentations, workshops, design exercises, practical exercises and visits to properties to see permaculture in action. Delivered by a range of practicing permaculturists including David Holmgren, Joel Meadows & Graeme George.
