NetSuite SuiteSolutions – Lot Traceability

Description and Terms of Service

Overview of Functionality

The Lot Traceability SuiteSolution traces assembly lot items or component lot items up to the supplier or the customer.

1. Ability to backward trace assembly lot items using field filters like lot number, subsidiary, location, item, start date and end date.
2. Ability to forward trace component lot items using field filters like lot number, subsidiary, location, item, start date and end date.
3. Result Tabs – ability to display search result for backward tracing in the following tabs:
    - a   Fulfillment tab.
    - b   Build tab.
    - c   Procurement tab.
    - d   Other transactions tab.
4. Ability to export search results in form of a CSV file and email this attachment to the email address defined in the "Lot Traceability Preference" record.
5. Ability to set preferences on tracing assembly or components lot items that will take effect on the actual tracing of items using the lot traceability page.

Limitations:

1. Serialized item types are currently not supported.
2. All standard NetSuite Service usage and governance limits apply

Terms of Service:

SuiteSolutions are pre-built offerings used to accelerate the delivery of custom functionality into Customer's account. Any custom configurations or code deployed with SuiteSolution is not locked and can be further customized in Customer's NetSuite Service account. It is Customer's sole responsibility to review the functionality and limitations enabled by this SuiteSolution item before procuring. Unless specifically agreed in writing in a separate Statement of Work, SuiteSolutions are not supported, maintained or upgraded by Oracle. In addition, unless otherwise agreed upon in writing pursuant to a Statement of Work between Oracle and Customer, Customer is responsible for all testing and configuration of all SuiteSolutions. SuiteSolutions can only be deployed to the account of the specific Customer that has procured the SuiteSolution. SuiteSolutions are for Customer's internal use only for use with Customer's NetSuite Service account and cannot be re-bundled and/or shared. Customer may continue to use this SuiteSolution item during the term of their use of the NetSuite Service.

This item shall be considered a Deliverable (as such term is defined in the PS Terms) and is provided to you pursuant to and governed by (in order of preference, as applicable): (i) the Professional Services Addendum to the Oracle Subscription Services Agreement entered by and between the parties, (ii) the separate Oracle Professional Services Agreement entered by and between the parties; or (iii) if neither

(i) nor (ii) are applicable, the Oracle Professional Services Agreement found at www.netsuite.com/termsofservice (the "PS Terms").

The SuiteSolution may include open source software programs licensed under different terms or licensed by a vendor other than Oracle. To the extent that Oracle includes open source software in or with the SuiteSolution ("Open Source Software"), the licenses governing such Open Source Software will apply to Customer's access and use of such Open Source Software. If applicable, a list of certain Open Source Software notices applicable to the SuiteSolution is set forth below. Customer agrees to comply with all applicable provisions of the licenses and terms governing Open Source Software. Notwithstanding anything to the contrary set forth herein or in the PS Terms, Oracle is not responsible for, and makes no warranties, express or implied, related to Open Source Software and will have no liability for Customer's use of such Open Source Software.
