

if you see something say something

It takes a community to protect a community. Informed, alert communities play a critical role in keeping our prisoner listings up to date. At any time, any working class person can end up inside. We must support anarchist and other class struggle prisoners in their day to day fight for better conditions. Therefore we are now reaching out to each one of you to help us to keep up to date with prisoners' addresses, incarcerations and releases.

If you have a further interest in prison struggle

-

get in touch with us.
