

From Senator Richard Di Natale - Parliamentary Drug Summit, Wednesday 2nd March, 2016

Thank you for joining me and my colleagues Melissa Parke MP and Sharman Stone MP at the Parliamentary Drug Summit in Canberra on Wednesday.

We appreciate the considerable distances that some of you travelled in order to participate, and are grateful for your valuable contributions.

The Summit provided an important and overdue opportunity for state and federal parliamentarians to engage in a robust discussion on drug policy and law reform.

It is our intention that the Summit and accompanying Canberra Declaration will lay the foundations of a coalition of support towards effective policies to prevent and reduce all harms related with drug use and its control.

Please visit www.drugpolicyreform.com.au to add your signature to the Canberra Declaration on Illicit Drugs and consider responding to a short survey about the Summit and next steps [here](#).

You can also stay up to date with the Greens on drug and health-related campaigns by signing up [here](#).

We look forward to working with you.
