Try to fill in the missing numbers.

The missing numbers are integers between 0 and 9.  
 The numbers in each row add up to totals to the right.  
 The numbers in each column add up to the totals along the bottom.  
 The diagonal lines also add up the totals to the right.

When you complete the square, email a scan/photo of the completed square, or else a list of the missing numbers by row, to [moroncookbook@gmail.com](mailto:moroncookbook@gmail.com). First one to get it right wins a free cookbook, which will be sent out after the New Year. You must be willing to give us your mailing address to collect your prize. Go!!
