borderlands Style Guide

borderlands uses the Harvard style of referencing. More information about this style can be found at http://www.lib.monash.edu.au/tutorials/citing/harvard.html, or refer to the Australian *Style manual for authors, editors and printers*, 6th edn.

Citations in text

Short quotes should be 'enclosed in single quote marks and citations should be in this form' (Belich 1996, p. 36). Or (Berlant & Warner 1995, p. 344) or (Allen et al 2005).

> Quotations longer than 40 words should be inset like this, without quote marks. Citation should be placed after the final full stop like this. (Belich 1996, pp. 36-7)

Notes

If it is necessary to include extra information in notes, create them using the Microsoft Word endnote function and place the list of notes at the end of the document, after the author bio and acknowledgements and before the references (this can be done by creating a section break before the references and placing endnotes at end of section).

References

The list of references cited in the text should be arranged alphabetically by author's surname in the usual way. Below are examples of how to format specific types of source using Harvard referencing style. As stated above, a more extensive guide can be found at the Monash University website: http://www.lib.monash.edu.au/tutorials/citing/harvard.html.
