Performance Initiatives Undertaken 05/25/2016-05/24/2017

The Unit's Meteorologists continue to teach children across Utah through the Junior Weather Specialist program. This program gives students information about the weather and broadcast meteorology. Students from 79 schools/organizations participated during the reporting period.

The Unit's Engineering department offered one Teacher Internship. A teacher from Ridgeline High School spent 80 hours at the station researching career opportunities and production techniques to enhance their ability to educate their students. The teacher was able to see not only the technical functions and workflow, but also be exposed to the daily happenings of the newsroom and how crews and content are managed in those areas.

During the reporting period, the Unit participated in four (4) job and career fairs including: The Workability Career Exploration and Job Fair for People with Disabilities on October 4, 2016; the Hero 2 Hired career fairs on November 15, 2016 and again on March 23, 2017; the Salt Lake Community College South City Campus Job Fair on April 13, 2017.

During the reporting period, 23 students participated in the Unit's internship program: Brigham Young University (12 students), University of Oklahoma (3 students), Utah State University (2 students), Utah Valley University (2 students), Arizona State University (1 student), Brigham Young University-Idaho (1 student), University of Utah (1 student) and Weber State University (1 student). The internship program allows students majoring in the communications or related fields to receive academic credit while acquiring skills needed for employment in the broadcast industry. Departments involved included: KSL Radio News, KSL TV News, KSL TV Studio 5, KSL TV Sports, KSL TV Photojournalism, and KSL Engineering.

The Unit welcomed 920 Boy Scouts, Girl Scouts, Youth Groups, School Groups, Colleges, Family Groups, and Community Groups to our facilities, to learn about the broadcast industry by experiencing a tour. As the groups tour the stations, the staff answer questions and share the specific requirements, both educational and professional, required for a variety of positions within the television and radio industry. This tour allows individuals an opportunity to see a variety of departments and positions involved in producing television and radio broadcast.

Management and employees continue to share their broadcasting experiences by teaching and presenting at schools and civic groups. Our Radio News Director spoke to a journalism class at the University of Utah on February 16, 2017 about career paths in broadcasting and changes in the broadcasting industry. Our nighttime TV Anchor presented to the Brigham Young University Management Society on May 11, 2017 highlighting experiences from her career related to ethical leadership in business and broadcasting. Our morning anchor team hosted school assemblies regularly throughout the year aimed at teaching schoolchildren about careers in broadcasting. These assemblies took place at Copper Mountain Middle School (October 27, 2016), Summit Academy Bluffdale (December 1, 2016), Jordan High School (December 9, 2016), West Jordan Middle School (January 11, 2017), Joel P. Jensen Middle School (February 15, 2017), Lakeridge Junior High (February 24, 2017), and West Hills Middle School (March 27, 2017). Our morning anchor/reporter hosted the Lupus Foundation Gala on November 5, 2016 and spoke about a career in broadcasting as part of the program. Our morning anchor team also hosted a group of special needs students from a variety of local schools on March 28, 2017 and presented them with information about their career paths and careers in broadcasting and media. The HR Business Partner participated in a career development panel for students at the University of Utah on March 31, 2017, at which she discussed roles and career paths within broadcasting. Our Morning Music Host addressed students from the Brigham Young University Communications Department about building broadcast careers on March 30, 2017, and addressed the role of journalism in democracy to an audience at the Ogden Standard Examiner Awards on March 16, 2017. One of our radio reporting staff presented information about getting started on a career in radio broadcasting and the different jobs available to a group of students at the Mt. Jordan Middle School Career Fair on April 26, 2017.

During the reporting period, five (5) students participated in the Unit's job shadow program: University of Missouri, Columbia (summer 2016); home schooled student (October 5, 2016); Salt Lake Community College (November 1, 2017); Olympus High School (December 27, 2016 and April 21, 2017). This program enables the students to observe and learn about many aspects of a television and radio station. Employees share their experiences and educational backgrounds for a variety of careers in broadcasting.
