

What Should We Do?

See that your Youth Club and your Trade Union discuss this question. Get your work-mates to sign petitions and send resolutions to the Prime Minister, to the Secretary of U.N.O.

REMEMBER THESE FOUR POINTS

- Demand that the Australian Government recognise the State of Israel.
- Demand that the decision of U.N.O. be implemented.
- Don't be fooled by the Jew-baiters.
- Work for world peace and international friendship.

WHAT'S GOING ON IN PALESTINE?

Oil is Thicker than Blood

- PALESTINE, romantic Mediterranean country.
- PALESTINE, holy place of Christians, Jews and Moslems.
- PALESTINE, the place where a terrible conflict rages.

What's Happening in Palestine?

Palestine is, beside those things, the country to which oil pipe-lines lead, a convenient strategical position for any future war. So the British and American oil-kings want to ensure their grip on Palestine. They want to ensure that oil will continue to flow freely to make bigger profits for them. Even if this means that blood must flow freely in Palestine.

For this purpose, the British oil kings have ordered their Arab puppets to attack the new Jewish State of Israel, set up by the United Nations.

These Arab Chieftains are the worst kind of feudal landlords, grinding their peasants into appalling poverty.

But without foreign help they could never win.

Who Helps the Arabs?

They are being helped by the British millionaires and their stooges in the British Government like Mr. Bevin. The British are financing and leading the Arab armies despite the U.N.O. decision supporting the partition of Palestine.

The Transjordan Army is led by Brigadier Glubb and is costing millions to the British taxpayers.

But What About America?

The American oil-kings wouldn't mind their British counterparts losing control, as long as they can take over. Not being sure of themselves, they have been playing a two-faced game, changing their policy once a month. In March, America supported partition, in April they opposed it, in May they were in favor again.

Of the great powers, only the Soviet Union has consistently supported the U.N.O. policy for the partition of Palestine into independent Jewish and Arab States.

Why Should I Care About It?

Because a threat to peace anywhere is a threat to peace everywhere. Before the last war we let the Japanese get away with their attack on Manchuria, the Italian fascists with their attack on Abyssinia, and the German Nazis with their attacks on Spain and Czechoslovakia.

If we let this threat go without enforcing the U.N.O. plan, then we are one step nearer war.

Only the big bosses would gain from another war.

They are preparing a war unequalled in history with bigger atom bombs and germ warfare. It is only the unity of all working and democratic people that can defeat their schemes. That's why they are trying to split the people into black and white, Jew and non-Jew, Catholic and Protestant. Only if the people are disunited can their plans succeed.

Who are the Jew-Baiters?

The Jew-baiters are the enemies of the people, the same as the Nazis were. The Nazis didn't only attack the Jews, they attacked the Catholics, Protestants, Communists and Labor Party members. They cut wages, increased hours of work and prepared for the second world war.

The Jew-baiters are working for the big bosses. Some people unfortunately fall for their lying propaganda. We have to show them that by doing this they only harm themselves. And when we meet a Jew-baiter, let's expose him as a bosses' stooge.
