

Jericho 10th Anniversary March to the United Nations

"One of the first steps we are going to become involved in as an Organization of Afro-American Unity will be to work with every leader and other organization in this country interested in a program designed to bring your and my problem before the United Nations . . . We must take it out of the hands of the United States government."
 – Malcolm X, Speech at Founding Rally of the OAAU, 28 June 1964
