

SCHOOL GARDENS PROGRAM

Implementing a school garden can revolutionise the way students think about sustainability. CERES has a holistic approach to garden design which incorporates permaculture practices to suit individual school needs.

what we offer...

To set up a productive, sustainable and engaging school garden, ceres provides site consultation, garden design and installation of a range of products from the ceres school gardens catalogue.

price guide...

CERES tailors its programs to suit individual school needs. garden bed prices start from \$350 and are available in a range of sizes. For a more detailed list of products including composting & chook pens order a copy of our school gardens catalogue.
