KEY ACTION POINTS

Against the Censorship Machine

The focus in our fight against the Censorship Machine remains on ensuring that the whole EU Parliament is against the current Article 13. To reach our goal, we will address all 750 MEPs around *key moments.* Below you will find a map of the opportunities we could have to challenge the Censorship Machine, as the file makes its way through the EU decision-making process. The brighter rectangles represent the path to a brighter future for our internet - help secure it now!
