

¡REVOLUCIÓN!

CUBAN POSTER ART

Lincoln Cushing

Beautifully designed, colorful, and political, the poster was the popstar artform in the years following the Cuban Revolution, when the new Cuban government sponsored some 10,000 public posters. Distributed across the country, the posters called the Cuban people to the monumental task of building a new society, while also celebrating Cuban music, dance, sports, and film. *Revoluciona!* collects more than 120 of these powerful but little-seen works of art, offering a fascinating window into the story of Cuba—and a truly revolutionary chapter in graphic design.
