# DEFEAT FORD

TAKE THE FIGHT TO DOUG'S DOORSTEP

Doug Ford is a corrupt multi-millionaire whose party's record is one of destroying Ontario's public services, increasing poverty, and intensifying racism and bigotry. A Ford government promises corporate welfare and tax-breaks for the rich, and service cuts for the rest of us who depend on public hospitals, education, roads, transit, income support and decent jobs.

We believe the only way for the struggling people of this province to win is to build determined social movements capable of taking on whoever gets in power. Ford would take the ongoing attack on poor and working class people to a new level, and so a resistance movement powerful enough to confront and defeat him must be built.

Support for Ford is slipping but a hard-right government led by the Conservatives remains a serious possibility. So join us on June 2 to demonstrate opposition to Ford's agenda and to give him a preview of the resistance that awaits him should he become Premier of Ontario.
