

LASER DENTISTRY

A NEW HOPE

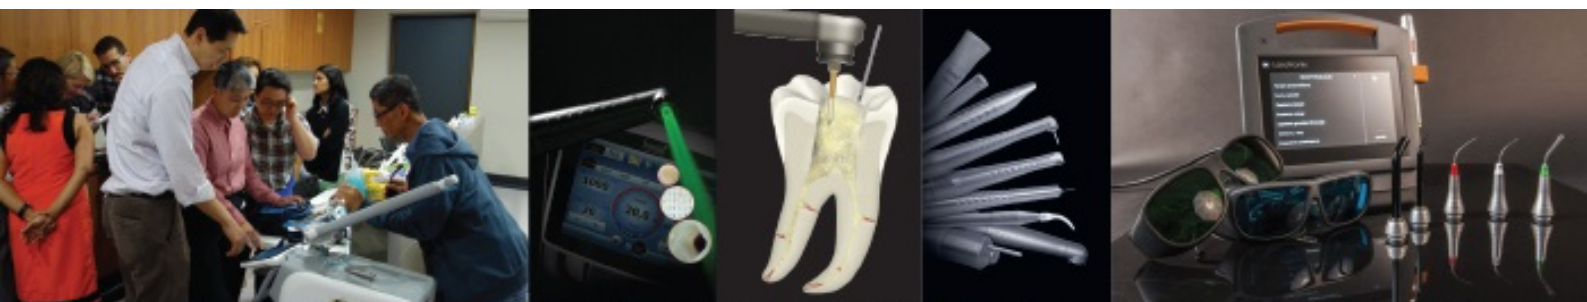

How lasers are transforming
the practice of Dentistry

Starring **JASON PANG**

Reserve your special advanced screening
Seats are strictly limited

Gold Coast Mon 18th June, Melbourne Sat 23rd June,
Sydney Sat 30th June

Here's what he will share:

Not all lasers are the same: Find out what each wavelength can do so that you can make an informed choice

More efficient restorations: Less anaesthesia and less discomfort during treatment and post-recovery

Soft and hard tissue treatments: What can you do with your current laser?

One visit root canal treatment: More efficient with less post-op discomfort

Laser whitening: Accelerate whitening esp. internal bleaching

Photobiomodulation: Learn the most under-utilised aspect of laser dentistry

Lasers for snoring: How lasers can help improve airway related breathing disorders

Perio and implants: Why lasers can be used for true bone regeneration

Facial aesthetics: Now you & your colleagues can do so much more!
