BOSTON, FRIDAY, DECEMBER 29, 1843.

WHOLE NO. 677.

SELECTIONS. From the Journal of Commerce. The United States and Mexico. Intelligence of Wednesday...

For him to comply. The United States will not submit to such injustice, and so plan an infraction of treaty stipulations. It will be proper for you, therefore, to complain of the liberal character of the whole order, and to protest in the strongest manner against the provisions of the fourth section of it...

From the Delh Gazette, Aug. 10th. We are able to state, for the information of some of our contemporaries at a distance, who appear to have misapprehensions on the subject, the result of the two respecting the progress of Mr. Thompson's mission to Delhi. The first may be believed to be, and is, as follows:—Previous to Mr. Thompson's arrival in Delhi, the King had written to Mr. Clark, the Lieutenant-Governor, informing him of the nature of Mr. Thompson's appointment, and requesting free communication with that gentleman, as His Majesty's accredited agent.

That this cover may not go blank, I transcribe from my note-book, a sonnet written on the morning of the 1st August. SONNET. WRITTEN ON THE MORNING OF 1ST AUGUST. Yes, you lack courage in the trying hour. When Truth contends with Error, Right with Power, When Persecution lifts its horrid head, And pines from the tyrant's breast has fled.

My DEAR FRIEND,—Notwithstanding the bulk of my dispatch on the 10th, I must inflict upon you a supplementary letter, that you may have the earliest intelligence of my reception at the hands of His Majesty the King. The enclosed paragraph will explain the reasons why I did not before go to the King. This morning at eight o'clock, was fixed for my reception at the palace. Soon after six, my escort arrived, and consisted of mounted men, a great number of others on foot, carrying swords, several elephants, and an open carriage for me and my immediate attendants. A little before eight I started, and soon reached the fort within which the palace is situated.

THE HALL OF AUDIENCE is a spacious pavilion of white marble, elevated on a terrace of the same material, and is 150 feet in length; by 40 in breadth. Its pillars and arches are most exquisitely carved, and ornamented with gault and inland flowers, and inscriptions in the Persian character. Round the frieze, is the motto—'It here is an Elysium on earth, it is this, it is this! But, thy glory has departed. Instead of the lines I have quoted—'Ichabod'—or 'His transit gloria mundi' might be written in their place. Some other time I will give you a longer and a better description.

From the Delh Gazette, Aug. 10th. We are able to state, for the information of some of our contemporaries at a distance, who appear to have misapprehensions on the subject, the result of the two respecting the progress of Mr. Thompson's mission to Delhi. The first may be believed to be, and is, as follows:—Previous to Mr. Thompson's arrival in Delhi, the King had written to Mr. Clark, the Lieutenant-Governor, informing him of the nature of Mr. Thompson's appointment, and requesting free communication with that gentleman, as His Majesty's accredited agent.

General Almonte, Mexican Minister at Washington, in a communication to Mr. Upham, writes as follows:—'If, contrary to the hopes and wishes entertained by the government of the undersigned for the preservation of the good understanding and harmony which should reign between the two neighboring and friendly republics, the United States should, in defiance of good faith and of the principles of justice which they have ever professed, commit the crime of appropriating to themselves an integral part of the Mexican territory, the undersigned, in the most solemn manner, against such aggression; and he moreover declares, by express proclamation, that he will not recognize the incorporation of the territory in question into the United States, he will consider his mission ended, seeing that, as the Secretary of State will have learned, the Mexican government is resolved to declare war as soon as it receives information of such an act.'

From the Appendix to the Ninth Annual Report of the Glasgow Emancipation Society. George Thompson in India. Further communications from Mr. Thompson, addressed to one of the Secretaries of the Glasgow Emancipation Society, have been received; accompanied by extracts from sundry Calcutta newspapers, the Delh Gazette, &c. The dates are from the 10th July, to the 10th September. The reader will observe that Mr. Thompson's first letter from Delhi, is dated 8th August; while those he refers to in the commencement of his letter of the 10th, must have been lost in the wreck of the steamer 'Mannan,' as they have never come to hand. We regret the want of them, as the details they contained would, doubtless, have proved equally interesting with those we have now the pleasure to record.

My DEAR FRIEND,—I have now been a month in Delhi. By the last mail, informed you of the circumstances which led me to come here direct from Calcutta, and I gave you, in letters which I posted on the 30th of June, and the 6th of July, some account of my journey for 800 miles on the road. I arrived within three miles of the city on the night of the 8th of July, but was not permitted to proceed further, as the King had arranged to give me a suitable entertainment on the road by a party of the King's nobles, viz., clergymen, priests, sages, silver-slicks, &c., &c.; and being placed in a glittering howdah of crimson and gold, on the back of a majestic elephant, was brought into Delhi, and conducted to the residence provided for me, where I received the respects of a large number of the persons belonging to His Majesty's court, and was then left in quietness. Here I have remained ever since, busied with the study of the eventful and interesting objects around me. I have explored the city and its neighborhood—visited and been visited by the principal persons—and, during the heat of the day, have devoted myself to reading on the subject of the rise and fall of those empires which have had their seats on this spot, or in the immediate neighborhood. I deem myself fortunate in having, as I have, in consequence of peculiar circumstances, been able to see whatever is worth inspection, in the city of Delhi, and these I have seen, and so far as the buildings, where eastern jealousy keeps watch over female beauty. The present city of Delhi is of comparatively modern date. It is one of the finest, if not the very finest city out of Europe—surrounded on three sides with a very handsome wall of red stone, and on the fourth side by the Jumna, which, starting this rainy season, is broad, rapid, and full of boats, and, in fact, is a most magnificent spectacle. The city is situated on the banks of the river, and is a most beautiful and fertile spot. The city is situated on the banks of the river, and is a most beautiful and fertile spot.
